RÉPERTOIRE

des clichés photographiques des catalogues de vente de la

COLLECTION FERRARI

dressé par M. F. SERBANE

Chacun sait combien gigantesque était le matériel philatélique de la célèbre collection Ferrari. Nombre de pièces rarissimes ont passé la frontière et nos yeux « ne les verront

plus » jamais à l'état naturel.

Restent les photos des quatorze catalogues de vente qui permettent de se rendre compte d'une foule de détails : marges des non dentelés et piquages rares ; états de la gravure (Maurice, vues de Sydney, etc...) ; variétés et retouches ; oblitérations usuelles ou rares ; position et forme des caractères ou compositions en surcharge. Ces renseignements sont complétés par le texte des catalogues établis par le réputé expert G. Gilbert.

Îl m'a donc paru utile d'établir ce répertoire des photos, afin que les possesseurs des catalogues de vente puissent

trouver en un instant les pièces qu'ils désirent voir.

F. Serrane.

N.-B. — Le numéro de la vente est imprimé en gras ; il est suivi du ou des numéros des planches à consulter. N. d. signifie non dentelés. Les numéros sont ceux du catalogue général Yvert-Champion 1932. Un * indique les timbres neufs.
