

REPORT OF THE POSTMASTER GENERAL.

POST OFFICE DEPARTMENT,
November 26, 1866.

SIR: The revenues of this department for the year ending June 30, 1866, were \$14,386,986 21, and the expenditures \$15,352,079 30, showing an excess of the latter of \$965,093 09. Anticipating this deficiency, a special appropriation was made by act of Congress approved July 28, 1866.

The decrease of revenue compared with the previous year was $1\frac{1}{2}$ per cent., and the increase of expenditures 12 per cent. Including the standing appropriation for free mail matter, \$700,000, as a legitimate portion of the revenues yet remaining unexpended, the actual deficiency for the past year is only \$265,093 09—within \$51,141 of amount estimated in the annual report of 1864.

That portion of the revenues accumulated in depository and draft offices, under the supervision of the "finance office" of this department, was \$6,751,655 39; collected by the Auditor, \$2,641,074 38; and retained by postmasters for salaries and office expenses, \$4,994,256 44.

The estimated expenditures for the year ending June 30, 1868,	
are	\$17, 583, 000
The revenues, estimated at 5 per cent. over last	
year.....	\$15, 106, 335
Appropriation for free matter.....	700, 000
	15, 806, 335
Excess of expenditures	1, 776, 665

For this deficiency no special appropriation will be required. The standing appropriations for free matter, unexpended for several years, are deemed sufficient. The following amounts will, however, be required from any money in the treasury not otherwise appropriated, viz:

For overland mail transportation between Atchison and Potosi, and	
for marine mail transportation between New York and California.	\$900, 000
For steamship service between San Francisco, Japan, and China,	
for one year from July 1, 1867.....	500, 000
For steamship service between the United States and Brazil, for the	
same period	150, 000
	1, 550, 000

(See Appendix.)

For detailed information as to the finances of the department, reference is made to the full and satisfactory report of the Auditor, hereto appended.

The number of postage stamps issued during the year was 347,734,325, representing \$10,816,661; stamped envelopes 30,386,200, representing \$921,500 50; stamped envelopes bearing printed cards and requests 7,683,525, representing \$230,006 75; stamped wrappers 1,025,000, representing \$20,500; making in all \$11,988,668 25; a decrease of \$858,769 25, as compared with the previous year.

The aggregate of stamped envelopes and stamped wrappers issued during the year ended June 30, 1866, was 39,094,725, representing \$1,172,007 25; an increase of 12,888,550, representing \$424,557 25, or nearly 50 per cent.; being largely in excess of issues during any previous year since the introduction of stamped envelopes.

The sale of stamps, envelopes, &c., during the past year amounted to \$12,504,729 54, or \$216,061 29 more than the issues; showing the absorption to that extent of the stock remaining unsold in the hands of postmasters, which amounted on the 1st of July, 1865, to \$447,710. (See Appendix.)

The issues of postage stamps and stamped envelopes during the current fiscal year, from 1st of July to 1st November, are \$360,765 in excess of the issues for the corresponding period of last year, being at the rate of more than one million of dollars per annum.

The increased demand since 1st July for envelopes with printed cards and requests for returning direct to the sender, if not promptly delivered to the address, is very notable, being about 66 $\frac{2}{3}$ per cent. The general use of such envelopes will tend largely to reduce the number of dead letters.

During the year, sixty-six cases of claims, on account of robberies by armed forces, involving an amount of \$4,226 06, have been acted upon. Fifty-seven of these claims, amounting to \$3,852 04, have been allowed under the provisions of the acts approved April 29, 1864, and March 3, 1865, and nine, amounting to \$374 02, have been rejected as not coming within the provisions of the law.

CONTRACTS.

There were in the service of the department on the 30th June, 1866, 6,069 contractors for the transportation of the mails.

Of mail routes in operation there were 6,930; aggregate length 180,921 miles; aggregate annual transportation 71,837,914 miles; aggregate annual cost \$7,630,474; including the compensation of route agents, local agents, mail messengers, postal railway clerks, and baggage-masters in charge of mails, viz., \$779,710, the aggregate annual cost was \$8,410,184. This service was divided as follows:

Railroad routes: length 32,092 miles; annual transportation 30,609,467 miles; annual cost \$3,391,592, about 11 cents per mile.

Steamboat routes: length 14,346 miles; annual transportation 3,411,962 miles; annual cost \$440,844, about 13 cents per mile.

Celerity, &c.: routes' length 134,483 miles; annual transportation 37,816,485 miles; annual cost \$3,798,038, about 10 cents per mile.

The length of routes was increased over the preceding year 38,581 miles; the annual transportation, 13,721,420 miles; and the cost, \$1,393,590, the increase arising principally from the restoration of service in the southern States.

A table herewith annexed shows the rate of pay per annum for mail transportation in operation in late insurgent States on the 30th June, 1866, \$1,170,529, compared with the amount due for service actually rendered in those States in the year ending with that date, \$769,218; the difference, \$401,311, resulting from the fact that much of the service was in operation only part of the year. The net postal receipts from those States for the same period being \$693,835, the liabilities (without including the compensation of route agents, local agents, and mail messengers) exceed the receipts by \$75,383.

A table is annexed showing the mail service in operation in these States September 30, 1866, compared with the condition of the service in the same States, November 1, 1865, the date to which the statements on this subject were made up in the last annual report. From this table it will be seen that there are in operation in the States enumerated ninety railroad routes, with an aggregate length of 8,170 $\frac{3}{4}$ miles, at a cost of \$587,581 per annum; twenty-six steamboat routes, with an aggregate length of 5,557 miles, at a cost of \$195,565 per annum; and 1,137 "star service" routes, (celerity, &c.,) with an aggregate length of 46,442 $\frac{3}{4}$ miles, at a cost of \$1,062,477 54 per annum; making the whole service now in operation in these States, of all grades, 1,253 routes, with an aggregate length of 60,170 $\frac{1}{2}$ miles, at a cost of \$1,845,623 54 per annum. Compared with the service in operation on the 1st November, 1865, viz., seventy-one railroad routes, with an aggregate length of 6,242 $\frac{1}{2}$ miles, at a cost of \$437,257 per annum; twelve steamboat routes, with an aggregate length of 3,869 $\frac{1}{2}$ miles, at a cost of \$93,260 per annum; and 154 "star service" routes, with an aggregate length of 8,186 $\frac{1}{2}$ miles, at a cost of \$177,743 per annum, there appears an increase of nineteen routes, 1,928 $\frac{5}{10}$ miles, and \$150,324 annual cost of railroad service; fourteen routes, 2,971 $\frac{1}{2}$ miles, and \$102,305 annual cost of steamboat service; and 983 routes, 38,256 $\frac{1}{2}$ miles, and \$884,734 54 annual cost of "star service;" making a total increase of 1,016 routes, 41,872 $\frac{5}{10}$ miles, and \$1,137,363 54 annual cost.

Another table is annexed showing the number, termini, and length of southern railroad routes not in operation September 30, 1866; the number being only fourteen, and the aggregate length 696 $\frac{1}{10}$ miles. Comparing this with ninety routes in operation, having an aggregate length of 8,170 $\frac{3}{4}$ miles, shows a remarkable progress in the resuscitation of the railroad system of the South. There being two thousand two hundred and fifty routes in all the States enumerated, these statements show more than half the whole number to be in operation, comprising nearly nine-tenths of the railroad routes. All the routes in these States were duly advertised to be let to contract; a part from 1st January, 1866, and the residue from 1st July, 1866; but on a large number of them no proposals were received under the advertisement, and on many others the bids were extravagantly high. In the latter case, offers of the highest admissible rates were submitted by the department to the lowest bidders

and in some instances negotiations were opened through special agents, postmasters, and leading citizens. By all these means combined, the amount of service here stated has been obtained.

The existing contracts in all the States named, except Tennessee, will expire on the 30th June, 1867. New advertisements, inviting proposals for four years' service from 1st July, 1867, are now being issued, under which it is hoped all routes of real utility in the whole section will be let.

By a recent order of the department, the overland mail route to California, of which Atchison, Kansas, had been the initial point, has been changed so as to have two points of departure—one from Junction City, Kansas, on the Union Pacific railroad route, (eastern division,) running from Wyandotte, Kansas; and the other from Fort Kearney, Nebraska, on the Union Pacific railroad route, running from Omaha City, Nebraska. The lines from these two points meet at Denver City, in Colorado Territory.

The Junction City road connects at Wyandotte with the Pacific railway from St. Louis, Mo., making a continuous railway connection with the eastern cities. By this route the stage travel is diminished one hundred and sixty-eight miles, and the time occupied in the transit should be proportionally reduced. The mails to and from California, which before were sent via Chicago and St. Joseph, were consequently ordered, on the 15th of August last, to be sent via St. Louis, Wyandotte, and Junction City. The reports so far received of the actual running of the mails since the change took effect do not show the average diminution of time in the performance of the through trip which the department was led to expect, though the capacity of the route for superior expedition is proved by the fact, that in one or two instances the mails have been received at New York in nineteen days from San Francisco, a day less than the shortest time ever made previous to the change. Subsequently, however, the extension of the Chicago and Northwestern railway to Omaha City, which is necessary to form a continuous line by rail to Fort Kearney, has become so nearly completed, that, on the 13th of November instant, orders were issued to forward via Chicago, Omaha City, and Fort Kearney, all mails destined for the overland route from the distributing offices at Portland, Boston, Hartford, Albany, New York, Philadelphia, Pittsburg, Buffalo, Cleveland, and Detroit—the expectation being that mails from that portion of the country represented by these distributing offices will find their quickest transit by the northern route.

The preparation of post-route maps for publication has been continued by the topographer, and is well advanced. Two sheets, exhibiting the post offices and mail service of the New England States, are in the hands of the engraver, and will be ready for distribution and sale early this winter.

The amount of fines imposed and deductions made from the pay of contractors for failures and other delinquencies during the year was \$62,956 48, and the amount remitted for the same period was \$6,654 39, leaving the net amount of fines and deductions \$56,302 09.

A table is annexed, showing the number, description, and cost of mail bags, locks, and keys purchased during the year; the amount expended for mail bags of all kinds being \$53,627 50. This, compared with the expenditure of the preceding year, (\$91,715 86,) shows a curtailment of \$38,088 36.

FOREIGN MAIL SERVICE.

The aggregate amount of postage, sea, inland, and foreign, upon the correspondence exchanged with foreign countries, was \$2,289,219 30, being an increase of \$469,290 70, as compared with the previous year. Of this amount \$1,840,800 92 accrued upon the mails exchanged with Great Britain, France, Prussia, Bremen, Hamburg, and Belgium; \$328,341 33 on mails exchanged with the British North American Provinces, and \$120,077 05 on the correspondence transmitted to and from the West Indies, Mexico, Central and South America.

The transatlantic mail steamship lines employed in the service of foreign governments conveyed mails, the postages on which amounted to \$975,109 23; and those employed in the service of this department conveyed mails, the postages on which amounted to \$865,691 69.

The United States' portion of the postages upon the correspondence exchanged with Great Britain and the continent of Europe amounted to \$775,647 59; with the British North American Provinces, \$188,883 53; with the West Indies, Mexico, Central and South America, \$120,077 05.

The number of letters exchanged in the mails with foreign countries was 9,430,546; of which 4,886,916 were sent from, and 4,543,630 received in the United States. Of this number 8,564,847 were exchanged with European countries, an increase of 1,851,330 over the number exchanged in 1865.

The number of newspapers sent to foreign countries was 2,804,442, and the number received from foreign countries 1,381,724, making a total of 4,186,166. Of this number 3,828,135 were exchanged with Europe, being an increase of 29,157 on the number in 1865.

The increased correspondence with foreign countries, particularly with the continent of Europe, during the year is unprecedented, amounting to more than twenty-five per cent. as compared with the previous year.

The cost of transatlantic mail service performed by steamships employed by this department, under the provisions of the existing law, which allows the sea and inland postage to American and the sea postage only to foreign steamers, was \$525,307 46.

The cost of ocean transportation of mails to and from the West Indies, by steamers receiving different rates of compensation within the limit of the postages, was \$57,871 69, being \$20,742 32 less than the amount of United States postages upon the mails conveyed.

The amount paid for sea and isthmus transportation of the mails exchanged with Central and South America, via Panama, was \$17,377 45.

The excess of postage collected in the United States upon the correspondence exchanged with Great Britain and the continent of Europe was \$500,627 76; causing balances against the United States on settlement of the international postage accounts, amounting in the aggregate to \$278,714 19. For full particulars of the operations of the foreign service reference is made to the Appendix, and to the report of the Auditor annexed hereto.

A liberal postal convention has been concluded with the kingdom of Italy, which adopts the leading reforms in international postal intercourse, recommended by the postal conference held at Paris in May, 1863. It was nego-

tiated and signed at Turin on the 8th of July, 1863, and the ratifications thereof were formally exchanged at Florence on the 14th of June, 1866. This convention, a copy of which is annexed, will be carried into execution as soon as notice is received from the post department of Italy of the route or routes of transit by which the exchange of correspondence in closed bags can be effected.

Notice was given by the British government, under date of July 25, 1866, of its purpose to terminate the existing postal convention between this country and the United Kingdom on the 1st of January, 1868, simultaneously with the expiration of the mail subsidy contract with the Cunard line; accompanied with an assurance of the desire of that government to conclude a new convention on a more liberal basis, reducing the present rates of international postage and granting enlarged mail facilities. The necessary steps were at once taken to accomplish that object, and I have the satisfaction of announcing that a preliminary basis for a new postal convention has been agreed upon by the two post departments, reducing the international charge on a single letter from twenty-four to twelve cents; admitting into the mails printed matter of every kind, and patterns of merchandise, at such rates as the despatching country shall establish; and granting to each country, reciprocally, the right to transmit correspondence in closed bags, or in the ordinary mails, through the other, at the same rates of charge paid by the inhabitants of the country through which the correspondence is forwarded.

The principal advantages of the new arrangement may be briefly stated as follows:

1. A reduction of the international letter postage to one-half of the existing charge.

2. The removal of all restrictions upon the exchange of printed matter in the mails at reduced postage charges.

3. The compulsory prepayment of postage upon letters and other mail matter, avoiding entirely the keeping of complicated postage accounts upon international correspondence.

4. A reduction of postage with all other countries to and from which correspondence is transmitted in the British mail, or in closed bags through the United Kingdom.

5. The establishment of uniform and reasonable charges for the sea and territorial transit of correspondence in closed mails; and granting to each post department the right to make use of all mail communications established under the authority of the other, for the despatch of correspondence, either in open or closed mails, on the same terms as those applicable to the inhabitants of the country providing the means of transmission.

6. The postage of all international letters to belong wholly to the despatching country, and no charge whatever to be made by the receiving country on delivery.

7. Each post department to make its own arrangements for the despatch of mails to the other, by well appointed ships, sailing on stated days, and to pay the owners of such ships for the conveyance of the mails which it despatches.

No time has yet been agreed upon for carrying the new convention into

operation, but it is confidently expected that the British office will consent to name as early a date as practicable, that the public may receive, without unnecessary delay, the benefit of the reduced rates of postage, as well as of more frequent means of mail communication between the two countries.

The postal convention with Venezuela referred to in the last report was executed on the part of Venezuela on the 26th of June, and went into operation on the first of October last. A copy thereof is annexed.

Negotiations have been commenced with the post department of Brazil, for a postal convention to regulate the exchange of correspondence with that empire, by means of the direct line of subsidized mail packets plying between New York and Rio de Janeiro, via St. Thomas, Para, Pernambuco, and Bahia. The draft of articles submitted by this department as the basis of the convention, proposes the establishment of low rates of postage both upon letters and printed matter, the avoidance as far as practicable of postage accounts between the respective post departments, and adopts the leading improvements recommended by the Paris international postal conference. A copy of the contract for the mail service to Brazil, which was executed by the United States and Brazil Mail Steamship Company on the 29th of August, 1865, is annexed hereto.

The Pacific Mail Steamship Company of New York, to which was awarded the contract for the China mail service, authorized by the act of February 17 1865, has executed a contract for that service, a copy of which is annexed. The high reputation of this company, their experience and undoubted resources, and the zeal and energy which they have manifested in making preparations for the service, afford a guarantee of the success of this great national enterprise to extend and develop American commerce, by obtaining control of the vast and constantly increasing trade of Japan and China, which the advantages of our geographical position should enable us to possess.

The contract is for monthly trips between San Francisco and Hong Kong, touching at the ports of Honolulu in the Sandwich Islands, and Yokohama (Kanagawa) in Japan, both on the outward and inward passages, by a line of first-class American sea-going side-wheel steamships of not less than 3,500 tons burden, government measurement, and of sufficient number, not less than four, to perform the stipulated service.

The Great Republic, the first of the new steamships building specially for this service, was launched at New York on the 8th of November instant, is now receiving her machinery, and is expected to be ready for sea about the 1st of May, 1867. She will register over 4,100 tons, government measurement, or 1,100 tons more than the minimum tonnage named in the law; her extreme length is 380 feet, extreme breadth 50 feet, depth of hold 50 feet, and her draught when ordinarily loaded will be 21 feet. The second steamship, of similar size and proportions, is to be launched early in December of this year, and will be prepared for service about the 1st of July, 1867; and the machinery for two others of like dimensions is in course of construction. An inspection of the hulls and machinery of these ships, as well as a general knowledge of the preparations making by the contractors, has satisfied me

that every possible exertion is being used to fulfil the requirements of the law and contract.

The company have tendered their first-class steamship Colorado to take the mails from San Francisco on the 1st of January, 1867, the day named in the law. This ship, which has been withdrawn from the Panama and San Francisco line to prepare her for service on the China route, is of the required tonnage, and will, it is believed, fully comply in other respects with the terms of the law and contract, although the report of her inspection by a naval constructor, under instructions lately given by the Secretary of the Navy, has not yet been received.

In the building of steamships for this line the contractors encountered a practical difficulty, arising out of two conflicting conditions: first, the necessity of constructing ships that could make the long voyage of 7,087 miles between San Francisco and Hong Kong, by the route named in the law, with safety and success, as regards the main object for which Congress authorized the establishment of the line; and secondly, the practicability of securing that object without making the ships so large as to preclude, by their heavy draught, the possibility of entering the harbor of Honolulu, which has a depth of water, under favorable circumstances, of barely 21 feet. These two conditions, they allege, were found to be inconsistent, and they therefore assumed the responsibility of so constructing the ships as to attain the more important objects of the subsidy, while necessarily placing a practical difficulty in the way of the accomplishment of the lesser, believing this to be the only course open to them without disregarding the main ends of their contract, as well as the wisest for the public interests to be promoted by the establishment of the line. They are, consequently, building ships of much greater cost, by reason of increased size, and proportionally more expensive to keep in service, than was necessary to meet the minimum requirements of the law. Although the law, and the contract executed in pursuance thereof, name Honolulu as an intermediate port, the fact appears to be well established by reliable official information, that the laws which govern the navigation of the Pacific ocean, render it unwise, if not incompatible with the complete success of the enterprise, to require the steamships to touch at the Sandwich Islands on their passages between San Francisco, Japan, and China. This is conclusively shown by the report of my predecessor to the Senate Committee on Post Offices and Post Roads, dated June 11, 1866, in which are embodied explanations furnished by Rear-Admiral Charles H. Davis, superintendent of the United States Naval Observatory, respecting the proper routes to be pursued by steam vessels navigating the Pacific ocean between San Francisco, Kanagawa, and Hong Kong. Admiral Davis, referring to the advantages of the great circle, or direct route between China and San Francisco, so clearly defined by natural laws, uses the following explicit language: "It is impossible, in establishing a route between two continents for the improvement of intercourse and trade, to overlook or neglect such advantages as these. It is hardly too much to say that it would amount to an absurdity to select the models of our ships with special reference to speed; and to propel them through the water with engines of enormous power, and then to pretermitt those aids and advantages which nature offers to us as her own means of co-operation. At any rate, if we

are prepared to do so, we must also be prepared to leave this field of enterprise at no distant day to those who will obey the laws governing the navigation of the great seas. These considerations with regard to the eastern voyage appear to dispose of the whole question. They show that touching at the Sandwich Islands on the return from China would prolong the voyage so many days unnecessarily; that an additional line of steamers must soon be established, provided the intercourse between China and America is to acquire that importance which is confidently expected."

A careful consideration of the subject has satisfied me of the correctness of the views expressed by my predecessor in that report. That the steamships of the main line between San Francisco, Japan, and China should not be required to touch at the Sandwich Islands does not, in my judgment, admit of reasonable doubt; but the conditions upon which such release should be granted is a question exclusively for the determination of Congress. A wise and liberal policy towards a national enterprise of this magnitude would seem to justify the release without imposing onerous conditions, in consideration of the increased expenses incurred in building ships for the service of great size and augmented speed, as well as of the important public interests involved in the success of the line.

APPOINTMENTS.

The number of post offices established during the year.....	1, 143
Number discontinued.....	636
Increase of offices.....	507
Number of post offices in operation on the 30th June, 1865.....	20, 550
Total number in operation on the 30th June, 1866.....	23, 828
Number of post offices in the States not engaged in the rebellion....	20, 550
Number in the late insurgent States, of which 2, 778 were re-opened during the year.....	8, 839
Number of offices subject to appointment by the President.....	709
Number by the Postmaster General.....	23, 119
Number of offices re-opened in the southern States up to November 1	3, 234
Appointments made to fill vacancies by resignation of postmasters..	4, 679
To fill vacancies in suspended offices.....	2, 778
By removals.....	1, 065
By change of names and sites.....	192
By death of postmasters.....	217
By establishment of new offices.....	1, 143

No. of local mail agents.....	58	Aggregate compensation....	\$38,919
No of baggage-masters.....	30	Aggregate compensation....	1,800
Total.....	738		636,266

The free delivery system is in operation in forty-six of the principal cities. The number of carriers employed was 863, at an aggregate compensation of \$589,236 41.

This mode of delivery has steadily grown in favor with the public, and in several of the large cities, where its progress has been most marked, the local postage shows a gratifying increase. Experience has shown its superiority over the old system of box delivery, and the results of the last two years commend it to Congress as a permanent branch of the postal service. Its effects in saving time to the public; in insuring the correct delivery by inducing the habit of directing letters to street and number; in reducing the great number of advertised and dead letters; in facilitating correspondence, especially local; in obviating the necessity of the many fruitless calls at the post office, are relied on to prove its advantages over the old system of office delivery. (See tabular statements in the Appendix.)

DEAD LETTERS.

The whole number of dead letters received, examined, and disposed of during the year, was about four and a half millions, upwards of 40 per cent. of which were from forty-seven of the larger post offices. About six hundred thousand other letters were received, being unmailable for want of pre-payment of postage, or on account of misdirection or illegible address.

During the year there were registered and remailed to the respective owners, as enclosing money in sums of one dollar and upwards, 32,814 letters, containing an aggregate of \$244,589 99, of which number 27,948, containing \$221,066 19, were delivered, being 90 per cent. The number of letters enclosing sums of money less than one dollar, remailed to the respective owners, was 13,834, containing an aggregate amount of \$3,652 55. Of these, 11,175, containing \$3,001 23, were delivered.

The number of letters containing papers of value other than money, as deeds, bills of exchange, drafts, checks, &c., received, registered and returned for delivery to the owners, was 26,610, and the nominal value of the enclosures therein was \$7,826,881 68. The number of these letters delivered was 24,053, being 85 per cent.

The number of letters and packages containing photographs, daguerreotypes, and articles of jewelry, was 67,016, of which 53,572 were sent out, (containing, for the most part, photographs and daguerreotypes,) and 42,745, or 80 per cent., delivered.

A large number of packages containing miscellaneous articles, for which no owners could be found, were sold at public auction, the proceeds amounting to \$3,543 14.

The number of letters returned, unopened, to foreign countries during the year was 193,754, the amount of unpaid postage on which was \$9,879 40.

The number received from foreign countries in the same condition during the same period was 72,440, and the amount of unpaid postage thereon \$2,039 26. (For additional particulars see Appendix)

The number of congressional and official papers returned to the proper departments was 17,806.

The number of letters enclosing soldiers' discharges and other military papers sent to the Adjutant General's office, &c., was 8,918.

The number of ordinary letters remailed to the writers was 1,746,156, being an increase of 583,472 over the number of the same character returned the year previous. Of these 1,275,845 were delivered.

The whole number of letters of all descriptions sent out during the year was 2,093,444, of which 1,602,224 were delivered, being 77 per cent.

Of the number of ordinary letters sent out for delivery since the 1st July last, from which time, in accordance with the law, they have been returned free, 83 per cent. were delivered, being an increase of 17 per cent. over the percentage delivered during the same period of the year previous.

About 2,500,000 dead letters have been destroyed during the year. Of these upwards of 60 per cent. were ordinary business circulars, advertisements of lottery and gift enterprises, notices of corporate societies, and tradesmen's bills; the remainder being composed of letters not signed, or so written as to be unintelligible.

An investigation into the cause of the non-delivery of letters confirms the statement made in the last report, that three-fourths of the whole number fail to reach the parties addressed through faults of the writers, and it has been ascertained that the proportion of letters fully addressed returned from offices where the free delivery is established is less than 3 per cent. From some of these offices returns have been received, in which not a single letter so addressed appears without a satisfactory reason for the non-delivery. From 40 to 50 per cent. of dead letters are returned from these offices, and it thus appears that a more careful attention to the details of address on the part of writers, together with a more extensive use of request envelopes, would materially promote the certainty of delivery and greatly diminish the number of dead letters.

POSTAL MONEY-ORDER SYSTEM.

The number of money-order offices now in operation is 766, being 347 more than at the date of the last annual report, and measures have recently been taken to establish 67 additional offices in the Pacific States and Territories.

The number of orders issued during the year was 243,609, of

the value of \$3, 977, 259 28

The number paid was 233,124, of the value of \$3, 851, 839 49

To which is to be added amount of orders repaid

to purchasers 52, 050 73

3, 903, 890 22

Excess of issues over payments.....

73, 369 06

From the establishment of the system on November 1, 1864, to July 1, 1865, a period of eight months, the orders issued amounted to \$1,360,122 52, and the orders paid and repaid to \$1,313,577 08. On comparing these amounts with the corresponding transactions of the last fiscal year, it appears that the business has been almost trebled.

The average amount of each order issued during the year was \$16 32.

The whole number of duplicates was 1,432, of which 1,124 were issued to replace originals lost in the mails or otherwise, 296 were in lieu of orders invalidated by age, and 12 to replace orders illegally indorsed.

The sum of \$2,710,685 53, being surplus funds accruing at the smaller offices from the transaction of the money-order business, was transmitted to first-class offices used as depositories, either by national bank drafts or in registered packages by mail. The receipts and expenditures for the last fiscal year, as adjusted and reported by the Auditor, were as follows, viz :

Receipts :

Fees on orders issued.....	\$35, 799 98
Premium received on exchange	3 08
	35, 803 06

Expenditures :

Commissions to postmasters.....	\$11, 432 49
Clerk hire.....	14, 910 50
Books and stationery.....	1, 224 59
Premium paid on draft	25
Miscellaneous, including furniture and fixtures....	563 44
Remittances lost in the mail.....	533 00
	28, 664 27

Excess of receipts over expenditures	7, 138 79
--	-----------

This sum represents the gross amount of revenue derived from the transaction of the money-order business for the past year, and if we deduct therefrom the amount of the deficiency in the receipts as compared with the expenditures during the period of eight months ending July 1, 1865, as stated in the last annual report, viz

7, 047 97

There remains the sum of	90 82
--------------------------------	-------

as the proceeds of the system from its commencement up to the close of the last fiscal year.

The cost of blanks for postmasters, which are furnished by the department of public printing, is not included in the foregoing statement of expenditures.

The present charge or fee established by law for an order of twenty dollars or less is ten cents, and for an order exceeding twenty dollars, twenty-five cents. These rates are defective in this respect, that an applicant who desires to remit any sum under forty dollars, could do it more cheaply by two orders than by one, inasmuch as two orders for twenty dollars each would cost him but twenty cents, while for a single order of forty dollars he would have to pay

twenty-five cents. The manifest tendency of this state of things is to augment unnecessarily the number of orders issued, involving a waste of time and of clerical labor at both the issuing and paying offices, as well as increasing the liability to error. The adoption of an additional rate of fifteen cents for all orders of more than ten, but not exceeding thirty dollars, without any change of the present fees for orders of ten dollars or less, or for orders exceeding thirty dollars, would remedy the defect in question, and promote expedition and accuracy in the transaction of the business.

At some post offices, particularly those located at centres of trade and commerce, the number of orders paid very greatly exceeds the number issued, so that the payment of orders constitutes the chief business of these offices, and as the postmaster's compensation for paying orders, being one-eighth of one per cent. on the amount thereof, is much less than for issuing them, for which he receives one-third of the fees, it is recommended that the commission for paying orders be increased from one-eighth to one-fourth of one per cent., so as to afford postmasters at such offices a compensation proportionate to their services.

In case of the loss of a money order, the owner, in order to obtain a duplicate thereof, is required "to furnish a statement under oath or affirmation," setting forth the loss or destruction of the original, together with a certificate from the postmaster by whom it was payable that it has not been and will not be paid. A certificate must also be obtained from the issuing postmaster that the order in question had not been and will not be repaid to the purchaser. In the majority of cases the applicant's information with regard to the loss of the original order is limited to the fact that it was mailed at a certain office, but failed from causes unknown to him to reach the person addressed. He is obliged, however, to furnish a statement to that effect under oath, (which is to be administered by the postmaster without charge,) and to defray the cost of a five cent revenue stamp affixed to such statement. This additional expense is burdensome to the owner, who is rarely to be blamed for the loss of the original order, for which the regular fee had already been paid to the department, and the latter having undertaken, in consideration of that fee, to transfer through the mails the sum of money represented by the order, should perform that duty without exacting any further compensation. Experience, moreover, shows that the certificates of both postmasters afford complete security against the erroneous issue of a duplicate in lieu of an order that had once been paid. It would seem therefore, that the legal requirement from the applicant of a sworn statement as to the loss or destruction of the original is entirely unnecessary, as well as onerous, and should be abolished. For similar reasons no charge whatever should be made for the issue of a duplicate order to replace an original that has become invalid because not presented within one year after its date, or because improperly indorsed. In such cases the invalidation of the order is in itself a penalty for any negligence of the holder, who, on application should receive payment of his money by means of a duplicate without a second fee.

During the last fiscal year five cases have occurred of the payment of orders to persons who had forged the signatures of the payees. These persons had

previously, through lack of precaution or injudicious confidence of the remitter or payee, been put in possession of all the information required to obtain payment of the order. To forge or counterfeit a money order is made a penal offence by the act of May 17, 1864, but there is no provision of law to punish the forgery of the payee's signature, and as the latter crime is liable to be often repeated, especially at the large offices, there is a necessity for additional legislation to provide an adequate punishment for it, as well as for any attempt to obtain payment of a money order by fraudulent means.

A remittance of surplus money-order funds, amounting to \$617, sent in a registered package from Natchez, Mississippi, to St. Louis, Missouri, was lost by the destruction of the mail steamer *City of Memphis*, on the 31st of May, but in consequence of delay in obtaining satisfactory evidence that this sum had been duly counted, registered, and mailed, and had subsequently been totally destroyed, the claim of the postmaster at Natchez to be credited therewith was not allowed by this department and transmitted to the Auditor in time to be inserted in his report.

MISCELLANEOUS.

In addition to the details of this report, I submit a few suggestions: The condition of all branches of this department is most encouraging. The general plan proposed by my predecessor for re-establishing postal service in the late insurgent States has been, to a large extent, carried out; and efficient service, with economical expenditures, has resulted. Just as rapidly as the condition of the country and the necessities of the people will warrant, new post offices will be opened, and mail service increased.

The surplus of revenues over expenditures for the fiscal year ending June 30, 1865, was not anticipated for the year ending June 30, 1866. The expense incident to re-establishing mail service in the southern States, where such service had been interrupted by the rebellion, it was known would increase largely the general outlays of the department beyond what had been required during either of the preceding four years.

There is no better evidence of national prosperity than the constant increase from year to year of revenues derived from domestic and foreign postages. There is no better evidence of the increasing general intelligence of the American people than that furnished by the loaded mails.

The change in modes of conveyance from carrier pigeons and special messengers, and post riders with billets and small packages and a few letters, to railroads and steamboats, carrying every day hundreds of tons of letters and newspapers and books, all through the length and breadth of the land, is an extraordinary commentary upon the increasing wealth and prosperity of the nation, and the energy and intelligence of the people. The few thousand pounds of postal revenue in Franklin's time for a single year, give place now to fifteen millions of dollars annually, a sum greater than the annual revenues of the federal government during the administration of John Quincy Adams.

This service, under the liberal patronage of the government, has done more to aid in developing the resources of the country than anything else except the

cultivation of the soil. It has done more to aid in enlightening and Christianizing the people than anything else except the spelling book and Bible. The post office and mail route travel with civilization, and mark its progress as distinctly as the school-house and meeting-house.

It has always been an erroneous theory in the history of the postal service of the United States that it was established or sustained on the principle of wholly defraying its own expenses out of its own revenues; or, in other words, on the principle that it should be self-supporting. It is a great public necessity, to accommodate private citizens, and it will not do to say that no mail route shall be opened, or post office established, until the business on the proposed route or of the proposed office shall pay all expenses.

Large sums of money are paid every year to contractors for carrying mails beyond our frontier, across the central wilderness, to the Pacific States; and other large sums are paid for service on lines tributary to the main lines, to accommodate as yet sparse settlements. From these, comparatively small returns come back in the shape of postal revenues. Yet these very agencies invite settlement and encourage enterprise in material development, so that there comes back to the people in real wealth almost as many millions of dollars as the government expends thousands in this particular branch of service.

Congress has wisely appropriated five hundred thousand dollars per year to pay for carrying mails from San Francisco to China. There is an excuse, in sending mails, for paying this money to a private company in aid of a great commercial enterprise. This money, so expended, will come back from the China seas in goods and wares and merchandise to our own markets, or, in seeking European markets, in transportation paid across the continent.

Whether the people pay in postage stamps for transmission of letters through the mails, or whether they pay by appropriation of public money, the ends sought and the ends attained are the same. While a lavish expenditure of public money is to be avoided, there ought to be a liberal expenditure for extending mail facilities by land and by sea.

In another respect I recommend more liberality. The clerks and employes of the Post Office Department have not been well paid for the services they have performed. The salaries of clerks in the Post Office Department during the four years of war were not increased, while all the expenses of living were more than doubled. The salaries were fixed in times of peace and low prices. They were not raised when war raised prices. Clerks were compelled to run in debt, and, in many cases, their families suffered from want. They worked faithfully and skilfully and honestly in discharging important duties for the government. I submit that they ought to have some reasonable allowance for the past, and an increase of salary in the future.

Clerks in post offices, letter-carriers, and route agents are not paid what they ought to be paid. Honest, industrious men are required for all these duties, and they ought to be paid a fair and living compensation for their labor. Their employment is uninterrupted, except by sickness. The letter-carriers claim peculiar consideration. They travel every day from early in the morning until late at night, in heat and cold and rain and snow, all through the cities, distrib-

uting letters and papers without compensation enough to pay house rent. I feel that the government ought to pay all these employes better, because they earn more, and because the government can afford to pay more. I plead the cause of all these employes because it is just to them that I should, and I earnestly ask permission and means to pay them better.

The foreign postal service has grown to such magnitude that increased care and responsibility fall upon those having the direct charge of it; and I respectfully ask that authority be given to appoint a superintendent of foreign mails, and an additional clerk for that branch of the service.

I also recommend that authority be given to appoint a superintendent of the opening and distribution of dead letters.

The law regulating the franking privilege ought, in my opinion, to be amended. I do not think the privilege should be abolished. I think it a necessity for the different departments, as well as for Congress. But great abuses have grown up under it. To avoid frauds and a misuse of the privilege, I recommend such a change in the law as to require the written signature of the person exercising the privilege upon the matter franked; and to relieve the heads of departments and bureaus of great labor, that a franking clerk be authorized by law for each department of the government, with the right to frank all matter pertaining to the department for which he is appointed.

Respectfully submitted:

ALEXANDER W. RANDALL,
Postmaster General.

The PRESIDENT.

APPENDIX.

Estimates for expenditures for the fiscal year ending June 30, 1868.

For inland mail transportation	\$8,606,000
For foreign mail transportation	620,000
For ship, steamboat, and way letters	8,000
For compensation to postmasters	4,250,000
For clerks for post offices	2,000,000
For payments to letter-carriers	640,000
For wrapping paper	80,000
For twine	20,000
For letter-balances	4,000
For compensation to blank agents and assistants	8,000
For office furniture	3,000
For advertising	80,000
For postage stamps and stamped envelopes	275,000
For mail depredations and special agents	105,000
For mail bags and mail-bag catchers	100,000
For mail locks, keys, and stamps	30,000
For payment of balances due foreign countries	360,000
For miscellaneous payments	400,000
	17,583,000

Statement showing the operations of the free delivery system at the following offices for the year ended June 30, 1866.

A. N. ZEVELY,
Third Assistant Postmaster General

POST OFFICE DEPARTMENT,
Contract Office, October 31, 1866.

SIR: For a statement of the mail service for the contract year ended June 30, 1866, I respectfully refer you to the tables hereto annexed.

Table A exhibits the character of the service, the length of routes, the number of miles of transportation and the cost thereof, as it stood at the close of the contract year.

Table B exhibits the railroad service as in operation on the 30th of June, 1866, also the cost per mile in each State.

Table C exhibits the steamboat service for the current year, showing the particulars of each route.

Table D shows the increase and decrease of mail transportation and cost in the several States and Territories during the year ended June 30, 1866.

Table E shows the rate of pay per annum for mail transportation in operation in southern States on the 30th June, 1866; the amount due for service rendered in the year ending with that date; and the difference, resulting from service being in operation only part of the year.

Table F shows the mail service in operation in southern States September 30, 1866, compared with the condition of the service in the same States November 1, 1865.

Table G exhibits the southern railroad routes not in operation September 30, 1866.

I have the honor to be, very respectfully, your obedient servant,

GEO. WM. McLELLAN,

Second Assistant Postmaster General,

HON. ALEXANDER W. RANDALL,

Postmaster General.

A.—Table of mail service for the year ended June 30, 1866, as

[The entire service and pay are set down to the State under which it is numbered, though extending

** Occasioned by increased number of trips, principally on railroad routes.

^{††} Sea routes to southern ports included in New York service last year, omitted in this year's report.

** Corrected distance.

Arises from excess of curtailment in pay by service on route from Independence to Sedalia being super-
seded by railroad service.

III Occasioned by the reduction in pay on the route from Lincoln to Portland, Oregon, the additional routes put in operation since that reduction was ordered not having absorbed the \$25,000 saved on above route.

¶ To correct error in report of June 30, 1865.

GEO. WM. McLELLAN,
Second Assistant Postmaster General.

E.—The following table shows the rate of pay per annum for mail transportation in operation in southern States on the 30th June, 1866; the amount due for service rendered in the year ending with that date; and the difference, resulting from service being in operation only part of the year.

States.	Rate of pay per annum for service in operation June 30, 1866.	Amount due for service rendered in the year ending June 30, 1866.	Difference, resulting from service being in operation only part of the year.
West Virginia.....	\$24,202	\$67,996	\$43,794

GEO. WM. McLELLAN,
Second Assistant Postmaster General.

Statement showing operations and results of foreign mail service for the fiscal year ended June 30, 1866.

I.—POSTAGES ON UNITED STATES AND EUROPEAN MAILS.

The aggregate amount of postage (sea, inland, and foreign) on the mails exchanged with the United Kingdom.....	\$1,074,732 14
With Prussia.....	294,197 57
With France.....	257,398 95
With Hamburg.....	89,136 76
With Bremen.....	110,124 19
With Belgium.....	15,211 31

Total postages.....	1,840,800 92
---------------------	--------------

Being an increase over the amount reported for the previous year of \$391,270 16.

The postages on mails *sent* to Europe were as follows, viz:

To Great Britain.....	\$548,103 87
To Prussia.....	134,765 35
To France.....	132,151 74
To Bremen.....	74,775 78
To Hamburg.....	54,677 47
To Belgium.....	7,094 99

Total.....	951,569 20
------------	------------

The postages on mails *received* from Europe were as follows, viz:

From Great Britain.....	\$526,628 27
From Prussia.....	159,432 22
From France.....	125,247 21
From Hamburg.....	34,459 29
From Bremen.....	35,348 41
From Belgium.....	8,116 32

Total.....	889,231 72
------------	------------

Postages collected in the United States.....	\$1,170,714 34
Postages collected in Europe.....	670,086 58

Excess of collections in the United States.....	500,627 76
---	------------

Number of letters <i>sent</i> from the United States.....	4,505,663
Number of letters <i>received</i> from Europe.....	4,059,184
Total.....	8,564,847

Being an increase of 1,851,330 over the number reported for the previous year.

Number of newspapers <i>sent</i> from the United States.....	2,550,499
Number of newspapers <i>received</i> from Europe.....	1,277,636

Total.....	3,828,135
------------	-----------

Being an increase of 29,157 over the number reported for the previous year.

The excess of postages on mails *sent* from the United States to different countries of Europe over that accruing on mails *received* from the same countries was as follows:

Great Britain.....	\$21,475 60
France.....	6,904 53
Bremen.....	39,427 37
Hamburg.....	20,218 18
Total.....	88,025 68

The excess of postages accruing on mails *received* over those *sent* was as follows:

Prussia.....	\$24,666 87
Belgium.....	1,021 33
Total.....	25,688 20

II.—CLOSED MAILS.

Weight of closed letter mails <i>received</i> from Prussia, ounces.....	160, 050½
Weight of closed letter mails <i>sent</i> to Prussia, ounces.....	160, 202½
Total.....	320, 253½
Weight of British closed mails for Canada, ounces.....	48, 223
Weight of Canada closed mails for Great Britain, ounces.....	29, 788½
Total.....	78, 011½
Weight of British closed mails from Sandwich Islands, ounces.....	25, 899½
Weight of British closed mails for Havana, ounces.....	10, 890½
Weight of Belgian closed letter mails <i>received</i> , ounces.....	3, 384½
Weight of Belgian closed letter mails <i>sent</i> , ounces.....	3, 824½
Total.....	7, 209½
Amount paid Great Britain for the sea and territorial transit of closed mails through the United Kingdom for the year.....	\$130, 047 83½
Amount received from Great Britain for the sea and territorial transit of closed mails through the United States, (same period).....	31, 826 99½

III.—OCEAN TRANSPORTATION.

The sea transportation of mails to and from Europe was performed by the following steamship lines:

Conveyed on foreign account—	
Cunard line.....	\$767, 681 42
French line.....	22, 649 28
Bremen line.....	95, 641 77
Hamburg line.....	89, 136 76
Total on foreign account.....	\$975, 109 23
Conveyed on United States account—	
Canadian line.....	\$135, 513 51
Dale line.....	280, 939 84
Bremen line.....	167, 163 53
Hamburg line.....	105, 831 73
Havre line.....	60, 832 44
American Lloyd line.....	13, 482 42
Baltimore line.....	1, 928 22
Total on American account.....	865, 691 69
Total.....	1, 840, 800 92

IV.—BALANCES ON SETTLEMENT OF ACCOUNTS WITH FOREIGN POST DEPARTMENTS.

Balance due Great Britain on adjustment of accounts for the fiscal year ended June 30, 1866.....	\$150, 244 25
Balance due France on adjustment of accounts for the calendar year ended December 31, 1865.....	33, 748 59
Balance due Hamburg on adjustment of accounts for the fiscal year ended June 30, 1866.....	49, 241 50
Balance due Bremen on adjustment of accounts for the fiscal year ended June 30, 1866.....	56, 406 79
Total balances against the United States.....	289, 641 13
Balance due the United States on adjustment of accounts with Prussia for the fiscal year ended June 30, 1866.....	\$6, 565 94
Balance due the United States on adjustment of accounts with Belgium for the fiscal year ended June 30, 1866.....	4, 341 00
Total balances in favor of the United States.....	10, 926 94

POSTAL CONVENTION BETWEEN THE UNITED STATES OF AMERICA AND ITALY.

Articles agreed upon between John A. Kassm, esquire, invested with special powers to this end, and Signor Commander Don Giovanni Barbarara, director general of posts of Italy, by virtue of his full powers, in order to establish a regular exchange of correspondence between the United States of America and Italy.

ARTICLE 1.

There shall be a regular exchange of correspondence in closed mails between the post department of the United States and post department of Italy, upon the conditions set forth in the following articles.

ARTICLE 2.

The exchange of mails shall be effected by means of the transatlantic steamers and of the international routes of transit upon which the two postal administrations shall hereafter agree, or, in the absence of such an agreement, each postal administration shall designate the steamers and the route of transit by which the mails which it despatches shall be conveyed.

ARTICLE 3.

The offices for the exchange of mails on the part of the United States are—
1st. New York.

2d. Boston.

On the part of Italy are—

1st. The travelling office from Turin to Susa, when the transit is by the way of France and England.

2d. The travelling office from Milan to Camerlata, or the travelling office from Arona to Magadino, when the transit is by way of Germany and Switzerland. The post departments of the United States and Italy, whenever they shall find it necessary, may agree upon other offices of exchange.

ARTICLE 4.

The following articles shall be admitted into the mails exchanged between the two countries, to wit: 1. Ordinary letters; 2. Registered letters; 3. Documents of business and other written documents which have not the character of a direct personal correspondence, corrected proofs, samples of merchandise, including grains and seeds, and not having a mercantile value in themselves; 4. Newspapers and prints of all kinds, in sheets, in pamphlets, and in books, sheets of music, engravings, lithographs, photographs, drawings, maps, and plans.

ARTICLE 5.

The weight of each packet of samples of merchandise shall not exceed five hundred grammes. The weight of any other packet of mailable articles shall not exceed two thousand grammes, and the form of the packet shall be regulated by the practice of the despatching department.

ARTICLE 6.

All mailable articles, except letters, shall be sent under band or so enclosed that postal agents in both countries may readily verify the contents of the packet.

ARTICLE 7.

The standard weight and progression for the single rate of postage upon all articles enumerated in Article 4 of this convention are established as follows:

1. For letters, 15 grammes; 2. For documentary manuscripts not having the character of a direct personal correspondence, for corrected proofs, and for samples of merchandise, 40 grammes; 3. For newspapers and prints of all kinds, embracing all mailable articles not otherwise assigned, the standard shall not be less than 40 grammes in Italy, or one ounce and a half in the United States; but each post department may establish a higher standard weight of progression adapted to its interior requirements, for articles of this class which it despatches.

ARTICLE 8.

The prepayment of postage upon ordinary letters exchanged between the United States and Italy shall be optional; but letters not prepaid, or insufficiently prepaid, shall be charged in the country of destination, with an extra rate of five cents in the United States and of thirty centimes in Italy. The prepayment of postage upon all other articles, including registered letters, shall be compulsory; and when they shall be in no part prepaid, they shall not be despatched; but in such case they shall be, if practicable, restored to the sender.

ARTICLE 9.

The articles under band, which shall be in part prepaid, shall be forwarded to their destination, but they shall be charged there with twice the amount of the difference between the rate due and the sum actually prepaid.

ARTICLE 10.

The international rate of postage upon the correspondence exchanged between the two countries is based upon the following elements, to wit: 1. The interior rate of the United States; 2. The interior rate of Italy; 3. The maritime rate; 4. The intermediate transit rate; and any reduction which either country may obtain from the existing maritime and transit charges shall inure to the benefit of the people of the two countries by a corresponding reduction of the international rates of postage established in the following article so soon as the two departments shall have adjusted the amount.

ARTICLE 11.

The international rates, combined of the elements above mentioned, and applicable to each standard of progression for the several classes of mailable articles, are established as follows, to wit: 1. For ordinary letters twenty cents in the United States and one franc in Italy; 2. For registered letters, in addition to the ordinary prepaid rate, an extra charge of ten cents in the United States and of fifty centimes in Italy; 3. For documentary manuscripts, corrected proofs, and samples of merchandise, twenty cents in the United States and one franc in Italy; 4. For journals and all other prints, embracing articles not otherwise enumerated, the standard single rate shall be fixed by the despatching department, limited, nevertheless, by the maximum rate of four cents in the United States and of fifteen centimes in Italy.

ARTICLE 12.

Of the combined rate of international letter postage hereby established, three cents represents the interior single rate of the United States, and fifteen centimes the interior single rate of Italy; the remainder of the combined rate is assigned to the payment of the cost of sea conveyance and of intermediate transit by whatever route the mails may be conveyed.

ARTICLE 13.

Articles under band, described in the third and fourth paragraphs of Article 4 of this convention, may be registered in either country for despatch to the

other, upon payment of the registration fee of ten cents in the United States and of fifty centimes in Italy, in addition to the prepayment of the regular postage.

ARTICLE 14.

In order to simplify postal accounts between the departments as much as possible, and to prepare the way for their ultimate abolition, each post department shall retain to its own use all the postal rates and charges which it shall collect, whether by virtue of prepayment or post payment, and each department shall pay the cost of conveyance of the mails which it despatches as far as the frontier of the country of destination. It is also especially provided that the cost of intermediate ocean and land conveyance of the closed mails shall be first defrayed by that one of the two departments which shall have obtained from the intermediaries the most favorable pecuniary conditions of such conveyance, and any amount so paid by one department for account of the other shall be reimbursed.

ARTICLE 15.

It is distinctly agreed that all mailable articles addressed from one country to the other shall be exempt in the country of destination from any rate or fee whatever beyond the charges established by this convention.

ARTICLE 16.

Correspondence exclusively relating to the postal service shall be transmitted on both sides without any postal charge therefor.

ARTICLE 17.

Correspondence of all kinds erroneously transmitted, or wrongly addressed, shall be promptly returned to the despatching office. Articles which shall have been addressed to persons who have departed from the place of destination, leaving their address, shall be forwarded, or returned, as the case may require, charged with the postage which the addressee would have been required to pay on delivery.

ARTICLE 18.

Letters, all registered articles, and all documentary manuscripts, which shall not be delivered to their address, shall be restored to the despatching department. Any of these articles which may have been forwarded by one department to the other on account, shall be restored, and credit taken for the amount originally charged by the despatching office. But samples of merchandise, newspapers, prints of all kinds, and all mailable articles not excepted, which cannot be delivered to their address, shall remain at the disposal of the receiving department, provided they shall not be reclaimed by the sender or addressee within six months from the date of their despatch.

ARTICLE 19.

Neither post department is required to make distribution within its jurisdiction, of any articles the circulation of which shall be prohibited by the laws in force in the country of destination.

ARTICLE 20.

The post departments of the United States and of Italy reciprocally engage to grant each to the other, the gratuitous conveyance across their respective territories, of all correspondence which shall be exchanged in closed mails with any

countries to which they may respectively serve as intermediaries, provided always, that such conveyance shall be effected by the ordinary means of mail conveyance in use; and that the countries taking the benefit of such gratuitous service shall reciprocally accord the like privilege of free transit across their respective territories. The privilege is also accorded to each administration of sending an agent, at its own expense, in charge of the mails in transit. The further privilege is accorded of a free transfer of closed mails in the ports and harbors of the respective countries from one vessel to another in continuance of their conveyance to final destination.

ARTICLE 21.

Correspondence of all kinds which either department shall despatch to the other, for the purpose of being thence forwarded in its mails to another country of destination, shall be subject to the rates established by Article 11 of this convention, added to the ulterior rate in force beyond the frontier of the forwarding country, so that only one interior rate shall be received by the forwarding department.

ARTICLE 22.

Small sums of money may be mutually transmitted between the two countries by means of postal money orders, and the rates and conditions may be arranged by an agreement between the two departments, after the system of postal money orders shall have been adopted by the United States.

ARTICLE 23.

Until the same scale of weights shall have been adopted by the two departments, it is agreed that for the purposes of this convention, fifteen grammes shall be taken as the equivalent of a half ounce, forty grammes as the equivalent of one ounce and a half, and so with their respective multiples in progression, as applied by the respective offices. It is also understood that the rates upon correspondence shall be applied according to the weight stated by the despatching department, except in cases of manifest error.

ARTICLE 24.

The two departments shall settle, by agreement between them, all measures of detail and arrangement required to carry into effect this convention, which may be modified from time to time by special arrangements to be agreed upon directly between the two post departments.

ARTICLE 25.

This convention shall take effect from a day to be fixed by the two post departments, and shall continue in force until one year from notice given by one of the departments to the other of its intention to rescind it.

ARTICLE 26.

This convention shall be ratified, and the ratifications exchanged as soon as possible.

In witness whereof the respective plenipotentiaries have signed the present convention and have affixed thereto their seals.

Done in duplicate, at Turin, the eighth day of July, in the year of our Lord one thousand eight hundred and sixty-three.

[SEAL.]
[SEAL.]

JOHN A. KASSON,
G. B. BARBAVARA.

We having seen and examined the above signed postal convention, and having approved thereof in all and each of its parts, have accepted, ratified and confirmed the same, as by these presents we accept, ratify, and confirm it, promising to observe it, and to cause it to be inviolably observed.

In faith whereof we have signed with our hand the present letter of ratification, and have caused our royal seal to be affixed thereto.

Given at Turin, the sixth of the month of December, in the year of our Lord one thousand eight hundred and sixty-three, and in the fifteenth year of our reign.

[SEAL.]

VICTOR EMMANUEL.

On behalf of his Majesty the King, the minister of state for foreign affairs,
VISCONTI VENOSTA.

I hereby approve the foregoing convention, and in testimony thereof I have caused the seal of the United States to be affixed.

[SEAL.]

ANDREW JOHNSON.

By the President:

WILLIAM H. SEWARD,
Secretary of State.

WASHINGTON, May 4, 1866.

The undersigned having met together for the purpose of exchanging the ratifications, by the President of the United States of America and his Majesty the King of Italy, of the postal convention concluded and signed at Turin, on the 8th of July, 1863; and the said acts of ratification having been produced, and having, after careful collation, been found in good and due form, the exchange thereof took place this day.

In witness whereof the undersigned have prepared the present certificate, which they have signed in duplicate, and sealed with the seal of their arms.

Done at Florence the 14th day of June, 1866.

[SEAL.]

GEORGE P. MARSH.

[SEAL.]

A. LA MARMORA.

POSTAL CONVENTION BETWEEN THE UNITED STATES OF AMERICA AND VENEZUELA.

ARTICLE 1.

An exchange of mails shall hereafter take place between the United States of America and Venezuela by the ordinary routes of sea transportation, as well by private ships as by American or Venezuelan steam or other mail packets plying between the seaports of the two countries.

ARTICLE 2.

Boston, New York, Philadelphia, and New Orleans shall be the exchange offices on the side of the United States; and Ciudad Bolivar, La Guayra, Porto Cabello, and Maracaibo, shall be the offices of exchange on the side of Venezuela for all mails transmitted between the two countries under this arrangement; and all mail matter transmitted in either direction between the respective offices of exchange shall be forwarded in closed bags or pouches, under seal, addressed to the corresponding exchange office.

ARTICLE 3.

No accounts shall be kept between the post office departments of the two countries upon the correspondence, written or printed, exchanged between

them; but the country which despatches mails to the other shall levy, collect, and retain, exclusively to its own use, such rates of inland postage as are now, or may hereafter be, established by its laws for domestic correspondence, together with the sea rates of postage hereinafter prescribed; which inland and sea postage shall be combined into one rate and collected by the despatching country in advance, the pre-payment thereof to be certified by the appropriate official stamp of the despatching office.

There shall be charged for sea postage upon letters, newspapers, and prints of all kinds, in sheets, in pamphlets, and in books, sheets of music, engravings, lithographs, photographs, drawings, maps, and plans, conveyed by vessels of the United States or of Venezuela between the ports of the two countries, the following rates—that is to say:

Upon all letters or other communications in manuscript, which are subject by the laws of either country to letter rate of postage, the rate of *seven* cents, United States currency, or its equivalent in the currency of Venezuela, for each weight of half an ounce, American, or fraction of half an ounce.

Second. Upon each newspaper, daily or other, the rate of *one* cent United States currency, or its equivalent in the currency of Venezuela.

Third. Upon prints of all kinds, in sheets, in pamphlets, or in books, sheets of music, engravings, lithographs, photographs, drawings, maps, and plans, the rate of *one* cent, United States currency, or its equivalent in the currency of Venezuela, for each ounce or fraction of an ounce in weight.

The said newspapers and other printed matter shall be enclosed in narrow bands or covers, open at the sides and ends, so that they may be easily examined, subject to the laws and regulations of each country respectively.

ARTICLE 4.

Upon all letters and articles of printed matter enumerated in Article 3, received in the United States of America from Venezuela by sea, there will be charged by the United States such rates of inland postage as are now, or may hereafter be, established by the laws of the United States, which shall be collected at the place of destination, and shall belong exclusively to the United States of America; and, *vice versa*, upon all letters and like articles of printed matter received in Venezuela from the United States of America by sea, there will be charged by Venezuela such rates of inland postage as are now, or may hereafter be, established by the laws of Venezuela, which shall be collected at the place of destination, and shall belong exclusively to Venezuela.

Each country shall defray the entire expense of sea transportation of the mails which it shall despatch to the other country.

ARTICLE 5.

It is distinctly agreed, that all mailable articles despatched from one country to the other shall be exempt, in the country of destination, from any rate or fee whatever beyond the charges prescribed by this convention, and shall be free from any detention or inspection, and promptly delivered to the persons addressed, being subject in their transmission to the laws and regulations of each country, respectively.

ARTICLE 6.

Letters and other communications in manuscript which, from any cause, shall not be delivered to their address, after the expiration of a proper period to effect their delivery, shall be reciprocally returned, without charge, to the post office department of the despatching country; but newspapers, and all other articles of printed matter which cannot be delivered to their address, shall not be returned, but remain at the disposal of the receiving country.

ARTICLE 7.

The post departments of the United States and Venezuela reciprocally engage to grant each to the other the gratuitous conveyance across their respective territories of all correspondence which shall be exchanged in closed mails with any countries to which they may respectively serve as intermediaries; *Provided, always,* That such conveyance shall be effected by the ordinary means of mail conveyance in use, and that the countries taking the benefits of such gratuitous service shall reciprocally accord the like privilege of free transit across their respective territories. The privilege is also accorded to each administration of sending an agent, at its own expense, in charge of the mails in transit. The further privilege is accorded of a free transfer of closed mails in the ports and harbors of the respective countries from one vessel to another in continuance of their conveyance to final destination.

ARTICLE 8.

Correspondence of all kinds which either department shall despatch to the other for the purpose of being thence forwarded in its mails to another country of destination, to which pre-payment is optional, shall be subject to the rates established by Article 3 of this convention, added to the interior rate in force beyond the frontier of the forwarding country, so that only one interior rate shall be received by the forwarding department.

ARTICLE 9.

The correspondence between each government and its legation near the other, and that of the latter with the former, shall be conveyed to its destination free of postage, and with all the precautions which both governments may find necessary for its inviolability and security.

ARTICLE 10.

In case any change or amendment in the provisions of this convention shall be desired by either party, the same may be proposed by such party; and when the details thereof shall be agreed to and approved by both parties, this convention shall be considered as changed or amended accordingly.

ARTICLE 11.

This convention shall take effect from a day to be fixed by the two post departments, and shall continue in force until annulled by mutual consent, or until one of the two post departments shall have given to the other a previous notice of one year of its intention to abrogate the same.

Done in duplicate, and signed at Washington on the 19th day of July, A. D. 1865, and at Caracas on the 26th day of June, A. D. 1866.

W. DENNISON, [L. S.]

Postmaster General.

J. M. ALVAREZ LUGO, [L. S.]

Minister of Internal Improvements.

This article of contract, made the twenty-ninth day of August, in the year one thousand eight hundred and sixty-five, between the United States of America (acting in this behalf by their Postmaster General) and the United States and Brazil Mail Steamship Company, with Thomas Asencio and Manuel J. Mora, trading under the name, firm and style of Thomas Asencio and Company, as sureties, witnesseth: That whereas the said United States and Brazil Mail Steamship

Company have been accepted, in accordance with the stipulations and provisions of the act of Congress, approved May 28, 1864, entitled "An act to authorize the establishment of ocean mail steamship service between the United States and Brazil," and in conformity with the advertisement inviting proposals for said service, issued by the Postmaster General of the United States, dated the 26th June, 1865, as contractors to convey the mails of the United States by a monthly line of first-class American sea-going steamships, of not less than two thousand tons burden each, and of sufficient number to perform twelve round trips or voyages per annum between the port of New York, in the United States, and the port of Rio de Janeiro, in Brazil, touching on outward and inward passages at the intermediate ports of St. Thomas, in the West Indies, and Para, Pernambuco, and Bahia, in Brazil, at the sum of one hundred and fifty thousand dollars for the performance of twelve round trips or voyages per annum, out and back, for and during a contract term of ten years, commencing from the day the first steamship of the line shall depart from the United States with the mails for Brazil; and whereas said act of Congress requires that the government of Brazil shall unite with the government of the United States in establishing said mail communication between the two countries, by accepting proposals and entering into contract with the bidder or bidders who may be accepted on the part of the United States, each government to be responsible only for its proportion of the subsidy to be paid for the service; and whereas the said United States and Brazil Mail Steamship Company state, in their proposal for said service, that such proposals have been made to Brazil by the said company, and accepted by that government, in accordance with the provisions of the aforesaid act: Now, therefore, the said United States and Brazil Mail Steamship Company, contractors, and Thomas Asencio and Manuel J. Mora, trading under the name, firm, and style of Thomas Asencio and Company, as sureties, do jointly and severally undertake, covenant, and agree with the United States, and do bind themselves, to transport the mails of the United States between the ports of New York and Rio de Janeiro, in Brazil, touching to land and receive mails at St. Thomas, in the West Indies, and at Para, Pernambuco, and Bahia, in Brazil, on the outward and inward passages, twelve round trips per annum, by a line of first-class American sea-going steamships, of not less than two thousand tons burden each, and of sufficient number to perform the required service, for and during the term of ten years, commencing from the day the first steamship of the line shall depart with the mails from New York for Rio de Janeiro.

And the said contractors do further covenant and agree with the United States, and do bind themselves, that the steamships offered for the service shall be constructed of the best material and after the most approved models, with all the modern improvements adapted for sea-going steamships of the first class, and shall, before approval and acceptance by the Postmaster General, and at any time thereafter during the continuance of the contract, be subject to inspection and survey by an experienced naval constructor, to be detailed for that purpose by the Secretary of the Navy, whose report shall be made to the Postmaster General. And, further, that the said steamships, after acceptance by the Postmaster General, and during the period they may be employed in conveying the mails, shall be kept up by alterations, repairs, and additions, as the exigency may require, fully equal to the best state of steamship improvement attained, and if not so kept up and maintained, they may be rejected by the Postmaster General of the United States as not meeting the requirements of the act of Congress authorizing the establishment of the service, and other satisfactory steamships required in their place.

And the said contractors do further covenant and agree to transport, free of expense, on each and every steamer, a mail agent of the United States, to take charge of and arrange the mail matter, and to assign to such agent suitable accommodations for that purpose.

And it is further covenanted and agreed by the said contractors, and they do bind themselves—

First. To perform each passage from New York to Rio de Janeiro, including stoppages at intermediate ports, in twenty-eight days, and each return voyage from Rio de Janeiro to New York, including the stoppages at the intermediate ports, in twenty-six days, subject, however, to a reduction of time if, after making the first voyage, it is ascertained that they can be performed in a less number of days, and subject, also, to such schedule days of departure and arrival as shall be approved by the post office departments of the United States and Brazil, respectively, and to such alterations by said post departments, from time to time, as the interests of the international postal service may require.

Second. To transport the mails in a safe and secure manner, free from wet or other injury, in a separate apartment in each steamship, to be fitted up for the exclusive accommodation of the mail.

Third. To take the mail and every part of it from and deliver it and every part of it into the post offices at New York, St. Thomas, Para, Pernambuco, Bahia, and Rio de Janeiro, respectively. They also undertake, covenant, and agree with the United States, and do bind themselves, to be answerable for the proper care and transportation of the mails, and accountable to the United States for any damages which may be sustained by the United States through the unfaithfulness or want of care of the officers, agents, and employes; and they do further covenant and agree, that they will not transmit by themselves or their agents, or be concerned in transmitting commercial intelligence more rapidly than by mail, and that they will not carry, or suffer to be carried, letters or newspapers out of the mail, and that they will not knowingly convey any person carrying on the business of transporting letters or other mail matter without the special consent of the Post Office Department of the United States. And further, that they will convey, without additional charge, post office blanks, mail bags, and the occasional special agent, on business of the Post Office Department exclusively, on the exhibition of his credentials. For which services, when performed, the said United States and Brazil Mail Steamship Company are to be paid by the United States, the sum of one hundred and fifty thousand dollars per annum, in the currency of the United States, in quarterly payments, on the receipt at the Post Office Department of satisfactory evidence of the performance of the service embraced in said payments, subject, however, to deductions, fines, and penalties imposed by the Postmaster General for failures and irregularities, as hereinafter stipulated.

And it is further stipulated and agreed by and between the said parties, that in case the government of the United States and the government of Brazil should wish and agree to omit and dispense with the port of Para, in Brazil, as a port to touch at, and shall release and relieve the said United States and Brazil Mail Steamship Company from any duty and obligation under its contracts with both and each of said governments to touch at said port of Para, then, and in that case, the said United States and Brazil Mail Steamship Company and its said sureties stipulate and agree, that said company shall and will perform said mail service hereinbefore described and provided for, save and excepting only said port of Para therefrom, for the annual sum of one hundred and twenty thousand dollars, currency of the United States, in lieu of said annual sum of one hundred and fifty thousand dollars, and payable in like manner as hereinbefore provided; and in such case the schedule of sailing days shall be rearranged, and the time of performing the voyages out and back shall be made to conform to the decreased service.

And it is hereby also stipulated and agreed by the said contractors and their sureties, that in case of failure from any cause to perform any of the regular monthly voyages stipulated for in this contract, a pro rata deduction shall be made from the compensation on account of such omitted voyage or voyages,

and that suitable fines and penalties shall be imposed, in the discretion of the Postmaster General, according to the nature and frequency of the delinquency, for delays and irregularities in the performance of the service according to the provisions of this contract. If any of the steamers should fail to complete any voyage upon which they may have entered, or fail to touch at any of the intermediate ports above designated, unless prevented by unforeseen or uncontrollable events, which must be established by authentic documents, the said company will be subject to a fine of not exceeding two thousand dollars, and to the loss of a pro rata proportion of the subsidy to that part of the voyage not completed. After the completion of the first voyage to Rio de Janeiro and back to New York, if delays occur in the arrival of the steamers, the company will be fined in a sum not exceeding five hundred dollars for every forty-eight hours; and should delays occur in their departure a fine will be imposed not exceeding two hundred and fifty dollars for every twenty-four hours, except in cases of unforeseen and uncontrollable events; and suitable fines shall also be imposed unless the delinquency shall be satisfactorily explained to the Postmaster General, in due time, for failing to take or deliver the mail, or any part of it; for suffering it to be wet, injured, lost, or destroyed; for carrying it in a place or manner that exposes it to depredation, loss, or injury, by being wet or otherwise; and for setting up or running an express to transmit letters or commercial intelligence in advance of the mail; or for transmitting knowingly, or after being informed, any one engaged in transporting letters or mail matter in violation of the laws of the United States.

And it is further agreed that the government of either the United States or Brazil shall not appropriate for its exclusive use any of the steamships accepted for the performance of this mail service, unless the company be in a position to substitute others capable of fulfilling the conditions of this contract; and if either of the two governments should temporarily employ in its service any one of the steamers of the company, in consequence of some extraordinary and unforeseen circumstance, the company will be privileged to use, if it be found necessary to do so, but only for one voyage, a steamship of smaller tonnage than two thousand tons burden, in order to afford an opportunity to procure another steamship meeting the requirements of this contract. And it is also hereby further agreed that the said company shall have the same privilege, in case any of the voyages shall be interrupted by unforeseen and uncontrollable circumstances. And it is hereby further agreed, that the said company shall have the privilege of not touching, during the first year of this contract, at the port of Para on the second, fourth, sixth, eighth, tenth, and twelfth voyages, but shall be required to touch at that port on the first, third, fifth, seventh, ninth, and eleventh voyages of the said first year's service. And it is hereby further agreed that the first steamship of the line shall leave the port of New York with the mails for Brazil on or before the twenty-ninth day of September, one thousand eight hundred and sixty-five.

And it is hereby further stipulated and agreed that the Postmaster General shall have the power to determine this contract at any time, in case of its being underlet or assigned to any other party, and that he may annul the contract for repeated failures, for violating the post office laws of the United States, for disobeying the instructions of the department, or for transporting persons conveying mail matter out of the mails as aforesaid; and this contract shall, in all its parts, be subject to the terms and requisitions of the act of Congress approved May 28, 1864, and also of the act of Congress approved the 21st of April, 1808, entitled, "An act concerning public contracts," so far as the provisions of the act last cited shall apply to this contract.

And it is also stipulated and agreed by the United States that the steamships employed in the service shall be exempt from all port charges and custom-house dues at the port of departure and arrival in the United States, provided

a similar immunity from port charges and custom-house dues is granted by the government of Brazil.

And it is hereby further stipulated and agreed by the said contractors, and they do bind themselves, that whatever privileges, concessions, allowances, or deductions from the established tariff of charges for troops, passengers, and freight, transported on government account, the company may grant to the government of Brazil, shall also be extended to the government of the United States.

And it is also further stipulated and agreed that this contract is made contingent upon the execution by said company of a corresponding contract with the government of Brazil, and that if no such contract shall be executed with the government of Brazil within a reasonable time, then this contract shall, at the option of the Postmaster General of the United States, be in all respects null and void, and no rights shall accrue to said company under any of its provisions.

In witness whereof, the said Postmaster General has caused the seal of the Post Office Department to be affixed hereto, and has attested the same by his signature; and the said United States and Brazil Mail Steamship Company by José F. Navarro, president, and their sureties, have hereto set their hands and seals the day and the year first hereinbefore written.

I hereby certify that I am well acquainted with Thomas Asencio and Manuel J. Mora, trading under the name, firm, and style of Thomas Asencio and Company, and the condition of their property, and after full investigation and inquiry, I am well satisfied that they are good and sufficient sureties for the amount in the foregoing contract.

WM. M. EVARTS.

This article of contract, made the sixteenth day of October, in the year of our Lord one thousand eight hundred and sixty-six, between the United States of America (acting in this behalf by their Postmaster General) and the Pacific Mail Steamship Company, with Howard Potter and Francis Skiddy, of New York city, as sureties, witnesseth: that whereas the said Pacific Mail Steamship Company have been accepted, in accordance with the stipulations and provisions of the act of Congress, approved February seventeen, eighteen hundred and sixty-five, entitled "An act to authorize the establishment of ocean mail steamship service between the United States and China," and in conformity with the advertisement inviting proposals for said service, issued by the Postmaster General of the United States on the 20th of March, 1865, as contractors to carry the mails of the United States between San Francisco, California, and Hong Kong, in the Chinese empire, the steamships to touch on each voyage, outward and homeward, at the ports of Honolulu, in the Sandwich Islands, and Kana-

gawa, in Japan, at the sum of five hundred thousand dollars for the performance of twelve round trips per annum, for a contract term of ten years, to begin on or before the first day of January, eighteen hundred and sixty-seven, and on the day the first steamship of the line shall depart from the port of San Francisco with the mails for China: Now, therefore, the said the Pacific Mail Steamship Company, contractors, and Howard Potter and Francis Skiddy, as sureties, do jointly and severally undertake, covenant, and agree with the United States, and do bind themselves, to transport the mails of the United States between the ports of San Francisco and Hong Kong, in China, touching to land and receive mails at Honolulu, in the Sandwich Islands, and Kanagawa, in Japan, both on the outward and inward passages, twelve round trips per annum, by a monthly line of first-class American sea-going side-wheel steamships, of from thirty-five hundred to four thousand tons burden each, government measurement, and of sufficient number, not less than four, to perform the required monthly service for and during the term of ten years, commencing on or before the first day of January, eighteen hundred and sixty-seven, and from the day the first steamship of the line shall depart with the mails from San Francisco for the Sandwich Islands, Japan, and China. And the said contractors do further covenant and agree with the United States, and do bind themselves, that the steamships offered for the service shall be constructed of the best materials, and after approved models, with all the modern improvements adapted to sea-going steamships of the first class, and shall, before acceptance by the Postmaster General, be subject to inspection and survey by an experienced naval constructor, to be detailed for that purpose by the Secretary of the Navy, whose report shall be made to the Postmaster General; and, further, that the said steamships, after acceptance by the Postmaster General, and during the period they may be employed in conveying the mails, shall be kept up by alterations, repairs, and additions, as the exigency may require, fully equal to the best state of steamship improvement attained; and if not so kept up and maintained, they may be rejected by the Postmaster General of the United States as not meeting the requirements of the act of Congress authorizing the establishment of the service, and other satisfactory steamships required in their place. And the said contractors do further covenant and agree to transport, free of expense, on each and every steamer, a mail agent of the United States, to take charge of and arrange the mail matter, and to assign to such agent a separate state room on the upper or main deck, with suitable accommodations for that purpose. And it is further covenanted and agreed by the said contractors, and they do bind themselves—

First. To despatch a steamship from the port of San Francisco on the first day of each month, and from Hong Kong on the fifteenth day of each month, at such hours as may be fixed hereafter, or upon such other days as may be hereafter selected, with the approval of the Postmaster General, in order to make connection with the steamships from New York, and the English lines from China to Southampton and Marseilles; and also that said steamship shall make an average run of not less than two hundred nautical miles a day while at sea; and that the stoppages at the intermediate ports of Honolulu and Kanagawa shall not exceed the time absolutely necessary to land and receive the mails, passengers, and cargo, and receive coals; and, further, that after the performance of the second round voyage to Hong Kong and back, to arrange and adopt a schedule, with the approval of the Postmaster General, fixing the days and hours of arrival at and departure from the respective terminal and intermediate ports.

Second. To transport the mails in a safe and secure manner, free from wet or other injury, in a separate apartment in each steamship, to be fitted up for the exclusive accommodation of the mail.

Third. To take the mail and every part of it from, and deliver it and every part of it into, the post offices at San Francisco, Honolulu, Kanagawa, and Hong Kong, respectively.

They also undertake, covenant, and agree with the United States, and do bind themselves, to be answerable for the proper care and transportation of the mails, and accountable to the United States for any damages which may be sustained by the United States through the unfaithfulness or want of care of their officers, agents, and employes; and they do further covenant and agree, that they will not transmit by themselves or their agents, or be concerned in transmitting, commercial intelligence more rapidly than by mail, and that they will not carry or suffer to be carried letters or newspapers out of the mail, and they will not, knowingly, convey any person carrying on the business of transporting letters or other mail matter, without the special consent of the Post Office Department of the United States. And, further, that they will convey, without additional charge, post office blanks, mail bags, and the occasional special agent, on business of the Post Office Department exclusively, on the exhibition of his credentials. For which services, when performed, the said Pacific Mail Steamship Company are to be paid by the United States the sum of five hundred thousand dollars per annum, in the currency of the United States, in quarterly payments, on the receipt at the Post Office Department of satisfactory evidence of the performance of the round trips embraced in said payments; subject, however, to deductions, fines, and penalties imposed by the Postmaster General for failures and irregularities as hereinafter stipulated. It is hereby also stipulated and agreed by the said contractors and their sureties, that in case of failure from any cause, to perform any of the regular monthly voyages stipulated for in this contract a pro rata deduction shall be made from the compensation on account of such omitted voyage or voyages. And it is further stipulated and agreed that suitable fines and penalties shall be imposed, in the discretion of the Postmaster General, for delays and irregularities in the performance of the service. After the completion of the second voyage to Hong Kong and back to San Francisco, and the adoption of a schedule of the days and hours of arrival and departure of the steamships, if delays occur in the arrivals of the steamers the company will be fined in a sum not exceeding two thousand dollars for every forty-eight hours; and should delays occur in their departure a fine will be imposed not exceeding one thousand dollars for every twenty-four hours, except in cases of unforeseen and uncontrollable events; and suitable fines shall also be imposed, unless the delinquency shall be satisfactorily explained to the Postmaster General, in due time, for failure to take or deliver the mail or any part of it; for suffering it to be wet, injured, lost, or destroyed; for carrying it in a place or manner that exposes it to depredation, loss, or injury, by being wet or otherwise; and for setting up, or running, an express to transmit letters or commercial intelligence in advance of the mails; or for transmitting knowingly, or after being informed, any one engaged in transporting letters or mail matter in violation of the laws of the United States; and it is hereby further agreed that the first steamship of the line shall leave the port of San Francisco, with the mails for Japan and China, on or before the first day of January, one thousand eight hundred and sixty-seven.

And it is hereby further stipulated and agreed that the Postmaster General shall have the power to determine this contract at any time, in case of its being underlet or assigned to any other party, and that he may annul the contract for repeated failures, for violating the post office laws of the United States, for disobeying the instructions of the department, or for transporting persons conveying mail matter out of the mails as aforesaid; and that this contract shall in all its parts be subject to, and in all respects governed by, the requirements and provisions of the act of Congress approved February 17, 1865, entitled "An act to authorize the establishment of ocean mail steamship service between the United States and China," and also of the act of Congress approved the 21st of April, 1808, entitled "An act concerning public contracts," so far as the provisions of the act last cited shall apply thereto.

In witness whereof, the said Postmaster General has caused the seal of the Post Office Department to be affixed hereto, and has attested the same by his signature; and the said the Pacific Mail Steamship Company, by Allan McLane, president, and their sureties, have hereto set their hands and seals the day and year first hereinbefore written.

A. N. ZEVELY,
Third Assistant Postmaster General.

AUDITOR'S REPORT.

OFFICE OF THE AUDITOR OF THE TREASURY
FOR THE POST OFFICE DEPARTMENT, *November 5, 1866.*

SIR : The few weeks which have intervened since I joined this office as Auditor have furnished me with so little material for a report, other than that contained in the accompanying statements and tables annually presented for your consideration, that I am not prepared to suggest any new views, or to recommend changes, which, to be valuable, should be founded upon a more extended observation and a longer experience. I have, however, improved the brief period during which I have been discharging the duties of Auditor to become acquainted with the organization of the office, the distribution of its labors, and, generally, with the qualifications of those to whom are assigned the supervision of the most responsible and important duties, and am most favorably impressed with the systematic arrangement of business, and the diligence and fidelity with which the duties assigned to the several divisions are discharged.

The tabular statements hereto subjoined, numbered from one to thirty-seven inclusive, exhibit in detail the receipts and expenditures of the department for the fiscal year ended June 30, 1866, including the result of our postal intercourse with foreign nations, the money-order system, and the free delivery of letters and newspapers in the designated cities and towns. There will also be found appended to the report a tabular statement, showing the receipts and expenditures of the department in the eleven States lately in rebellion, and which exhibits the gratifying fact, that thus far in those States the net receipts considerably exceed the expenditures.

I beg to refer to the statement prepared by Mr. Holden, the clerk having charge of the money-order system in this office, and to commend his suggestions for the enlargement and improvement of the system to your favorable consideration.

REVENUE ACCOUNT OF THE POST OFFICE DEPARTMENT.

The balance standing to the credit of the revenue account on the 1st of July, 1865, was.....	\$2, 509, 106 33
The receipts for the fiscal year ended June 30, 1866, were....	14, 386, 986 21
Making	16, 896, 092 54
The expenditures for the year ended June 30, 1866, were.....	\$15, 352, 079 30
Add the amount of "bad debts" account closed during the year.....	29, 590 30
Add the amount of "compromise debts" account closed during the year.....	23 68
	15, 481, 693 28
Deduct amount of credit balance accounts closed by "suspense" during the year....	60, 855 97
	15, 420, 837 31
Leaving to the credit of the revenue account July 1, 1866, the sum of	1, 475, 155 23

The net revenue of the department from postages, being the aggregate of the amount of the balances due the United States by postmasters on the adjustment

of their quarterly accounts for the year, after retaining their compensation and deducting the expenses of their offices, was—

For the quarter ending September 30, 1865.....	\$2, 191, 874 29
For the quarter ending December 31, 1865.....	2, 124, 870 23
For the quarter ending March 31, 1866.....	2, 454, 674 82
For the quarter ending June 30, 1866.....	2, 208, 979 44
Total net revenue from postages.....	8, 980, 398 78

The amount of letter postage paid in money was—

For the quarter ending September 30, 1865.....	\$183, 768 15
For the quarter ending December 31, 1865.....	179, 792 42
For the quarter ending March 31, 1866.....	193, 460 67
For the quarter ending June 30, 1866.....	195, 253 55
Total.....	752, 274 79

The number of quarterly returns of postmasters received and audited during the year, and on which the sum of \$8,980,398 78 was found due to the United States, was—

For the quarter ending September 30, 1865.....	19, 142
For the quarter ending December 31, 1865.....	19, 823
For the quarter ending March 31, 1866.....	20, 578
For the quarter ending June 30, 1866.....	21, 270
Total number.....	80, 813

The total amount of stamps and stamped envelopes sold during the year was—

For the quarter ending September 30, 1865.....	\$3, 001, 126 39
For the quarter ending December 31, 1865.....	2, 941, 865 23
For the quarter ending March 31, 1866.....	3, 226, 393 85
For the quarter ending June 30, 1866.....	3, 035, 344 07
Total.....	12, 204, 729 54

The gross amount collected as registration fees on valuable letters was—

For the quarter ending September 30, 1865.....	\$12, 138 50
For the quarter ending December 31, 1865.....	13, 576 10
For the quarter ending March 31, 1866.....	14, 944 75
For the quarter ending June 30, 1866.....	14, 361 25
Total.....	55, 020 60

CONTRACTORS' ACCOUNTS.

The average number of accounts of contractors and others engaged in carrying the mails settled in each quarter of the year was—

On regular mail routes.....	4, 387
On special mail routes.....	2, 004
Of route and special agents.....	2, 028
Of mail messengers and local agents.....	2, 000

Total number of accounts each quarter..... 10, 419

Aggregate settlements of such accounts during the year..... 41, 676

MAIL TRANSPORTATION ACCOUNT.

The amount charged to "accrued transportation," and placed to the credit of mail contractors and others for mail transportation, during the year was—

For the regular service on mail lines.....	\$7, 121, 368 66
For the supply of special and mail messenger offices.....	314, 678 95
For salaries of route agents.....	454, 829 12

7, 890, 876 73

And for foreign mail transportation :

For New York and Southampton mails.....	\$148, 819 09
For Liverpool, New York, and Philadelphia mails.....	237, 404 09
For Portland and Liverpool mails.....	79, 755 42
For New York and Havre mails.....	49, 162 65
For New York and Bremen mails.....	8, 471 09
For New York and Havana mails.....	57, 689 50
For New York and San Francisco mails via Panama.....	24, 888 58
For New York and Jamaica mails.....	1, 134 00
For Boston, Nova Scotia, and Prince Edward Island mails.....	1, 511 33
For New York and Port au Prince mails.....	276 02
For New York and Santiago de Cuba mails....	563 49
For New York and Rio de Janeiro mails.....	498 25
For Philadelphia and Rio de Janeiro mails....	45 80
For Fairfield, Maine, and Andover, New Bruns- wick, mails.....	134 58
For New York and Nicaragua mails.....	437 38
For expenses of government mail agent at Pan- ama.....	1, 378 77
For expenses of government mail agent at As- pinwall.....	600 00
For expenses of government mail agent at Ha- vana.....	500 00

613, 270 04

8, 504, 146 77

The amount credited to accrued transportation and charged to contractors for over-credits, damages, &c., during the year was.....	24, 753 54
Of fines imposed on contractors.....	3, 374 37
Of deductions from their pay.....	117, 649 08

145, 776 99

Net amount to the credit of mail contractors and others..... \$, 358, 369 78

The amount actually paid and credited during the year for
mail transportation was..... \$8, 201, 954 30

Of which sum there was paid for mail transportation of pre-
vious years the sum of..... 92, 944 27

COLLECTION OF POST OFFICE REVENUES.

The number of post offices in operation during the year was 21,270, which are thus classified under the regulations adopted for the government of the department, chapter 26, sections 275 to 279, page 50 :

The following named offices, sixty-seven in number, are denominated depositories, and are required by the Postmaster General to receive and retain, subject to the drafts of the department, the funds of certain adjacent offices, as well as the revenues of their own :

MONEY-ORDER REPORT.

The total number of money-order offices in operation during the year was four hundred and seventy-three; of which number fifty-four, including those on the Pacific coast, went into operation on the fifth of February last. The whole number of money orders issued during the year was two hundred and forty-three thousand six hundred and nine, (243,609,) amounting to the aggregate sum of three millions nine hundred and seventy-seven thousand two hundred and fifty-nine dollars and twenty-eight cents, (\$3,977,259 28.) The fees received for issuing the same amount to thirty-five thousand seven hundred and ninety-nine dollars and ninety-eight cents, (\$35,799 98.) Premium was received for drafts on New York, given to postmasters by way of "credit," amounting to three dollars and eight cents, (\$3 08.) These two items, amounting to thirty-five thousand eight hundred and three dollars and six cents, (\$35,803 06,) constitute all the revenue derived from the system.

The total amount transferred from the postage fund, with which to commence business at the new offices, and to enable postmasters to pay money orders drawn on them, was two hundred and fifty-one thousand nine hundred and ninety-five dollars and ninety-four cents, (\$251,995 94.) The amount transferred to the postage fund during the year was two hundred and nine thousand ninety-nine dollars and sixty-nine cents, (\$209,099 69.) And there was due the postage fund on the 30th of June, on account of all transfers made previous to that time, eighty-seven thousand two hundred and fifty-seven dollars and seventy-four cents, (\$87,257 74.) The number of money orders paid was two

hundred and thirty-three thousand one hundred and twenty-four, (233,124,) amounting to three millions eight hundred and fifty-one thousand eight hundred and thirty-nine dollars and forty-nine cents, (\$3,851,839 49.) And there was repaid to the remitter at the issuing offices fifty-two thousand and fifty dollars and seventy-three cents, (\$52,050 73,) leaving outstanding orders, not then presented for payment, to the amount of one hundred and nineteen thousand seven hundred and thirty-four dollars and fifty cents, (\$119,734 50.)

The expenses of the system, including commissions allowed postmasters, clerk-hire, blank books, stationery, and miscellaneous, was twenty-eight thousand six hundred and sixty-four dollars and twenty-seven cents, (\$28,664 27.) This last sum includes five hundred and thirty-three dollars remitted by postmasters to deposit offices, but which failed to reach its destination, and which was allowed by the Postmaster General. The balance in the hands of postmasters at the close of the year was two hundred and eleven thousand four hundred and twenty-five dollars and forty-seven cents, (\$211,425 47.)

It is shown by the table of resources and liabilities that, during the year and eight months the system has been in operation, it has paid all expenses, and leaves a net surplus of ninety dollars and eighty-two cents—a result highly satisfactory, considering that a considerable proportion of the expense incurred was for blank books for the different offices, an outlay that will not again be required for several years. In making this statement, it is proper to say that the above figures do not include any expense for clerk-hire in the Post Office Department or Auditor's office, or for printing or binding done at the Government Printing Office, these accounts being settled elsewhere.

CHANGES RECOMMENDED.

In presenting this report, it is deemed proper to make such suggestions for changes in the system as seem to be demanded for its successful operation, and that the public may receive the greatest amount of benefit to be derived from it; and to that end the recommendation made last year, for increasing the commissions allowed postmasters for paying money orders to one-fourth of one per cent. instead of one-eighth, is repeated. The object of this change is to make the commissions proportionate to the work done.

Under the present law the postmaster who pays orders largely in excess of the amount issued receives nothing like an equivalent for his labor. Thus the postmaster who issues twenty thousand dollars receives as his commissions sixty dollars, while he who pays them performs nearly an equal amount of labor and receives only twenty-five dollars. It is susceptible of demonstration that, with the change recommended, the commissions arising from the sale and payment of orders will be sufficient remuneration without any extra allowance for clerk-hire. Under the present system some postmasters get an allowance for clerk-hire equal to two or three times the aggregate amount of fees received, while others, doing as much or more business, receive but a sixth part as much.

The true basis is believed to be found in a uniform rule allowing compensation in proportion to the amount of business done; it then becomes the interest of the postmasters to increase the business and render it popular and successful.

ONE HUNDRED DOLLAR ORDERS RECOMMENDED.

It is also suggested that to increase the sum for which orders may be issued to one hundred dollars would be advantageous to the public, to postmasters, and to the government. At present there is no limit to the number of orders which may be issued to the same person; the instructions are, that "When a larger sum than the latter (\$50) is required, additional orders to make it up must be obtained." It is found that persons often avail themselves of the means of the

Money-Order Office to remit five hundred or a thousand dollars (sometimes several thousand) between large cities where postmasters always have sufficient funds to pay them.

By increasing the amount to \$100 the labor of issuing and paying will be materially lessened, a saving in blanks and books will be effected, and it will render the system more acceptable to the public.

The following schedule of prices for issuing money orders is suggested as being simple and adequate:

For any order not exceeding ten dollars.....	10 cents.
Over ten dollars, and not exceeding forty dollars.....	20 "
Over forty dollars, and not exceeding sixty dollars.....	30 "
Over sixty dollars, and not exceeding eighty dollars.....	40 "
Over eighty dollars, and not exceeding one hundred dollars.....	50 "

The advantages of the above rates are not only their simplicity, but, as it is believed, their adaptation to the system. The ten cents fee for small orders is so low that persons will always avail themselves of a money order, where they can be had, instead of sending currency with the risk of loss. The next rate recommended above ten is twenty cents, which is for all sums over ten and not exceeding forty dollars. This rate will include the larger portion of the remittances, and will yield a larger revenue to the government than is obtained from present rates, and still be so reasonable that no one will object to it.

It is ascertained that the orders issued during the year averaged sixteen dollars and thirty-two cents each, while under the present law ten cents is all that is charged for orders up to twenty dollars; consequently the larger portion of the orders now come under this lower rate. During the year embraced in this report there was an intermediate fee of fifteen cents, which was the fee collected on the larger part of the orders issued, but which was abolished on the first of July last, and the ten cents fee extended to sums of twenty dollars and under.

Therefore there must necessarily be a falling off in the revenue during the present year, for the same amount of business, as compared with the last. By adopting the rate above suggested, of twenty cents for all orders above ten dollars, a corresponding increase of revenue will be secured, and make the Money-Order Office a permanent and self-supporting institution.

I have the honor to be, very respectfully,

H. J. ANDERSON, *Auditor.*

Hon. A. W. RANDALL,
Postmaster General.
