

A List of Establishments, Discontinuances, and Changes in Name of the Post Offices in the Confederate States

Source: Confederate Post Office Department booklet

Published: [January 1864]

Many entries in the booklet record changes made in post offices, in the period before the Confederacy took over the postal system.

The listings are not complete for the period ending in January 1864. The best information on the establishment and discontinuances of post offices is found in the "Order and Journal Book of the Postmaster General" and the "Letter Book of the Appointment Bureau."

The booklet bears no date. However, the probable date can be found in the "Letter Books of the Appointment Bureau." A letter dated 28 November 1864, from Benjamin Clements, Chief of the Appointment Bureau, states the booklet contains "the lists of Establishments, Discontinuances and changes in name of Postoffices in the Confederacy, up to January 1864."
