DESCRIPTIVE CATALOGUE

OF THE

POSTAGE STAMPS

AND

STAMPED ENVELOPES

OF ALL NATIONS

EIGHTEENTH EDITION

NOTICES

THE prices in this Catalogue are net. The first column gives the number of the stamp for convenience in ordering (it is only necessary to give the name of the country and the number); the second column gives the intrinsic value of the stamp; the column headed "New" gives the price of unused stamps, and that headed "Used" of canceled specimens. *Prices in Italics are Approximate Values.*

Owing to the growing scarcity of many stamps, it is not possible to have in stock, at one time, all those mentioned in this Catalogue, and it will be well for correspondents, when ordering, to *give an additional list to select from in case any of those preferred may not be on hand.*

We will be obliged to collectors if they will write the name of countries alphabetically in their order lists.

Money sent for stamps not in stock will be returned, unless otherwise ordered by the sender. In no case will other stamps, not ordered, be substituted.

Our stock is very large, and collectors can depend upon having their orders by mail filled promptly and as satisfactorily as if they called in person.

It is needless to add that collectors will get from us only genuine stamps in good condition. The reputation we have acquired in the past twenty years is an assurance of that, but if more is needed, a written guarantee upon any particular stamp sold by us will be given whenever desired.

In the following pages are representations of the Coats of Arms, Devices, Inscriptions, etc., found upon the stamps of various countries, and by the aid of which any stamp may be located with little difficulty. The arms are not always the same size on different stamps, and they are frequently enclosed in a fancy frame or a wreath, or with a scroll or other device around them. It should be borne in mind that the pictures given are the arms without any of the accessories named, and a little study will soon impress them so upon the mind that they will be known at sight, regardless of what may be around them. These illustrations and list of words and phrases will be found to be of far more value than pictures of the stamps, as formerly employed, and by their aid a stamp without the name of the country upon it can be more easily located. For instance, the collector finds a stamp bearing a double-headed eagle and the inscription, "*Kais Kon. Zeitungs Stempel.*" By looking among the coats of arms he will find the double-headed eagle to be the arms of Austria, and on the list of words, etc., it will be ascertained that the inscription belongs on an Austrian stamp. Another has a stamp with a head of Mercury looking to the right and the inscription wholly in a foreign language. Looking among the devices as pictured it will be seen at once that the stamp is from Greece, and so on through the entire number of stamps; there are few which cannot be identified by the tables here given.

\$'S FOR OLD ENVELOPES *and* LOCALS

The above cuts represent the labels containing the word "Three" in the 1853 issue of United States Envelopes. Nos. 1 and 2 have labels with square ends; Nos. 4 and 5 rounded ends; No. 3 notched ends, and No. 6 is without white lines at the ends. Nos. 1, 2 and 3 we will buy either cut or uncut, *but will pay very much more if the envelope is whole and in good condition.* Nos. 4, 5 and 6 are common dies, but No. 4 comes on an envelope having the lower flap at the back folded over about half ($\frac{1}{2}$) an inch from the bottom instead of running up to a point, as in the ordinary kinds. Envelopes of this shape are scarce and we pay good prices for them, if in good condition.

THE MERCHANT FLAGS OF THE WORLD.

AUSTRIAN-ITALY.

BRAZIL.

FINLAND.

Uncolored fac-similes, showing size and style.

"These brilliant colored Flags faithfully represent the emblems of the different nations of the earth, and as such are a great acquisition to any Album, while the exceedingly low price (25 cents) at which they are published, places them within the reach of all."

"This Chart containing many Flags never before published, has been collected with great care, and can be relied upon as being strictly accurate, and by its aid the nationality of any ship may be easily determined, as it gives the Flag of the NATION instead of the gorgeous piece of bunting which simply belongs to one family, and is seldom, if ever, seen out of their country."

"These sheets possess three great advantages (to the Collector) over any other we are acquainted with, which consist in the facts that there is only one Flag to each country: more nations represented than have heretofore been given, and only Flags of those countries which issue postage stamps. These we consider of great importance to those who buy them to put in albums, as they can use them all instead of having to throw away half the purchase. The colors are very brilliant, and withal correct, and being printed on very thin paper, the book is not swelled to an inordinate thickness."

Beautifully and correctly printed in FIVE colors on thin paper for albums. Price only 25 cents.

Uncolored fac simile showing size.

This magnificent chart contains accurate representations of the armorial bearings of the nations of the world, all of which are beautifully and correctly emblazoned in gold and silver, and their true colors.

As a sheet for framing, it is an acquisition to any drawing room, and is indispensable in the library or study.

As a guide to determine the nationality of foreign coins or postage stamps, (most of which bear the issuing countries' arms), it will be found of great service. While cut up and inserted in stamp albums, they will be found to add much to the appearance of the page.

Printed on fine thin paper for inserting in albums. Price, 50c.
