PREFACE.

In tendering to the citizens of our State the First Edition of the TENNESSEE STATE GAZETTEER AND CLASSIFIED BUSINESS DIRECTORY, the publisher desires to present his thanks to Postmasters and others, who have kindly aided him in the undertaking, and cheerfully acknowledges his indebtedness to the liberality of his patrons, for the "material aid" necessary for the successful prosecution of the enterprise.

The BUSINESS MAN who is desirous of knowing what Tennessee *is*, rather than what she *was*, is amply compensated for an occasional error by freshness of detail, and will properly appreciate a work of general correctness and utility. The value of a work of this character to him, depends chiefly on the *rapidity* with which its details are collected and presented to the public, and being fully advised of the intricate character of the enterprise, he anticipates only that degree of perfection which the nature of the case admits. In short, he will be quite surprised if the millennial day of *perfect* Directories, precedes the establishment of the aerial passenger line across the Atlantic.

This work will be published biennially. The Second Edition will be issued near the close of 1861, and will embody the details of the national census of 1860, and will also contain a complete Newspaper Record of the State, with other matters of general interest. The experience of the past will be incorporated in the future, and no effort will be spared by the publisher to constitute the next issue a still more valuable index of reference.

JOHN L. MITCHELL.

LANE & BODLEY,

MANUFACTURERS OF

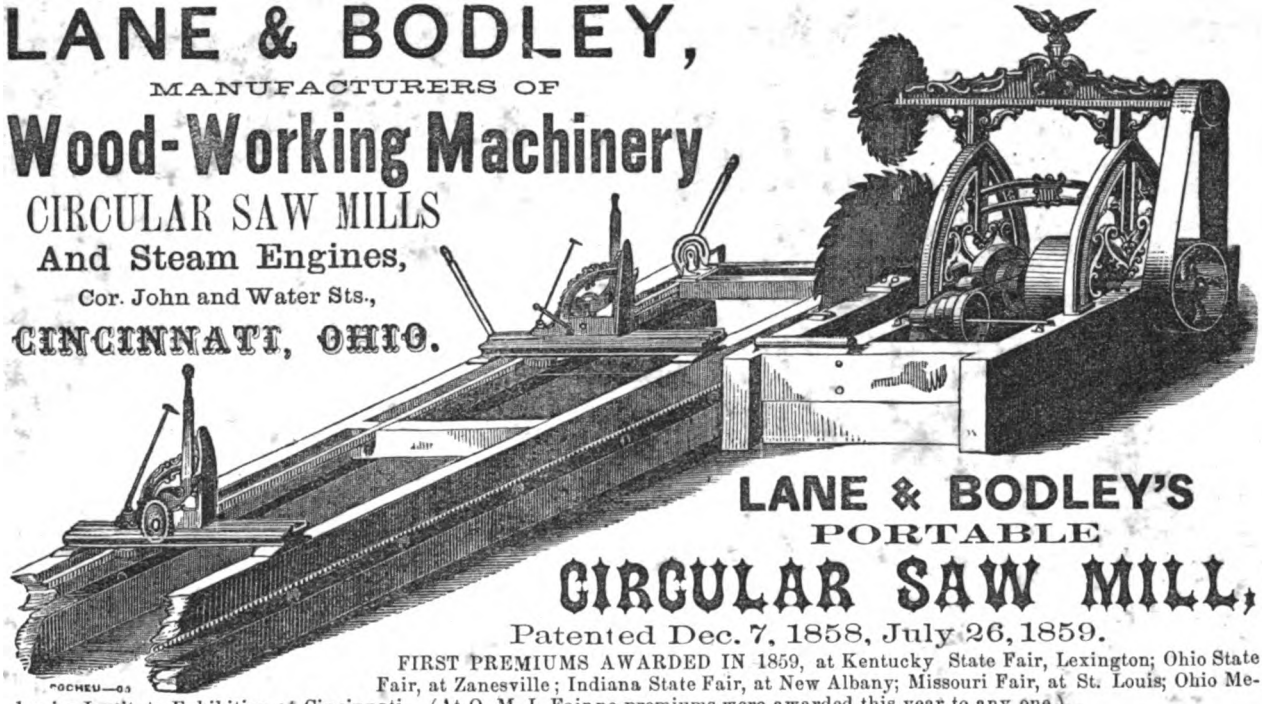
Wood-Working Machinery,

CIRCULAR SAW MILLS

And Steam Engines,

Cor. John and Water Sts.,

CINCINNATI, OHIO.



LANE & BODLEY'S PORTABLE CIRCULAR SAW MILL,

Patented Dec. 7, 1858, July 26, 1859.

FIRST PREMIUMS AWARDED IN 1859, at Kentucky State Fair, Lexington; Ohio State Fair, at Zanesville; Indiana State Fair, at New Albany; Missouri Fair, at St. Louis; Ohio Mechanics Institute Exhibition at Cincinnati. (At O. M. I. Fair no premiums were awarded this year to any one.)

It combines many improvements of detail and convenience found in no other mill, among which may be enumerated the "Elastic Cushions" for restraining and controlling the lateral motion of the saw, the Simultaneous and Independent Head Blocks, and the new and unequalled "Friction Feed," which gives the sawyer the most perfect control of his mill. These improvements, together with the **unusual strength of its parts, beauty of design, and excellence of workmanship are its recommendations.**

Dr. H. J. HULCE,

Late Professor of the Theory and Practice of Medicine—Professor of Surgery and Clinic Medicine in the Memphis Medical Institute, Tenn.,

Is Permanently located at Louisville, Ky.,

OFFICE adjoining his Residence on Jefferson Street,

BETWEEN FLOYD AND PRESTON,

Where he devotes his whole time to the treatment of all kinds and forms of Chronic Disease. Special attention is devoted to disease of the Eye, Lungs, Skin, Female Diseases, also Diseases of the Stomach and Bowels and Rectum.

NOTICES.

DR. HULCE.—This gentleman has earned a high and well deserved reputation from all who know him in the treatment of chronic diseases, and especially fistula and diseases of the bowels, and their complication with other diseases of the system.

But if there still remains a doubt in the mind of any one, for the benefit of such, we, the undersigned, being citizens of Louisville, and having been treated by Dr. Hulce, and from our knowledge of his success, do recommend his treatment with all confidence as being mild, entirely safe and certain, and having never known him to fail or any bad effects to follow his cures.

W. P. CAMPBELL, Tobacco Inspector,
W. P. B. KENNEDY, Stair Builder,
JAMES LILLY, Lawyer,
J. W. ROWLAND, firm Smith, Guthrie & Co.
CAPT. JOHN SHALLCROSS,
WM. BISHOP, Proprietor of National Hotel.

In reference to the permanency of cure we refer to Willis Peak, of Warsaw, Ky., and Dr Bryan, of Lexington, Ky., two of the worst and most hopeless cases known, having been operated upon and treated by several physicians before applying to Dr. Hulce. Dr. Bryan has been cured several years, and has rode thousands of miles on horseback. Mr. Peak has also been cured several years, and remains sound and enjoying fine health.

Dr. T. J. Bryan is entitled to full confidence. His case and cure by Dr. Hulce are known to me. I also know Dr. Hulce to be a gentleman worthy of all confidence, of extensive scientific attainments, possessing remarkable candor and skill in the treatment of chronic diseases.

Eld. D. P. HENDERSON. J. J. RAILEY.
D. SPAULDING, Jr., W. P. CAMPBELL.

P. S. We are well acquainted with Willis Peak, of Warsaw, Ky., and take pleasure in stating that we know him to be a gentleman of the first standing and respectability and of unquestionable veracity.

Anderson, McLane & Co.; McDowell, Young, & Co.; Garvin, Bell & Co.; Cassedy & Hopkins; S. G. Henry; Kean, Steadman & Co., proprietors of Louisville Hotel; John Raine, proprietor of Galt House; S. F. Hildreth, Captain Telegraph; Captain Summons, of J. Strader. Refer to Eld. Franklin, Cincinnati; Eld. D. S. Burnett, N. Y. City; Jas. Hewett, N. Y. City; Norton, Hughes & Co., N. O.; Parmele & Brothers, N. O.

The following highly respectable gentlemen have either been treated or are acquainted with persons cured by Dr. Hulce:

MORTON & GRISWOLD.	MILLER & WINGATE.
HALL & GARNETT.	CANNON & CAMPBELL.
JOHN POPESTON.	W. H. GRANGER.
JAMES SPEED.	C. R. MOORE.
J. GROUMAN.	COLEMAN DANIEL.
BENEDICT SACK.	J. LANDIS.

Dr. Hulce has discovered the primary cause of Fistula; also appropriate internal remedies and external dressing essential for the removal of the fistulous virus; and radical cure of the generating cause of the disease—while the common practice with the knife, or ligature, or coustic, iodine, &c., only leaves the virus in the system to settle upon the lungs, or liver, or glands of the bowels.

☞ TO ALL WHO VALUE THEIR SIGHT. ☜

C. MULLER, OPTICIAN,

Manufacturer of a newly invented and Improved Spectacle. 341 Main Street, bet. Union and Gayoso, Memphis, Tenn. Having made the above particular branch of business my enclusive study for many years, I have obtained a thorough knowledge of the Eye and all its Changes, together with several years' practical experience, I am enabled to decide with certainty on the mere inspection of the eye what sort of lens is best suited to correct the defect in vision. I can flatter myself in saying that I have no superior, and confidently solicit the favors of all who value their sight, assuring those who trust us with their commands that no exertion shall be wanting on my part to merit their confidence and approbation. My assortment of Spectacles is not surpassed by any in the United States. Satisfactory references given if required in any State South or South-west. Every Spectacle will be accurately adjusted to the eye, so as to enable the wearer to pursue the most minute employment, either by day or candle light, with perfect ease and satisfaction, without creating that sense of weakness or fatigue to the organ generally complained of. Spectacles forwarded to any part of the United States by mail, at my own risk. All orders received by mail will be personally attended to. Persons wishing to order spectacles should send me their names and postoffice. I will send a circular of particulars about directions, list of prices, and the manner of their construction. Address, C. MULLER, Optician, Memphis, Tenn.

CAUTION!—Numerous complaints of persons through the country having been imposed on by unprincipled individuals pretending to be my agents, render it necessary that I should caution the public against such vendors, and protect my reputation. I have no agents, nor will I suffer my Spectacles to be sold by persons having no knowledge of the Eye. It is my personal experience in connection with these superior glasses that render such universal satisfaction. Old frames re-set with Glasses to suit the Eye.

Jewelry Neatly Repaired! Watch Repairing. I would ask my friends and the public in general to favor me with their patronage in this branch of business, being determined that work entrusted to me shall give entire satisfaction. Regardless of expense I have employed very superior Swiss workmen, thus enabling me to have faithful work done upon short notice, in the best possible manner, and warranted.

C. MULLER, Optician, Memphis, Tenn.

A town of the same name, situated in White county, was established in 1831.

CHARLOTTE,

An important post village and the capital of Dickson county, in the north-west central part of the State, situated on Jones' creek, a branch of Harpeth river, about 35 miles west from Nashville.

It was established in 1804, and partially destroyed by a tornado in 1830. It contains a Court House, county offices, &c.

CHASEVILLE,

A small post village of Benton county, in the west central part of the State, situated on Birdsong creek, west of the Tennessee river, about 80 miles west from Nashville.

CHATATY,

A post village of Bradley county, in the south-eastern part of the State, about 140 miles south-east from Nashville.

CHATTANOOGA,

A flourishing and important post city of Hamilton county, in the south-eastern part of the State, situated on the south branch of the Tennessee river, and near the Georgia State line, 12 miles south from Harrison, the capital of the county, 151 miles south south-east from Nashville, fare $6.00—312 miles from Memphis, fare $12.00—110 miles from Knoxville, fare $5.00—138 miles from Atlanta, Georgia, fare $5.00—and by stage route 112 miles from Jacksonville, Alabama, fare $8.00.

It is the terminus of five railroads, four of which—the Nashville and Chattanooga, the Memphis and Charleston, the Western and Atlantic, and the East Tennessee and Georgia, are completed—and the North-East and South-West railroad in course of construction.

The Tennessee river is navigable by steam about eight months in the year, and by small boats at all times.

Chattanooga is one of the most important and flourishing places in the State, and is rapidly increasing in wealth and population. It is beautifully situated at the base of "Look Out Mountain"—a noted summer resort. The mountain is elevated to the height of two thousand feet above the level of the Tennessee river, and from its summit a fine view is obtained of portions of Alabama, Georgia and Tennessee. At its base is the entrance to a celebrated cave, which has been partially explored some seven or eight miles, but its dimensions have not been fully ascertained.

The surrounding country is liberally supplied with water power and timber, and the hills contain vast quantities of stone coal and iron ore of superior quality. Native marble is abundant, and is exported largely from this place. It contains one Catholic and four Protestant churches, a female institute and male high school, one Masonic Lodge and Chapter, two banks—the Bank of Chattanooga, W. D. Fulton, Cashier; John Overton, President; capital $421,400, and a branch of the Union Bank of Tennessee, R. B. Campbell, Cashier; J. B. Johnson, President; three weekly newspapers, the *Advertiser*, published by H. F. Cooper, on Thursday, the *Gazette*, by James R. Hood, on Saturday, and the *Southern Reflector*, by John W. Ford & Sons, on Tuesday, one iron furnace and an extensive foundry and machine shop, a rolling mill in course of construction, one sash, blind and door manufactory, one tannery, one distillery, two flouring mills, about thirty stores of various kinds, and numerous and varied trades and professions. Population 3,500.

KNOB CREEK,

A post office of Washington county, in the north-eastern extremity of the State, about 75 miles east from Nashville.

KNOXVILLE,

An important post city and the capital of Knox county, in the eastern part of the State, beautifully situated on a commanding elevation, at the head of navigation, on the right bank of Holston river, about four miles below the confluence of French Broad river, and at the junction of the East Tennessee and Georgia and Virginia, and the Knoxville and Kentucky Railroads, and the Knoxville and Charleston Railroad, now in construction, 277 miles south of east from Nashville, and 112 miles from Chattanooga.

It was established in 1792, and named in honor of Major General Knox, then Secretary of War, and incorporated in 1817, previous to which time it was the capital of the State. Its situation, as described by the *Knoxville Whig*, is "elevated and healthy beyond that of any city of a similar population we have ever known. The blue mountains of Chilhowee loom up on the south, thirty miles distant. The Clinch and Cumberland mountains on the north, twenty and thirty miles distant, are equally grand, both summer and winter. The water is as good as ever came out of the earth, and springs are abundant in and around the city. A more healthy city, according to the population, cannot be found south of the Potomac."

Knoxville contains the public buildings of the county, one Catholic and seven or eight Protestant churches, several flourishing literary institutions, among which are the East Tennessee University, founded in 1807, and a female institute of established reputation, with schools of various grades; also the State Deaf and Dumb school, a noble and popular institution, several be-

nevolent institutions of various orders, three newspapers, the *Knoxville Whig*, published tri-weekly and weekly on Saturday, by W. G. Brownlow; the *Register*, and the *Presbyterian Witness*, a religious paper under the control of the United Synod, published weekly. Several banks and other organizations and institutions, for a list of which, the reader is referred to the accompanying statistics. Population about 6,000.

MEIGSVILLE,

A post village of Jackson county, in the northern part of the State, and near the Kentucky State line, situated near the Cumberland river, east of north from Gainsboro', the capital of the county, about 85 miles east north-east from Nashville.

MEMPHIS,

A flourishing and important post city, and port of entry of Shelby county, near the south-western extremity of the State, beautifully situated on the east bank of the Mississippi, just below the mouth of Wolf river, and on the fourth Chickasaw bluff, 420 miles below St. Louis, and about 225 miles west south-west from Nashville.

It was the former site of Fort Assumption, erected for a defence from the Chickasaw Indians. The bluff on which the city is built is elevated some 30 feet above the highest floods, commanding a fine view of the river and surrounding country. It has an excellent landing, formed from a bed of sandstone, which projects into the stream, and is the only known stratum of rocks below the Ohio river.

Memphis is the commercial metropolis of West Tennessee and large portions of adjacent States, and is the emporium of one of the finest agricultural districts in the west, commanding a valuable interior and river trade. Occupying the most eligible site for a commercial mart from the mouth of the Ohio to Vicksburg, a distance of 650 miles, the same regular and rapid advancement in population, wealth, and commercial importance which has characterized the past, is presumable in the future. The appearance of the city from the river is remarkably fine. Extending along the brow of the bluff in front of the city, is an esplanade, several hundred feet wide, bordered with blocks of large warehouses and fine buildings, presenting an appearance of great commercial activity. Many of the public buildings, and private residences of the city, are neat and elegant, and the numerous pikes which diverge in various directions, afford fine facilities for a pleasant drive about the suburbs. Elm Wood Cemetery is situated two miles south-east from the city. The river from this point to its mouth is sufficiently deep to float ships of the largest class, and ample facilities are afforded for boat building on an extensive scale. Tobacco and cotton are exported largely. Of the latter, it is estimated that 200,000 bales are shipped annually. Its manufacturing and industrial pursuits include extensive flouring mills, capable of producing 75,000 barrels of flour annually; also, large cotton manufactories, employing numerous operatives, and various other mechanical branches.

The geographical position of Memphis, the facility of access to it, both by rail and river, the rapid increase of its population, its numerous mercantile establishments, and the amount of its commerce,

SEWING MACHINES.

The following are a few of the important points claimed by the proprietors of the above Machine. They make a

STRONG LOCK-STITCH,

Uniform on both sides, and which cannot be *unraveled or pulled out.*

They are perfectly simple in operation, easily managed and will use any spool of Cotton Thread or Silk.

They will sew the finest fabrics or heaviest negro goods.

They have *no bands*, extra wheels or springs, that can possibly get out of order, thus recommending themselves to planters and others who may reside at a distance.

The following letter from Lieut. Maury of the National Observatory at Washington, is respectfully submitted as one of the many testimonials in favor of these machines.

NAVY YARD, WASHINGTON CITY,
August 12, 1859.

GENTLEMEN: The Sewing Machine from you is safely at hand, and Mrs. Maury is fully satisfied with it. As evidence of its simplicity, without directions or explanations, she commenced working on it—after a very short trial—and has not experienced the least difficulty in its operation. I cheerfully give my testimonial in its favor.

I am respectfully,
(Signed) W. L. MAURY.

Ladies and others whether wishing to purchase or not, are requested to call and examine.

NASHVILLE,

The capital of the State, is a prominent and flourishing post city, a port of entry, and the capital of Davidson county, pleasantly situated on the left bank of the Cumberland river, about 200 miles above its mouth, in latitude 36° 9′ north, and longitude 86° 49′, 714 miles west by south from Washington.

Situated on an elevated bluff of limestone, and adorned with native cedars and many elegant edifices, it presents, from every point, a beautiful appearance. From the elevated portions of the city a fine view is obtained of its suburbs, and of the rich agricultural district surrounding it, which is handsomely diversified with highly cultivated gardens and extensive and valuable farms, intersected by numerous pikes and railways, which radiate from the city. Nashville has advanced with regularity, and has been a place of comparative importance, since its settlement, at the latter part of the last century, but for the past ten or fifteen years it has increased rapidly in wealth, population and commercial importance. Many of the private residences are built on a scale of palatial magnitude and splendor, and the public buildings exhibit a corresponding character. The new capital, located upon the summit of a commanding eminence, 175 feet above the river, is one of the most noble and magnificent structures in America, and is probably the most splendid and costly State capitol in the Union. It is approached from four sides by noble avenues, which rise from terrace to terrace, by broad marble steps. These avenues correspond to the four sides of the building, which is composed of fine white or bluish gray limestone, beautifully variegated, and greatly resembling marble; and is surrounded by numerous columns. The steps on the upper terrace pass between massive "cheek blocks," and upon each of these eight blocks it is designed to place a colossal lamp, appropriately supported and adorned. The material of which it was built, was quarried on the spot. The dimensions are 138 by 288 feet, and height, including building, roof and tower, 206 feet, and its cost exceeds $1,000.000. Among the other public buildings are the Court House, the University, the Lunatic Asylum, the Penitentiary or State prison, and numerous churches, schools, academies and seminaries. The city is lighted with gas, and supplied with water raised from the Cumberland river, which is crossed at this point by a magnificent wire suspension bridge, costing upwards of $100,000. Numerous elegant steam packets navigating the river are owned here. The city is the center of an active trade, and is the seat of manufactories of various kinds.

Numerous large daily, semi-weekly and weekly newspapers, are published here, a list of which is embraced in the newspaper record of the State.

By consulting the accompanying statistics, the reader will obtain further information regarding the numerous churches, literary institutions, banks, railways and various other organizations and institutions of the city.

In 1840 Nashville contained a population of 6,929, in 1850 10,478, in 1855 it was estimated at about 16,000, and the present population, within the corporate limits of the city, is estimated at 30,000, and an additional 5,000 in the immediate suburbs.

NASHVILLE
DAILY GAZETTE,

JAMES T. BELL & CO.,.....Proprietors.
JAMES R. BRUCE, Editor.

The Gazette is independent in Politics and Religion, devoted to Literature, Home Interests, and the News of the day. The circulation of the daily issue in Nashville and the country immediately surrounding the city, is much greater than that of any other paper, by virtue of which fact the Gazette is the medium for advertising the List of Uncalled for Letters. It is by far the best advertising medium in the State of Tennessee.

MOUNTAIN HOUSE

Cor. Jefferson and Main Sts.,

WINCHESTER, - - TENNESSEE.

W. G. BROOKS, Proprietor.

Buss running from this House to Decherd Depot on N. & C. R. R.

WILTON SPRINGS,

A post office of Cocke county, in the eastern part of the State, about 225 miles south of east from Nashville.

WINCHESTER,

A thriving and prominent post village, and the capital of Franklin county, in the southern part of the State, situated on Boiling Fork of Elk river, and on the Winchester and Alabama railroad, 2½ miles south-west from Decherd, a station on the Nashville and Chattanooga railroad, with which it is connected by stage line, 85 miles south south-east from Nashville, fare $3.45, 67 miles from Chattanooga, fare $2.85, 270 miles from Louisville, Kentucky, fare $10.45, and, by stage route, 45 miles from Maysville, Alabama.

The first settlement was made at this place in 1806, but it was not established until 1810, and incorporated in 1813.—Among its early settlers was Col. David Crockett, who enlisted from here in the war of 1812. His former residence, consisting of a humble log cabin, is situated within 6 miles of Winchester. Hon. Isham G. Harris, the present Governor of the State, is a native of Franklin county.

Winchester is situated on a bench of the Cumberland Mountains, enjoying the advantages of a healthy, salubrious climate, pure air and excellent water; in fact, second in these particulars to no town in the South. A more desirable locality, in respect to health and beautiful scenery, could not well be found. It is an active, business place, and has increased rapidly since the commencement of the railways in the vicinity. The tunnel which has been cut through Cumberland Mountain in Franklin county, for the passage of the Nashville and Chattanooga railroad, is one of the most magnificent works of the kind in the world. It extends 2,200 feet through the sold rock, in which there is scarcely a break to be found.

In addition to the county buildings, Winchester contains five Protestant churches, several flourishing literary institutions, among which are the Robert Donnell University, the Mary Sharp Female College, and the Carrick Male Academy, one Masonic lodge and Chapter, one lodge I. O. O. F., one weekly newspaper—the *Home Journal*, issued on Thursday by Wm. J. Slatter, editor and proprietor—seventeen stores of various kinds, two carriage manufactories, three tanneries, two furniture manufactories, several flouring and saw mills, and carding machines, three hotels, and numerous and varied trades and professions. Population 1,500. District population 2,500. Post office established in 1810.

THE HOME JOURNAL

Published at Winchester, Tenn., by W. J. Slatter, Editor and Proprietor.

The Journal contains 28 long, wide, closely printed columns, printed on fine paper with new type. Reading matter in long primer and advertisements in burgeois. It numbers among its contributors 12 or 14 of the best writers of prose and poetry in the Union. Every number contains original tales. Advertisements inserted on reasonable terms, but not as cheap as many papers do that have meagre circulation. Foreign advertisers must pay in advance. If they are unwilling to do this, experience and common sense warn us they will not pay in future.

Common Law and Chancery Court of Memphis.

Judge, J. P. Caruthers.

Criminal Court of Memphis.

Judge, B. F. McKeirnan.
Attorney General, John F. Sale.

Criminal Court of Davidson.

Judge, W. K. Turner.

The Common Law and Chancery Court of the city of Memphis shall have three terms of the law side of said court, to commence on the first Mondays of March, July and November, in each year, with power to hold special terms, either by adjournment, or by causing ten days' notice to be given by the clerk, in two newspapers, printed in the city, specifying in the notice the causes to be tried at such special term.

The Criminal Court of Memphis shall hold three terms a year, to commence on the second Mondays of February, June and October, and continue its sessions so long as there may remain business on its docket undisposed of, or until it shall interfere with the terms of the Common Law and Chancery Court of the City of Memphis.

The Criminal Districts of Davidson, Rutherford and Montgomery shall hold three terms of said court in each year, at Nashville, Clarksville and Murfreesboro', the regular terms to be appointed and fixed by a standing order, on the minutes of said courts, to which all process running from term to term shall be returned, and said courts shall always be open.

INDIANAPOLIS, IND.

A. R. HYDE, - - Proprietor.

No effort will be spared by the Proprietor to maintain the reputation of this popular and first class House. Terms reasonable.

MAY'S PATENT JAIL.

PATENTED OCTOBER 4, 1859.

In my arrangement the Jailor need never come in contact with the prisoner. There is always a grating of iron between the keeper and those confined, who are under his control without the risk of direct communication, the danger of which is known to all who have the charge of prisoners.

Jails already built can easily have my Patent Improvement added at a small expense, and it is equally adapted to stone or iron prisons.

I refer to the following gentlemen:

Hon. A. P. WILLARD, Governor of Indiana.
Hon. J. D. BRIGHT, U. S. Senator, Jeffersonville, Ind.
Hon. GRAHAM N. FITCH, U. S. Senator, Logansport, Ind.
Hon. JOSEPH E. McDONALD, Attorney Gen'l, Indianapolis Ind.
Hon. T. A. HENDRICKS, Shelbyville, Ind., late Commissioner of Gen'l Land Office.
Hon. J. M. GREGG, Ex-Member of Congress, Danville, Ind.
Hon. J. B. FOLEY, Ex-Member of Congress, Greensburg, Ind.
Hon. A. G. PORTER, Member of Congress, Indianapolis, Ind.
Hon. C. L. DUNHAM, Secretary of State, Indianapolis, Ind.
Hon. JOHN W. DODD, Auditor of State, Indianapolis, Ind.
Hon. N. F. CUNNINGHAM, Treasurer of State, Indianapolis, Ind.
Hon. S. E. PERKINS, Judge of Supreme Court, Indianapolis, Ind.
Hon. ANDREW DAVISON, Judge Supreme Court, Greensburg, Ind.
Hon. F. M. FINCH, Judge Circuit Court, Franklin, Ind.

A Circular, with full particulars, will be sent on application to

EDWIN MAY, Patentee, Indianapolis, Ind.

JONES'

COMMERCIAL COLLEGE,

South-East Cor. Washington Ave. and Third St.,

ST. LOUIS, - - - - MISSOURI.

ESTABLISHED IN 1841.

A full course of instruction in this Institution embraces Double-entry Book-keeping, Commercial Calculations, Commercial Law and Penmanship. Special instruction given in the art of detecting counterfeit money. Gentlemen can enter for the courses separately and at any time, as instruction is imparted individually, and not in classes, each department being independent of the other, and under the control of a Professor educated for the especial duties of that department in which he is employed.

For circulars containing information in regard to the Terms, Course of Instruction, Rules for Detecting Counterfeit Bank Notes, Weights of Produce, Tares allowed on Produce, etc., call at the Book-keeping Department, or address

JONATHAN JONES, St. Louis, Mo.

LOUISVILLE PRIVATE DISPENSARY

Established for the Cure of all Private Diseases.

DR. WILLIAMS, having had many years experience in the treatment of the various diseases affecting the genital and urinary organs, as witnessed in the Venerial Hospitals of New York and New Orleans, has permanently located his office as below, where he may be daily consulted upon all diseases of a private or confidential nature. He treats these diseases upon the most approved principles as practiced in the French and English Hospitals.

YOUNG MEN who have undermined their health by excessive indulgence, or by SELF-ABUSE, bringing on Seminal Weakness, &c., and especially those contemplating marriage; and also MIDDLE-AGED and OLD MEN who from weakness or disease suffer a debility in advance of their years, by applying to him may be completely restored to health, by the use of his remedies, which are easy and pleasant to take, do not injure the general health; and may also be taken without suspicion or interference with the usual business. Dr. W. guarantees a cure for life in all cases which he undertakes.

TO THE LADIES.—Dr. Williams gives especial attention to all diseases of females. He is also agent for Dr. DeWee's *Female Monthly Regulator*, a safe and pleasant remedy for irregularities, obstructions, &c., as well as a certain preventive of pregnancy, without injury to health. Warranted to act with certainty, and is the only thing to be relied on in time of need.

CAUTION.—It should not be used during any state of pregnancy as "miscarriage" would be the result, though free from danger at all times. Mailed to any address under seal on receipt of $1 and two stamps.

"*A Physiological Treatise on Sexual Diseases*," nearly 100 pages, with plates and engravings, illustrating the genital organs of both sexes in health and disease; treating on seminal weakness, and all venerial diseases, their symptoms, effects and modes of cures; diseases of females and much other useful matter. Mailed gratis on receipt of one stamp.

Patients at a distance cured at home, and medicines sent to any post office under seal by sending me a statement of the case, age, symptoms, occupation, &c. All letters promptly answered and business strictly confidential. Private rooms alway in reserve.

BEWARE OF IMPOSITION.—Dr. W. is the only regular advertising physician in this city who does not practice under an assumed name.

HOURS OF CONSULTATION—Daily from 8 A. M. to 9 P. M., (Sundays 9 to 12 A. M.) Office cor. of Fifth Street and Court Place, up stairs, bet. Jefferson and Market.

DR. T. WILLIAMS, Box 720, Louisville, Ky.

W. W. HESTER, M. D., Assistant.

The different Departments of this Institution are all under the charge of able, experienced and successful teachers. The text book used is Duff's Book Keeping, the clearest and most thorough exposition of the subject yet published. In addition to this, the course embraces Practical Applications to all the numerous and varied branches of business; so that students desiring to prepare for any particular business, have every facility for such preparation. Regular Exercises, Lectures and Examinations are given every day, thus the student is thoroughly drilled at every step of his progress.

COURSE OF STUDY.

Double Entry Book Keeping.

The course of training in this science is so completely reduced to practice as to meet the necessities of every department of Trade, Manufacturing, Professional, Wholesale, Retail, Commission, Exchange, Shipping, Jobbing, Individual Partnership, Compound Company Business, and a complete system of Banking as adopted and recommended by some of the leading Bankers of the country; settlement of joint accounts and Bankrupt Estates; converting a Single Entry Ledger into Double Entry, combining Day Book and Journal; also, a NEW METHOD OF PROVING THE LEDGER.

Double Entry Steamboat Book Keeping.

The system here taught is complete in itself, and a thorough knowledge of this branch of accounts can be obtained at this Institution.

Commercial Calculations.

In this department so essential to a thorough commercial education, no other institution in the West is prepared to give a course of instruction as extended and thorough as is given in this College. Our students are taught to add up correctly and rapidly two columns at once, and to multiply by any number consisting of two, three, four, and five figures, without using more than one row of figures in obtaining the result. In the full course are embraced fractions, all the applications of Percentage, a new and simple method of Equating Accounts, Storage Equations, Buying, Selling, and Exchanging Stocks, Foreign and Domestic Exchange, Arbitration of Exchange, and Partnership settlements.

Penmanship.

This Department is under the charge of Prof. Coles, well known to the public as an Engraver and Teacher of Writing. It will be his earnest endeavor to impart to all our students a neat, rapid and legible style of Business Writing. He will also instruct in all kinds of Plain and Ornamental Lettering.

Lectures

Will be delivered upon Mercatile Law, Commercial Correspondence, Political Economy, and the Art of Detecting Altered and Counterfeit Bank Notes.

English and Mathematical Department.

Prof. A. Reid, graduate of Trinity College, Dublin, will give special instruction to young men desiring to become Surveyors or Civil Engineers; also instructions in an extended course of Mathematics and English Branches. Students in the Commercial Department can receive instruction in English Grammar without extra charge.

IMPORTANT INFORMATION.

Students can enter at any time. Those who have some knowledge of business, and can write rapidly, will be enabled to complete a course in the Commercial Department in from six to eight weeks. But our course is so extended that students, desiring to master the whole subject thoroughly can profitably spend from five to six months in the Institution. Persons who have paid for a full course can review at their pleasure. A Diploma will be awarded to every student who undergoes a satisfactory examination. No graduation fee is charged. Students who fail at examination can receive only a certificate stating the amount of their knowledge But no failure at any examination will exclude them from the privileges of the Institution, or another trial at future examinations. Boarding can be obtained in Louisville for $3 to $4 per week. For full particulars, address,

F. U. WORLEY, Principal.

LONG CONTINUED POPULARITY IS PROOF OF STERLING MERIT

SINGER'S

Plantation and Family

Sewing Machines.

PRICES REDUCED,

$85. $95. $105.

THE PLAIN REASON WHY

Singer's Sewing Machines

Have always sold readily at a higher price than any other is that they are better,

More Durable, More Reliable,

And capable of doing a much greater variety of work than any other machine ever offered to the public.

In the Purchase of cheap Sewing Machines thousands have been deceived and disappointed, but with

SINGER'S MACHINES

There is never a failure or mistake.

Singer's No. 2 Standard Machine.

This Machine is superior to all others for Plantation and Manufacturing, being easy to manage, does not get out of order, and sews from the finest Swiss Muslin to the coarsest Osnaburg.

THE FAMILY MACHINE

Is admired by all that have used them. They do most beautiful stitching, hemming and gathering. We warrant our machines to give ENTIRE SATISFACTION or no sale. Certificates can be shown from parties living in all parts of Middle Tennessee, that have used the SINGER MACHINE, from one to three years.

All wishing to purchase SEWING MACHINES should call and examine the superior advantages of this Machine over all others before buying.

Full and reliable information about Sewing Machines to be had by sending for I. M. SINGER & Co.'s GAZETTE, which is a beautiful pictorial paper entirely devoted to this subject, sent gratis.
