Grading and Condition

Superb	Extraordinary item in the finest condition.
Extremely Fine	Outstanding and exceptional quality.
Very Fine	Choice, first-class condition.
Fine-Very Fine (F-VF)	Stamp or cover in sound condition; if a stamp, it is slightly less well-centered than Very Fine but better centered than Fine.
Fine	Sound in all respects. Perforated stamps will have the designs clear of the perforations; the designs of imperforate stamps will not be cut in to any significant degree.
Very Good (VG)	Imperfect centering (stamps) or poor general appearance.

Any stamp faults such as a thin spot, tear, crease etc., will be described at all times. Postally used covers should be expected to have the normal degree of wear associated with them and this wear is not grounds for return. The grade of a cover is independent of the grade of the stamps on it. Covers from the famous Carroll-Hoy correspondence will normally have a small unobtrusive staple hole. In lots containing several items, degrees of condition denote the overwhelming average and examples above and below such condition can be expected.

Terms of Sale

Bidding

I. All bids (whether by floor bidders, mail bidders, or telephone bidders) will have a premium of 15% added to the auction sale price.

II. All bids are per lot as numbered in the catalog unless otherwise announced by the auctioneer at the time of sale. The right is reserved to withdraw any lot prior to sale, to divide a lot, or to group two or more lots, or to act on behalf of the seller. Schuyler Rumsey Philatelic Auctions, Inc. will execute bidding instructions on behalf of clients, but will not be responsible for any errors in the execution of such bids. Schuyler Rumsey Philatelic Auctions, Inc. is not liable for bidding errors related to live auction internet bidding and/or the loss of internet connection during the live auction.

III. The highest bidder shall prevail; lots are sold at one increment over the second highest bid. Should any dispute arise between bidders, the decision of the auctioneer as to the successful bidder and the reoffering or resale of the lot under dispute shall rest entirely on the judgment of the auctioneer. The auctioneer shall regulate the bidding and reserve the right to refuse any bid believed by him not to be made in good faith.

IV. Consignor has and retains the right to bid personally, or by his duly appointed agent, through the auctioneer, unless the sale is advertised and announced as one restricting such bidding by consignors or their agents.

Payments of Purchases

V. FLOOR BIDDERS. Floor bidders shall furnish the auctioneer their names and addresses prior to bidding on any lot. The name and address of the buyer of each lot shall be registered with the auction house following the sale of each lot. Payment of the whole purchase price shall be made by the floor buyer in such manner as the auctioneer may determine. Special credit arrangements must be made prior to the sale.

VI. MAIL BIDDERS. A successful mail bidder will be notified of lots purchased and must remit payment before the lots are sent. Auction bills are due and payable upon receipt of notification. If buyer's payment is not received within ten (10) days, Schuyler Rumsey Philatelic Auctions, Inc. may resell all lots without notice. Any and all losses incurred as a result of resale will be passed on to the defaulting buyer. Cost of postage, registration, etc. will be charged to buyer. Proof by the auctioneer of receipt of sending at the advised address shall constitute delivery.

VII. DIRECT DRAFTS/TRANSFERS. A successful mail bidder known to us may contact our office at (415) 781-5127 for the information necessary to pay directly into the vendor bank account. Any additional charges resulting from processing payments by this method shall be borne by the buyer. Method of payment should be noted on the bid sheet.

VIII. Title shall not pass to the buyer until full payment is received by Schuyler J. Rumsey Philatelic Auctions, Inc.

IX. All of our lots are sold as genuine. Lots accompanied by recent (within 5 years of sale date) expert certificates are sold "as is" based on the description in the certificate. The aforementioned expertized lots may not be returned under any circumstances including those instances in which subsequent certificates yield conflicting opinions. The accepted authorities for U.S. stamps are the Philatelic Foundation (P.F.), the Philatelic Stamp Authentication and Grading, Inc. (P.S.A.G.) and the Professional Stamp Expertizing Committee (P.S.E.), however we do not accept "graded certificates", nor do we accept "encased" certified items.

X. All extensions must be paid in full, in advance. There will be no exceptions.

XI. All lots on extension must be submitted for expertizing by the auctioneer exclusively. Each lot is sold as genuine, except those described "as is", but when, in the opinion of a competent authority acceptable to Schuyler J. Rumsey Philatelic Auctions, Inc., the lot is declared otherwise, the purchase price will be refunded in full. The lot must be received by Schuyler J. Rumsey Philatelic Auctions, Inc. within a period of 21 days from the date of auction. Expenses incurred for purposes of expertizing shall be borne by the purchaser except where the lot is found by said competent authority to be materially not as described, in which case the consignor will be responsible for expertizing costs incurred. Proof of the inability of said competent authority to express a definite opinion is not grounds for return of an item.

XII. Any lot, description of which is incorrect, is returnable (A) within three (3) days of receipt and (B) if received by Schuyler J. Rumsey Philatelic Auctions, Inc. within twenty-one (21) days from the date of the auction. All disputed lots must be returned intact, in the condition received; no adjustments will be made. The following lots are not returnable: collection lots containing ten (10) or more items; lots from purchasers OR THEIR AGENTS who had the opportunity to examine them before the auction; items described as having defects or of a quality standard "Very Good" (V.G.) or below; lots with disputed centering or margins when the item is photographed; lots described "as is".

XIV. JURISDICTION. In the event of any dispute between the auctioneer and bidders, or between any parties requesting inspection of any of the lots and the auctioneer, or between persons offering their lots to be auctioned and the auctioneer, the jurisdiction over the dispute shall be in the City and County of San Francisco, State of California.

XV. In the event of any dispute, the prevailing party shall be entitled to court costs and reasonable attorney's fees.

California Sales Tax

XIII. The California State Sales Tax - or that of another state as ordered by the laws of such a state (as appropriate) - is payable by buyers liable to tax. See below.

This sale will be held in California and the buyer will be liable for any applicable California sales tax for this auction. Any lots purchased by buyers in California are subject to State Sales Tax unless:

1.) You have a verifiable California resale license number, which must be on file with us prior to the Auction.

OR

2.) You are not a California resident and your lots are being shipped to your out-of-state or out-of country mailing address.

XVI. THE PLACING OF A BID SHALL CONSTITUTE ACCEPTANCE OF THE FOREGOING TERMS OF SALE.

Bermuda

The following represents a collection amassed over 30 years that highlight the combination frankings of USA and Bermuda stamps to pay airmail, special delivery, and forwarding fees. The collection starts with some pieces from the 19th century and then focuses on the development of airmail routes and has most early U.S. airmail issues represented with some outstanding rates and destinations, as well as Bureau and Prexie frankings that are also highly sought after. A book on this subject has been worked on and should come out towards the end of the year. There are a plethora of only recorded usages and the collection focused not only on the rates, but also on collecting every possible use of U.S. air mail and known special delivery stamps to make up those rates.

(on reverse noted that it was sent from someone serving at APO 802) with cover readdressed back to Bermuda with U.S. 10¢ Prexie applied and tied by Brooklyn cds paying air rate; later with cover edge opening tears at top, **otherwise Very Fine**, scarce usages.

 Estimate \$500 - 750

This is a remarkable usage that was written up in the Bermuda Post magazine as the cover should have gone to the U.S. and then back through Bermuda on commercial air flights of the time. If the serviceman wanted the cover to be expedited on a clipper going through Bermuda at the time, it would make sense he would add a Bermuda stamp to do so. It is unlikely the U.S. base would have allowed him to take the cover to the Bermuda civilian post office if the cover had already been censored on base. Needless to say, it is the only such combination keyplate franking in existence in combination with U.S. stamps used at the U.S. naval base in Bermuda.

The U.S. Government Mail Service is known to have existed in 1882, but no information is available about its lifespan. The service provided that letters were sent once a month by runners from the capitol to Majunga on the north coast and to Morondava on the west coast. The minimum postage to Majunga was 33 cents. As the postage for mail to Morondava was double that, it can be assumed that the letters went by ship from Majunga to Morondava and not by runners direct from the capitol to the west coast.

The Paul Kruger Collection of New Zealand

The following 156 lots represent one of the finest collections of New Zealand to come on the market in several years. It was Mr. Kruger's goal to seek out not only the finest examples of the issued stamps, but to find scarce shades, perforation and watermark varieties. Each stamp or cover has been hand select with virtually every item bearing a Robert Odenweller certificate of authenticity. We hope that the New Zealand enthusiast will find those items that will be cherished in their collection, the way Paul enjoyed assembling this fine collection.

This was the rate difference in charges in the United Kingdom for letters sent by the alternative routes, though for letters from New Zealand the actual rate difference was 5d per half-ounce.

The current owner has researched other examples of these blocks in other collections, auction catalogs and other sources for over thirty five years and has concluded that only four complete sets ever printed. Many of the other blocks have been cut up to facilitate their sale so that apart from those offered here, it is no longer possible, according to the owner's research, to assemble a second complete set.

 Michel No. **18b**

AN EXTREMELY RARE EXAMPLE OF THE 1944 HITLER PROPAGANDA SOUVENIR SHEET OF FOUR IN DARK GREY-GREEN - THE RAREST OF ALL PROPAGANDA ISSUES WITH ONLY A LITTLE OVER A DOZEN ARE KNOWN TO EXIST.

The American OSS was formed from a division that President Roosevelt enacted by Executive order and was under jurisdiction of the Joint Chief of Staff, giving the OSS the capability and status of a military branch. The goal of the operation was to disrupt the morale of the German people by using a method of large scale psychological operation (PSYOP) that the British MI6 had been pushing into service with the help of the Royal Air Force (RAF). The distribution of propaganda in letters and distributed by the German postal system was thought to be an ideal method of reaching the German population and undermine the support of Adolf Hitler. One tactic used in hopes of shaking the morale further in the German people, was to call upon master forgers to produce a variety of propaganda forgery stamps similar in nature to the current German issues. This souvenir sheet was to resemble the 1937 Hitler semi-postal souvenir sheet.

THE ONLY RECORDED EXAMPLE OF THE RARE CUBA “RUBRIC” HANDSTAMP ON TRANSIT MAIL FROM PUERTO RICO TO THE UNITED STATES.

ONE OF ONLY THREE RECORDED STRIKES OF THE CUBA “RUBRIC” HANDSTAMP.

This unusual rubric-shaped handstamp was rarely applied to correspondence in transit through Havana during May 1855. In an article “The Auditor’s Rubric” by Adolfo Sarrias & Yamil H. Kouri Jr. (copy accompanies lot), they suggest “this marking was applied as an intervention postmark, applied to letters held for lack of payment of Cuban transit fee. The delay for forwarding the letters suggests that the Havana post office held them until someone paid the postage. It is possible that the Cuban Postal Administration sent a notice to the addressee requesting the payment or that a third party, the consul from the addressee’s country, a business associate, etc. made the payment. The handstamp appears to be the rubric signature of Manuel Arias, who appears to have been a mail inspector and is listed for 1857 and 1859 as the 1st Intervening Officer, second in importance after the Postmaster General.

A HISTORICAL LETTER AND DOCUMENT SHOWING THE PRO-SLAVERY SENTIMENTS IN FLORIDA TERRITORY.

The Shell Point Meeting broadside is apparently a statement by the pro-slavery populace of Shell Point, residents of a village near Tallahassee in the Florida Territory. The impetus for the meeting was probably a reaction to the mailing of thousands of copies of tracts issued by the American Anti-Slavery Society to individuals in the Southern states. After an indignant mob removed a mass of these papers from the post office at Charleston, S.C., in July, 1835, and burned them, Postmaster-General Amos Kendall wrote postmasters in the South sanctioning their removal of such literature. Feelings grew bitter throughout the country and violent means were used to silence unwelcome opinions.

The resolutions passed at the Shell Point, Florida Territory meeting are indicative of the bitter fears that the federal government was not going to entirely protect the Southern states' slave-holding rights. In part: “Resolved, that we ever look upon this as the GREAT SPLITTING QUESTION among the States; that most political questions are subordinate, and many others owe their existence to it; all of which has ever appeared to us a political absurdity. For, why should this interest create opposition from any quarter, when it is known that products of the ‘slave labor’ balances the trade of the whole republic, and squares accounts with all other nations.”

The immediate target of the wrath of the citizens of Shell point was Arthur Tappan, a leading founder of the American Anti-Slavery Society. Referring to a Louisiana law making a capital offense of aiding or abetting the circulation of incendiary abolition papers, the resolves call for the governor of New York to give up “such conspicuous person or persons as are known to be foremost in this work of crime and sedition, so that the question may be fairly tried as to their liability under the law ...such is our pity, scorn, and contempt of Arthur Tappan and his coadjutors...that we heartily approve of the conduct of the citizens of New Orleans, Charleston, Macon, and elsewhere, in offering a premium for said Tappan, and we will be pleased to pay a pro-rata amount for his delivery.” The proceedings of the meeting were to be published in all newspapers in the U. S. Especially mentioned are particular papers in Florida, Washington, Richmond, Charleston, Nashville, New Orleans and Mississippi.

Louisiana was under Spanish administration as part of the Viceroyalty of New Spain (1762-1802), when it was retroceded to France according to the Third Treaty of San Ildefonso (1800) and the Treaty of Aranjuez (1801). However, Spain agreed to continue administering the territory until November 30th of 1803 when the French took possession of the colony, three weeks before Louisiana Purchase on December 20th. Additional significance of this cover is that it is one of only two ships register covers known originating from a colony and sent to a non-Spanish destination (this item had to be submitted to the Spanish consul to Bordeaux, as indicated on front). Additionally this is an exceptional postal usage during the short period of Spanish provisional administration after the official transfer to France.

(War of 1812) "H.Q. Detroit Octr. 1st. 1813", dateline on folded letter carried to nearest post office, entered mails with manuscript "L. Sandusky, Oct 7" postmark and "17" cent rating to Capt. Sam C. Vance, Cincinnati Oh., great content including, "Dear Capt., With great pleasure I give you the pleasing intelligence of our having taken peaceable and quiet possession of Maiden Sandwich & this place, without the loss of man or the firing of a gun. Genl. Proctor wisely abandoned this post and has sought refuge in the wilds with his brethren (the savages), Genl. Harrison has received intelligence informing him that Proctor is 40 miles above this place fortifying on the river Thames. His Indian force is very much diminished. Many of them are anxious to take shelter under the American Ensign of Liberty which is gloriously flapping its wings and hovering over upper Canada and our regained Territory. On the 27th in the evening the troops were all landed on the Canada shore we found Fort Maiden in ashes and all public stores and store houses in the same situation. On the 28th the Army marched up the river about 5 miles, on the 29th we entered Sandwich I found citizens apparently happy to see us. Many of them no doubt truly so. On the evening of the 28th Crossed over into this place amidst the heart felt rejoicing and felicitous acclamation of hundreds of poor miserable persons who had been for many months past under the oppressive gook of teriny and subject to the chastisement of the rod of savage barbarits. Every hand was extended and lungs exerted to give us a welcome and grateful reception immediately after the embarkation of the troops at Sandwich for this place the American flag again waived over the remaining walls of the destroyed Fort Detroit which was burned three days previous to our arrival. The army marches again tomorrow morning, its destination not generally known, but easily to be conjectured. Proctor is not more than 40 miles above this place - Genl Mc-Arthur's Brigade I'm told are to go on to (Fort) Michilimack - inac whether there to remain or not I'm not able to say. We shall go by water if positively ordered to that place. I'm anxious to see that country, tho have not much inclination to winter there...Yours Sincerely CS Clarkson", **Fine.**

Mexican War Letters

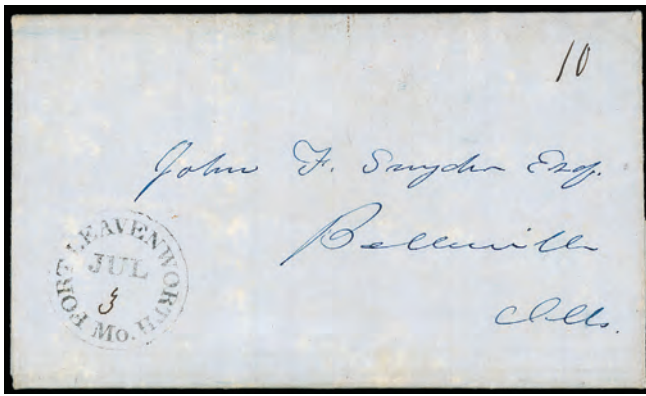

by 1st Lieutenant and Adjutant William Snyder 1st Regiment Illinois Volunteers

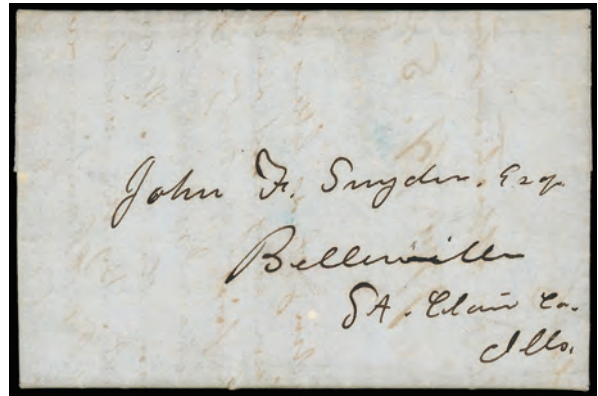

1399 ☒

1847-1848, Illinois Volunteers on the Santa Fe Trail, 15 letters from members of the 1st Illinois Volunteers, traveling on the Santa Fe Trail in the summer and fall of 1847 and returning in 1848. Though the fighting had ended in that part of the eventual Mexican cession, soldiers were being sent to hold it for the United States. The letters begin upon steamer "L.V. Lind" in the Missouri River at Boonville, Missouri, and follow the regiment to Ft. Leavenworth, Cottonwood Creek (near current-day Lost Spring, KS), Cold Spring (in what is now the Oklahoma panhandle), and Santa Fe, with one letter from Cold Spring on the return trip. Most are to John Snyder in Belleville, IL, from his brother William. The soldiers raise hell in Missouri, foraging and even stealing alcohol. The trek is at first a "pleasure trip... We have found the most beautiful country" rather than the dry brush they were told about. But that was still in Kansas! some excellent military content upon arrival at Sante Fe from William including Oct. 18th 1847: "An expedition to El Paso some 337 miles from here will start on Thursday next, and with it if I live I am soon to go. Our company has refused upon taking the vote, to go. I am very sorry for this as from all accounts a fine opportunity to do something worthy of this soldier...The expedition will consist of eighteen of as fine companies as the U.S. service can boast of five Companies of the Mo. Battalion of Infantry, five Companies of the Mo. Mounted Regt., Capt. Henson detail light Artillery and Co. G. of the 1st Regt. U.S. Dragoons. We will go to the Pass (El Paso) where we understand that Armijo is waiting for use with some 1,500 or 2,000 men and after getting through them will probably advance against Chihuahua and Durango..." , Sante Fe Nov. 14th by military express "...The Colonel had a visit from chiefs of the Utah tribe (Utes) they are decidedly the finest specimens of natures nobility, I ever set my eyes on..." and notes "There is an express going out this day to the States... Colonel Newby is not liked at all there is not a man in Sante Fe that like him he is going way in few days we are looking for Colonel Price every day..." , Sante Fe March 1848 "...New has arrived...to the effect that Gen. Uruca with a force of from six to ten thousand strong is advancing against the Territory. But two days since it was reported that he had advanced upon El Paso, and totally defeated Col. Ralls of the mo. Mntd Regt. The latter suffering a loss of one hundred killed alone...Last night and this morning we added travel reports to the effect that Uruca with seven thousand men, was at a town called Donana - forty five miles, this side of El Paso. If this be the case, he has defeated by far greater part of the force that Gen. Price intended to rely upon, ad there is hot working store for us suckers...we have a fight in the territory it will be with tremendous odds against us...." , Sante Fe Apr. 24th 1848: "...Next Monday (1st May) I am off for a campaign against the Navajo Indians. Our detachment will consist of one hundred and fifty Missouri Volunteers under Major Reynolds and fifty Illinoisians who have been mounted for that purposes - under command of Capt. Moses of our Regiment the whole under command of Col. Newby. Our campaign will be through one of the toughest and most desolate regions in the world, being that Country between this territory and the California basin... Governor Armijo was captured by Genl. Price in an action last month at Santa Cruz. He is now upon is parole and residing at Albuquerque. We are daily expecting his arrival here....I wonder how the old fellow will feel when he finds me, a U.S. volunteer occupying his most spacious room at his old Palace. Our news from the South Mexico as well a from the U.S. induce us to believe that peace will soon be made..." With much interesting content on sickness in the ranks, searches for Sterling Price (who had gone south to Chihuahua), and William's growing collection of Native American artifacts, meteorites, and other curiosities from the Old Southwest., **F.-V.F., ex-Risvold** where it brought \$20,000+.

Billy the Kid (1859-1881), born Henry McCarty, was an American Old West gunfighter who participated in New Mexico’s Lincoln County War. He is known to have killed eight men. After murdering a blacksmith during an altercation in August 1877, Bonney became a wanted man in Arizona Territory and returned to New Mexico, where he joined a group of cattle rustlers. He became a well-known figure in the region when he joined the Regulators and took part in the Lincoln County War. In April 1878, the Regulators killed three men, including Lincoln County Sheriff William J. Brady and one of his deputies. Bonney’s notoriety grew in December 1880 when the Las Vegas Gazette in Las Vegas, New Mexico, and The Sun in New York City carried stories about his crimes. Sheriff Pat Garrett captured Bonney later that month. In April 1881, Bonney was tried and convicted of the murder of Brady, and was sentenced to hang in May of that year. He escaped from jail on April 28, 1881, killing two sheriff’s deputies in the process and evading capture for more than two months. Garrett shot and killed Bonney at Fort Sumner on July 14, 1881.

 Scott No. **9X1e** Estimate \$2,000 - 3,000

A scarce July 16th 1845 use which is the second earliest date known, fewer than five are recorded from this date. This cover is interesting as the red curved “Paid” handstamp was used to cancel most of the first day July 15th 1845 usages. This second day usage has the stamp cancelled by manuscript even though the “Paid” handstamp is present. It suggests that there was no decided upon approach to cancel the New York provisional stamp at this point.

In his Chronicle series Philip T. Wall recorded watermarks with portions of an “E” or an “F”. In the 1936 MacGuffin article in the American Philatelist, it was reported that of 2,000 stamps examined six copies were found to have a watermark, with the letter “J” identified. The stamp offered here clearly has an “E”, and the second letter could certainly be a “J”.

AN ATTRACTIVE SOUND EXAMPLE OF THE 1883 4¢ AMERICAN BANK NOTE CO. SPECIAL PRINTING ISSUE.

This Special Printing is from a trial printing by a new steam-powered American Bank Note Co. press. Approximately 1,000 of these stamps (in sheets of 200 with an imperforate gutter between panes of 100) were delivered as samples to the Third Assistant Postmaster General and subsequently made their way to the public market.

Official Postal records show that twenty six examples of this Special Printing where issued. The Philatelic Foundation has certified all but one of these. Out of the mere twenty five that has been certified, five examples are recorded with small flaws.

A SOUND ORIGINAL GUM EXAMPLE OF THE 4¢ PAN-AMERICAN WITH CENTER INVERTED. A GREAT 20TH CENTURY RARITY.

The 4¢ invert was printed deliberately as the result of a misunderstanding. After the discovery of the 1¢ and 2¢ inverts in mid-1901, the Third Assistant Postmaster, Edwin C. Madden, decided to track down any additional errors. He had his assistant instruct the Bureau of Engraving and Printing to send any inverted Pan-American stamps to Madden's office. No inverted stamps in fact remained on hand, and interpreting Madden's communique as an unconditional demand for inverts, the Bureau produced four sheets of them from the 4 cent plates and sent 400 copies on to Madden. About about half were marked "Specimen" and between 1901 and 1904 Madden distributed 172 examples.

AN EXTREMELY RARE SOUND USED EXAMPLE OF THE 1919 2¢ TYPE II ROTARY COIL WASTE PERF 11 X 10 ISSUE.

This series was issued in June of 1919 and is the result of 170 subject coil sheets which had been perforated 10 vertically, but were remainders or and oversupply. The sheets were taken and perforated 11 horizontally on a flat plate perforator and issued in sheets of 170 subjects. Many sheets were defective as far as coil production was concerned but could be saved as sheet stamps.

A HANDSOME SOUND AND LIGHTLY CANCELED EXAMPLE OF THE RARE 1923 1¢ GREEN ROTARY COIL WASTE PERF 11 ISSUE.

The coil waste issues came about from the unusable portions (or waste) the derived when producing coils from the horizontal rotary printings. In the case of the 1923 1¢ coil waste (594) the waste had not been previously perforated and therefore were entirely perforated with the flat plate perforator which gauged 11x11. Since the Bureau did not consider this "coil waste" a different issue, no formal announcement was issues prior to their release. It wasn't until 1925 that this issue was discovered in used condition and by the next year only four examples were on record.

AN ATTRACTIVE EXAMPLE OF THE 1923 1¢ ROTARY SHEET WASTE PERF 11 (SCOTT 596) ISSUE - A GREAT 20TH CENTURY RARITY WITH ONLY FIFTEEN EXAMPLES RECORDED.

This is without question the rarest United States issue of the 20th century. It was probably produced during the middle of 1924 however it was only discovered in 1962. This issue was the result of "coil waste" but rather than made from horizontal coil sheets, such as Scott #578-579 and #594-595, this issue was made from vertical coil waste sheets. The difference being in the measurement of the design as the horizontal coil design is wider since the plates have been stretched by curving them in that direction in order to fit the cylinder on the rotary press. In the same fashion, the vertical coil plates were curved in the vertical direction causing the design to stretch vertically.

To date, the Siegel census now contains fifteen examples of this issue of which over half are deemed faulty.

An attempt by U.S. President James Buchanan to reinforce and resupply Anderson using the unarmed merchant ship Star of the West failed when it was fired upon by shore batteries on January 9, 1861. Mail exchange was stopped by the Confederates from Fort Sumter from January 1st to the 14th and resumed thereafter.

We were sent down to cooperate with Breckenridge in his attack, but our engines failed us. And after working night and day at our machinery, several times it was reported ready and every time it broke down. Still we worked on to do our best, expecting an attack every minute. Finally the “Essex” was reported coming up, and our engines also reported ready. So we launched out to meet her but had scarcely cut our lines when the engines again broke down, and we succeeded in getting into the bank. We were now lying in such a position that we could not bring a gun to bear on the enemy, if she chose her position, and the iron was so thin towards them that every shot would have gone through her. So that was nothing left for us but to burn her, which we did under fire of our enemy. AN EXTREMELY RARE AND UNUSUAL HAWAIIAN AND UNITED STATES MIXED FRANKING.

This cover is from the Fifth Sub-Period of the Late Treaty Period. As a double-rate cover, the 5¢ Hawaiian postage correctly prepays two-times the 5¢ rate, but the U.S. postage was underpaid at 8¢. The sender perhaps thought the rate was only two-times the 3¢ letter rate plus the 2¢ ship fee.

Feb 01, 1891” duplex (day inverted) on cover to Tarrytown N.Y., original letter with content on the death of King Kalakaua (1836-1891), reads in part “...I guess you have heard of the death of our king. It was very sad to think he should die in a foreign land. He went for the benefit of his health and on his return we were going to give him a grand reception, and now everything is change into mourning. The arches that were built are now hung in black. All stores are draped and the Palace and Government House are beautifully decoration or at least hung in black. The news was such a sudden shock that we could hardly realize it but when the Charleston appeared in the harbor draped in mourning and the casket was brought from the ship to the palace, the native wailed very piteously and the Queen’s grief as she saw the coffin turned the hardest of hearts. She wrung her hand and seemed as though her grief was more than she could bear. I saw the King lie and the coffin given to him by the American Govmnt is very elaborate being heavenly draped in black velvet. He is to be buried next Sunday and will have a grand funeral. I will write again and tell you all about it. We feel very sorry. He was such a kind man, and many secret acts of kindness will be remembered. The present Queen is a more dignified person and will no doubt hold her position well...”; no flap and edge faults, **Fine**.

Peter Winter of Bremen apparently began offering forgeries sometime in the early 1980's. By 1985 he had arranged to launch a major marketing scheme. A catalog was issued under the name ProPhilForum picturing and pricing forgeries of many classic stamps, about 185 different in total with an addition of 31 cover fronts. The forgeries themselves were produced by an art printer in Germany. Mostly they were photolithographs, but a few were engraved. After filed complaints from the philatelic community, leading to the near shut down of Winter's operation, he arranged with Silke Kratel in Geneva to handle his forgeries through the newly created House of Stamps. After a year or so the House of Stamps was shut down by Swiss postal authorities in response to complaints.
