

Memo

March 28, 1977

This property includes Reprints, copies, etc. of genuine stamps which we feel are needed by us only for reference purposes; in other words, if there is a good imitation or even a poor one, of a genuine stamp, we must be able to identify the "imposter" and we can not do this without sufficient information.

We have no intention of ever selling these stamps which means they are being held by us mainly for study and reference purposes. None will ever be sold.

Rev. Paul Freeland
