INSTRUCTIONS.

ORDERS.

The prices in this catalogue are *net*, payable *cash in advance*.

My stock of American stamps is very large and includes most all of the stamps priced, but it is impossible to have everything on hand at all times, so patrons will please send a list greater than their remittance.

If the stamps ordered are not in stock, *others will not be substituted*, but the money will be returned or a credit slip sent.

All stamps are guaranteed to be genuine and originals; no reprints handled.

REMITTANCES.

Post office or express money orders are the safest means of remitting money by mail. Postal notes, unused stamps, currency or coin are at sender's risk unless registered. Drafts or checks (on New York, Boston, Philadelphia, Chicago, Cincinnati or St. Louis banks) received, but personal checks on banks in other places will be subject to 25 cents exchange.

Make all remittances payable to C. H. Mekeel, St. Louis, Mo.

FOREIGN CUSTOMERS. In making remittances from foreign countries, P. O. money orders payable at St. Louis should be obtained when possible.

Bank drafts on New York can be obtained in any city in the world and will be accepted.

Bank drafts on London will be received; I allow \$4.80 to the (£1) pound.

Where it is impossible to obtain either of the above, *small amounts* may be remitted in bank-notes and unused stamps subject to usual rates of exchange.

NEW STAMPS.

I want \$5.00 worth of every new stamp that appears in the world, and especially provisionals.

Collectors who will send me \$5.00 worth of unused stamps of REGULAR issues within one month from date of issue may order \$7.50 worth of stamps from this catalogue in payment.

For \$5.00 worth of unused PROVISIONALS I allow \$10.00 in exchange from my catalogue.

Or for \$5.00 worth of unused Provisionals I will remit \$5.00 cash upon receipt and give \$2.50 worth of stamps as a premium.

It being understood that these new stamps are to be sent me within one month from date of issue and the quantity limited to \$5.00 worth of each value. Less quantities may, however, be sent if more convenient.

SECOND EDITION.

A second edition of this catalogue will be issued as soon as the present edition is exhausted. Corrections and criticisms will be thankfully received, so that the next may be more perfect.

PREFACE.

The stamp collector of to-day realizes the impossibility of collecting stamps of all countries and is becoming a *Specialist*, devoting his attention to some one country, or group of colonies, or a continent, and by these plans places himself in a fair way to get a reasonably complete collection of something, instead of having a smattering of everything.

The dealer in stamps must be to a great extent what the collector makes him. Without the collector the dealer could not exist. I make American stamps my specialty, to which I add the various revenue stamps of the United States. In placing this catalogue in the hands of my customers, it may not be out of place to call attention to some of the points in which it is different from any similar work ever published.

1. It is the first catalogue that has made American stamps a specialty.
2. It contains the first complete list of entire U. S. envelopes ever published in a dealer's priced catalogue.
3. It is the first American catalogue to notice all differences in paper, watermark and perforation.

Explanations of various terms used in relation to the printing and separation of stamps and of the paper on which they are printed, are given in the appendix.

I wish to acknowledge the services of Mr. R. S. Hatcher, of Lafayette, Ind., a prominent collector of U. S. revenues, for revising my list of those stamps.

I also acknowledge my obligations to Mr. John K. Tiffany and Major E. B. Evans for information, used in compiling the list of envelopes.

In conclusion I ask indulgence for the errors I have made in my maiden attempt of compiling a catalogue, and hope to see them all corrected in the second edition.

C. H. MEKEEL.

U. S. REVENUE STAMPS.

FIRST SERIES, 1862.

Used on Documents and Proprietary Articles.

These stamps were issued by the U. S. Government for the purpose of raising a revenue to liquidate the indebtedness caused by the war; and they constitute interesting relics of an epoch in our national existence. They are found *perforated, partly perforated and unperforated*; only the former and latter are here catalogued. Many varieties of perforation and color exist, but the compiler of this work has not thought it expeditious to chronicle an endless number of oddities, which are sought after by comparatively few collectors. The prices are the same for used or unused specimens.

The Mexican stamps at this date were not sold to the public, but were affixed to the letters by the post office officials, when the letters were handed in accompanied by the amount of postage.

When a variety of stamp became exhausted, halves, quarters and eighths of higher values were used to represent the correct amount.

The following issue of stamps have been wrongly catalogued as locals of Guadalajara, probably from the fact that they were improvised from the Guadalajara postmark. Specimens found on original letters prove that they were in use at many different post offices.

St. Louis, May 28th, 1889.

I hand you herewith my Catalogue of American Postage Stamps that was issued on the above date.

The long delay that has attended its publication has been very annoying to me, but one thing after another has interfered to delay it, and even now it falls far short of my idea of what a catalogue should be.

Those of my customers who have remitted twenty-five cents for it, will please take credit for that amount on their first order.

If you have not expected the catalogue please accept this copy with my compliments, and I hope that you may find something in it, to order.

I am now located at 1007, 1009 and 1011 Locust St., where the whole three stories of the building are devoted to my stamp and publishing business.

A second, and much improved edition of this catalogue will be published early next season.

Yours truly,

C. A. Mekeel

INSTRUCTIONS.

ORDERS.

The prices in this catalogue are *net*, payable *cash in advance*.

My stock of American stamps is very large and includes most all of the stamps priced, but it is impossible to have everything on hand at all times, so patrons will please send a list greater than their remittance.

If the stamps ordered are not in stock, *others will not be substituted*, but the money will be returned or a credit slip sent.

All stamps are guaranteed to be genuine and originals; no reprints handled.

REMITTANCES.

Post office or express money orders are the safest means of remitting money by mail. Postal notes, unused stamps, currency or coin are at sender's risk unless registered. Drafts or checks (on New York, Boston, Philadelphia, Chicago, Cincinnati or St. Louis banks) received, but personal checks on banks in other places will be subject to 25 cents exchange.

Make all remittances payable to C. H. Mekeel, St. Louis, Mo.

FOREIGN CUSTOMERS. In making remittances from foreign countries, P. O. money orders payable at St. Louis should be obtained when possible.

Bank drafts on New York can be obtained in any city in the world and will be accepted.

Bank drafts on London will be received; I allow \$4.80 to the (£1) pound.

Where it is impossible to obtain either of the above, *small amounts* may be remitted in bank-notes and unused stamps subject to usual rates of exchange.

NEW STAMPS.

I want \$5.00 worth of every new stamp that appears in the world, and especially provisionals.

Collectors who will send me \$5.00 worth of unused stamps of REGULAR issues within one month from date of issue may order \$7.50 worth of stamps from this catalogue in payment.

For \$5.00 worth of unused PROVISIONALS I allow \$10.00 in exchange from my catalogue.

Or for \$5.00 worth of unused Provisionals I will remit \$5.00 cash upon receipt and give \$2.50 worth of stamps as a premium.

It being understood that these new stamps are to be sent me within one month from date of issue and the quantity limited to \$5.00 worth of each value. Less quantities may, however, be sent if more convenient.

SECOND EDITION.

A second edition of this catalogue will be issued as soon as the present edition is exhausted. Corrections and criticisms will be thankfully received, so that the next may be more perfect.

C. H. MEKEEL,

Stamp Dealer & Publisher,

1007, 1009 & 1011 Loccst Street,
ST. LOUIS, MO.

APPENDIX.

The following definitions of words and explanations as to their application, will be useful to the beginner :

PRINTING.

There are three principal methods of producing a plate from which stamps or anything else can be printed :

TAILLE DOUCE.

First—Line engraving, or engraving in *taille douce*, as it is more commonly called in philatelic works ; in this the lines which are to appear in color on the paper are cut into the plate, and the ink may be found sometimes in evident relief on the paper ; almost all the United States adhesives are specimens of this method.

TYPOGRAPHY.

Second—Engraving in relief, from which type-printed, typographed, or, as they are sometimes termed, surface-printed stamps, are produced. In this the lines to be printed are formed by the original surface of the plate, and are in relief, the parts which are to remain white or the colour of the paper being cut away. Ordinary printer's type is made in this way, hence the name typography.

LITHOGRAPHY.

Third—Lithography. This is the only real surface printing, there being no cutting away either of the lines or of the other portions, but the surface of the stone being incapable of taking up the ordinary printing ink, the design is drawn or printed upon it with a special kind of ink ; then, when an inked roller is passed over the stone thus prepared, the ink is taken up by the lines of the design only, and the stamps printed from them as from type. Lithographs have a very smooth appearance and almost a greasy feeling when the finger is passed over them.

EMBOSSING.

In addition to these three methods, there is embossing, by which a few adhesives and a majority of envelope stamps are produced, but this hardly requires description ; any collector who possesses a U. S. stamped envelope will know what embossing is.

SEPARATION.

UNPERFORATED

Represents stamps that are cut from sheets where no provision has been made for separating.

PERFORATED

Implies the usual perforation of little holes, in which actual pieces of the paper are punched out ; a number following the word *perf.* indicates the number of holes found within a length of two centimetres. See gauge :

PERFORATION GAUGE.

PIN PERFORATION

Implies that holes are merely pricked in the paper and not punched out.

ROULETTED

Means that a series of straight cuts are made in the paper between the stamps.

WATERMARK.

Meaning a design in the substance of the paper.

PAPERS.

WOVE PAPER

Is that commonly used for books and newspapers, and shows a perfectly even texture.

LAIID PAPER,

On the other hand, has parallel lines close together in its substance, as in the paper used for the U. S. envelopes.

The term *Batonne* is applied to what is called in England "foreign" note paper. It has parallel lines in its substance further apart than in laid paper, and sufficiently conspicuous to be a guide in writing. It may be also laid or wove.

Quadrille paper has crossed lines in it, forming squares or oblongs. The Guadalajara stamps are found on these fancy papers.

Pature is a very thin, tough wove paper.

MEXICAN SURCHARGES.

Some of the stamps of Mexico were surcharged with the names of the post offices issuing them. As these are sought for by some advanced collectors a list of the known varieties is here given.

SHEET DEPARTMENT.

ADVANCED COLLECTORS,

I make a specialty of submitting selections of rare and scarce stamps to advanced collectors and those who are filling up special countries.

I give my personal attention to this class of sheets, and make my prices reasonable, and only care to send selections to those who expect to SPEND MONEY.

I expect to give full value for what I receive, but I can not afford the time to send selections to *small buyers*; the Agents' Sheets will afford them the choice of thousands of varieties at reasonable prices.

AGENTS' SHEETS.

These sheets contain thousands of varieties of good stamps, but are not made up to order. Three clerks are constantly employed making and filling up these sheets.

They are as desirable for Collectors who wish to buy for their own collections as for Agents who wish to sell to others.

These sheets are marked as low as the regular market prices, and I allow in addition a discount of 30 per cent. on stamps taken or sold therefrom.

SEND FOR A TRIAL SELECTION.

U. S. REVENUE

—AND—

PROPRIETARY STAMPS.

I would be pleased to correspond with collectors of these stamps. I have purchased the entire stock of match, medicine and card stamps of Mr. E. B. Sterling, of Trenton, N. J., who was the leading dealer in this line in the world.

I send selections of these stamps on sheets marked at market prices, from which 30 per cent. discount is allowed.

When writing state whether you collect the varieties of paper, "OLD," "SILK" and "WATERMARKED."

TO CORRESPONDENTS.

Do not fail to give your post office address in every letter ; do not take it for granted that we will remember it, for where three or four hundred letters are handled daily, mistakes are apt to occur. I employ two corresponding clerks, one for English, and another for the French, Spanish and German languages.

EXCHANGE.

I am frequently asked to take duplicates in exchange, so have been led to establish the following terms :

No Stamps catalogued less than 5c each taken.

Half Catalogue price allowed in exchange for others.

One-third Catalogue price allowed in cash.

Privilege of rejecting any stamps sent is reserved.

Return postage must accompany all stamps sent for exchange.

INTERNATIONAL POSTAGE STAMP ALBUM.

NINTH EDITION.

In every respect this is superior to any previously issued, and I feel justified in stating that it is the best (printed) Postage Stamp Album ever published in the world.

The spaces for United States Revenue Stamps are omitted, and spaces provided for all varieties of surcharges, including all official and kindred stamps.

The spaces for cut envelopes have been considerably enlarged, thus allowing for large margins on all such specimens.

Although the Album is almost 50 per cent larger than the previous edition, and printed on paper far superior in quality, the prices remain the same, as follows:

MEKEEL'S BLANK STAMP ALBUM.

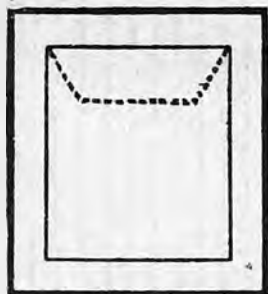

This album is blank, except for a neatly printed border around each page and a label at the top of each page to receive the name of the country. The names of all countries printed on adhesive paper go with each book, and when mounted in the label prepared, it looks like a printed page.

The paper used in the albums is of fine cream tint and the weight varies with the price of the book, even the cheapest being heavier than that used in any other album.

Advanced collectors have wholly abandoned albums with printed spaces for stamps. They wish to arrange their stamps to suit themselves and to collect such varieties as they desire, so that a blank album is necessary.

An important feature of this album is the lithographed stamp mounts that are furnished with it and may be used or not as the collector may fancy.

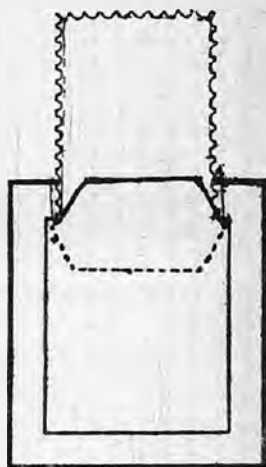

These mounts are the same as those used in the celebrated Tiffany collection and were the invention of its owner, Mr. John K. Tiffany, President of the American Philatelic Association. The following illustrations are rather crude, but they serve to explain the mount. The effect of a page of stamps on their mounts neatly arranged is beyond description.

STAMP ON MOUNT.

SHOWING HOW STAMP IS ATTACHED.

The stamps lay on a perfectly flat surface as the hinge is cut from the mount the back can be readily examined and there is room for memoranda on the mount beneath the stamp.

The mounts come in all shapes and sizes to fit any stamp.

1000 mounts and 1 set of adhesives names are given *free* with each album.
