Grading and Condition

| | |
|------------------------------|---|
| Superb | Extraordinary item in the finest condition. |
| Extremely Fine | Outstanding and exceptional quality. |
| Very Fine | Choice, first-class condition. |
| Fine-Very Fine (F-VF) | Stamp or cover in sound condition; if a stamp, it is slightly less well-centered than Very Fine but better centered than Fine. |
| Fine | Sound in all respects. Perforated stamps will have the designs clear of the perforations; the designs of imperforate stamps will not be cut in to any significant degree. |
| Very Good (VG) | Imperfect centering (stamps) or poor general appearance. |

Any stamp faults such as a thin spot, tear, crease etc., will be described at all times. Postally used covers should be expected to have the normal degree of wear associated with them and this wear is not grounds for return. The grade of a cover is independent of the grade of the stamps on it. Covers from the famous Carroll-Hoy correspondence will normally have a small unobtrusive staple hole. In lots containing several items, degrees of condition denote the overwhelming average and examples above and below such condition can be expected.

Terms of Sale

Bidding

I. All bids (whether by floor bidders, mail bidders, or telephone bidders) will have a premium of 15% added to the auction sale price.

II. All bids are per lot as numbered in the catalog unless otherwise announced by the auctioneer at the time of sale. The right is reserved to withdraw any lot prior to sale, to divide a lot, or to group two or more lots, or to act on behalf of the seller. Schuyler Rumsey Philatelic Auctions, Inc. will execute bidding instructions on behalf of clients, but will not be responsible for any errors in the execution of such bids. Schuyler Rumsey Philatelic Auctions, Inc. is not liable for bidding errors related to live auction internet bidding and/or the loss of internet connection during the live auction.

III. The highest bidder shall prevail; lots are sold at one increment over the second highest bid. Should any dispute arise between bidders, the decision of the auctioneer as to the successful bidder and the reoffering or resale of the lot under dispute shall rest entirely on the judgment of the auctioneer. The auctioneer shall regulate the bidding and reserve the right to refuse any bid believed by him not to be made in good faith.

IV. Consignor has and retains the right to bid personally, or by his duly appointed agent, through the auctioneer, unless the sale is advertised and announced as one restricting such bidding by consignors or their agents.

Payments of Purchases

V. FLOOR BIDDERS. Floor bidders shall furnish the auctioneer their names and addresses prior to bidding on any lot. The name and address of the buyer of each lot shall be registered with the auction house following the sale of each lot. Payment of the whole purchase price shall be made by the floor buyer in such manner as the auctioneer may determine. Special credit arrangements must be made prior to the sale.

VI. MAIL BIDDERS. A successful mail bidder will be notified of lots purchased and must remit payment before the lots are sent. Auction bills are due and payable upon receipt of notification. If buyer's payment is not received within ten (10) days, Schuyler Rumsey Philatelic Auctions, Inc. may resell all lots without notice. Any and all losses incurred as a result of resale will be passed on to the defaulting buyer. Cost of postage, registration, etc. will be charged to buyer. Proof by the auctioneer of receipt of sending at the advised address shall constitute delivery.

VII. DIRECT DRAFTS/TRANSFERS. A successful mail bidder known to us may contact our office at (415) 781-5127 for the information necessary to pay directly into the vendor bank account. Any additional charges resulting from processing payments by this method shall be borne by the buyer. Method of payment should be noted on the bid sheet.

VIII. Title shall not pass to the buyer until full payment is received by Schuyler J. Rumsey Philatelic Auctions, Inc.

IX. All of our lots are sold as genuine. Lots accompanied by recent (within 5 years of sale date) expert certificates are sold "as is" based on the description in the certificate. The aforementioned expertized lots may not be returned under any circumstances including those instances in which subsequent certificates yield conflicting opinions. The accepted authorities for U.S. stamps are the Philatelic Foundation (P.F.), the Philatelic Stamp Authentication and Grading, Inc. (P.S.A.G.) and the Professional Stamp Expertizing Committee (P.S.E.), however we do not accept "graded certificates", nor do we accept "encased" certified items.

X. The Auctioneer must be notified within 5 business days from the date of the auction of any request to place a lot on extension for expertizing. All extensions must be paid in full, in advance. There will be no exceptions and no lots may be returned under any circumstances if this term has not been strictly followed.

XI. All lots on extension must be submitted for expertizing by the auctioneer exclusively. Each lot is sold as genuine, except those described "as is", but when, in the opinion of a competent authority acceptable to Schuyler J. Rumsey Philatelic Auctions, Inc., the lot is declared otherwise, the purchase price will be refunded in full. The lot must be received by Schuyler J. Rumsey Philatelic Auctions, Inc. within a period of 21 days from the date of auction. Expenses incurred for purposes of expertizing shall be borne by the purchaser except where the lot is found by said competent authority to be materially not as described, in which case the consignor will be responsible for expertizing costs incurred. Proof of the inability of said competent authority to express a definite opinion is not grounds for return of an item.

XII. Any lot, description of which is incorrect, is returnable (A) within three (3) days of receipt and (B) if received by Schuyler J. Rumsey Philatelic Auctions, Inc. within twenty-one (21) days from the date of the auction. All disputed lots must be returned intact, in the condition received; no adjustments will be made. The following lots are not returnable: lots containing ten (10) or more items; lots from purchasers OR THEIR AGENTS who had the opportunity to examine them before the auction; items described as having defects or of a quality standard "Very Good" (V.G.) or below; lots with disputed centering or margins when the item is photographed; lots described "as is".

XIII. JURISDICTION. In the event of any dispute between the auctioneer and bidders, or between any parties requesting inspection of any of the lots and the auctioneer, or between persons offering their lots to be auctioned and the auctioneer, the jurisdiction over the dispute shall be in the City and County of San Francisco, State of California.

XIV. In the event of any dispute, the prevailing party shall be entitled to court costs and reasonable attorney's fees.

XV. The California State Sales Tax - or that of another state as ordered by the laws of such a state (as appropriate) - is payable by buyers liable to tax. See below.

Sales Tax

This sale will be held in California and the buyer will be liable for any applicable sales tax for this auction. Any lots purchased by buyers in California or that of another state as ordered by the laws of such a state are subject to State Sales Tax unless:

1.) You have a verifiable resale license number, which must be on file with us prior to the Auction.

OR

2.) You are not a California resident or that of another state as ordered by the laws of such a state are subject to State Sales Tax and your lots are being shipped to your out-of-state or out-of country mailing address.

XVI. THE PLACING OF A BID SHALL CONSTITUTE ACCEPTANCE OF THE FOREGOING TERMS OF SALE.

Due to the coronavirus outbreak, Rumsey Auctions has taken additional measures to continue operating and, more importantly, to protect the health of our clients and staff.

Auctions and Bidding: We will continue to run “live” auctions using Stamp Auction Network for online bidding. Public attendance will not be permitted. As most of our bidders have been using the internet, telephone, book bids and agents in recent years, this change should have no impact on our auction..

Viewing: There will be postal viewing and on-premises viewing by appointment only, circumstances permitting. We will make every effort to provide additional scans by request for group and collection lots in this auction to enable clients to properly value all lots in this auction.

Payments: We continue to accept all forms of payment including paper checks, credit cards, Paypal and wire transfers, each with corresponding fees. If you have any questions about payment, please contact us at the office.

Shipment of Material: We will ship lots as soon as possible after the auction or payment. We ask for your patience and cooperation with this process due to the continuing extenuating circumstances.

Extensions: Lots for certification by The Philatelic Foundation, Professional Stamp Experts or other expert committees will be done as expeditiously as possible and will be submitted only by Rumsey Auctions as per our Terms of Sale.

The Postal Act of March 3, 1847, authorized the establishment of a Post Office at Astoria on the Pacific Coast (in later Oregon) and set the rate of postage for letters between the United States and the Pacific Coast at 40c. That act also authorized the printing and use of the first postage stamps in the United States. The next year, gold was discovered at Sutter’s Mill in the Mexican state of Alta California and, nine days later, the Treaty of Guadalupe Hidalgo was signed. That treaty ended the Mexican-American War and ceded California to the United States. The Postal Act of August 14, 1848, authorized the establishment of Post Offices at San Diego, Monterey, San Francisco, and “other places on the Pacific Coast” as needed and set the rate of postage for letters sent between places on the Pacific Coast at 12½c.

Monterey was the provisional capital of California under military rule before and after the Treaty of Guadalupe Hidalgo. A Post Office was applied for and granted and Captain William G. Marcy, Commissary and Quartermaster, was appointed postmaster. The appointment was approved by the Post Office Department on November 21, 1848. The only problem was that the three steamships that might carry the mails on the Pacific Coast via Panama were still en route from New York. In fact, none of the steamers had as yet even rounded Cape Horn.

The first Pacific Mail Steamship Company ship to arrive on the Pacific Coast was the S.S. California. On board was William Van Voorhies who, as the Postmaster General’s first Special Postal Agent in California, was charged with the task of setting up postal service on the Pacific Coast. The S.S. California reached Panama in January of 1849, where it picked up an unexpected cargo of Argonauts. The ship reached Monterey the following month. At Monterey, Van Voorhies delivered the first official mails to Captain Marcy along with Marcy’s bond as postmaster, which he executed on February 23, 1849. The S.S. California arrived in San Francisco five days later, at which time the crew promptly deserted her for the goldfields.

ONE OF ABOUT SEVEN RECORDED EXAMPLES OF THE BANNACK CITY EXPRESS HANDSTAMP.

Mormon pioneer William Davis first explored the Brigham City area in 1850. He returned with his family and others a year later to create permanent homes. Brigham Young directed Lorenzo Snow to lead additional settlers to the site and foster a self-sufficient city at the site in 1853. Snow directed both religious and political affairs in the settlement, eventually naming it Box Elder in 1855. When the town was incorporated on January 12, 1867, the name was changed to Brigham City in honor of Brigham Young.

Oliver & Co. operated as a stage line and express company from 1862 until 1866 in the part of the original Idaho Territory that became Montana Territory in 1864. Oliver's Bannack Express ran overland from Bannack City (aka East Bannack) through unsettled Indian country to Utah Territory. Oliver's intent was to provide a direct connection to the Central Overland Route for letters going to and from the eastern states. The need for Oliver's service to Utah diminished when a mail contract between Salt Lake City and Bannack City was awarded in 1863.

The George J. Kramer Collection of Arizona

We are pleased to offer a further portion of George’s outstanding western collection. The collection begins with Arizona as part of New Mexico Territory, which was formed in 1848 under the terms of the Mexican War Cession. In 1854, additional territory at the southern border was added by means of the Gadsden Purchase. In 1863, Arizona was split off from the Territory of New Mexico to form the Arizona Territory. The remoteness of the region was eased by the arrival of railroads in 1880. Arizona became a state in 1912 but was primarily rural with an economy based on cattle, cotton, citrus, and copper. The collection features early territorial postmarks, military postmarks and express mail, and Arizona expresses.

 Estimate \$2,000 - 3,000

A CLEAR STRIKE OF THE RARE FORT BUCHANAN, NEW MEXICO CDS ON A COVER FROM CAPTAIN RICHARD “OLD BALDY” EWELL - LATER A CONFEDERATE GENERAL.

According to the Siegel Auctions catalogue of the Birkinbine Collection, “The sender of this cover, Captain Richard S. Ewell, arrived in the area of southern Arizona in November 1856 with Major Enoch Steen and the 1st Dragoons. They established Camp Moore in mid-November 1856, which was relocated and renamed Fort Buchanan in mid-1857. This May 1860 cover from Capt. Ewell was carried by military express from Fort Buchanan to the post office at Tubac. It was carried from Tubac to Tucson by S. H. Lathrop, who was under contract to transport mail once a week between the two towns. At Tucson the cover was put on the eastbound Butterfield Overland Mail stage to St. Louis via Fort Smith.

In early 1860 Captain Ewell successfully negotiated the release of eleven-year old Mercedes Sias Quiroz, one of two young women abducted by Pinal Apaches (the other was seriously injured and returned to camp after Mercedes’s release). In recognition of his efforts, one of four Arizona territorial counties was named Ewell. In May 1860, around the time this cover was postmarked, he inspected the site where Fort Breckinridge was eventually established to prevent Apache attacks. Before construction of the new fort was completed, Ewell returned east in January 1861 due to recurring malaria infections. The note on back indicates that Ewell’s letter contained a report of the recovery of the young hostage.

S. H. Lathrop’s Buckboard Contract Mail — The Overland Mail route passed through Tucson, but not Tubac, which lies approximately 45 miles south on the Camino Real. The Tubac postmaster, D. F. Hulseman, contracted with S. H. Lathrop, treasurer of the Sonora Exploration and Mining Co., to carry mail on weekly buckboard trips between the two towns.”

AN EXCEEDINGLY RARE COVER FROM FORT DEFIANCE IN NEW MEXICO TERRITORY TO EUROPE.

Fort Defiance, the first military post in present-day Arizona (then part of New Mexico Territory), was established on September 18, 1851, by Col. Edwin V. Sumner during his campaign against the Navajo. The conflicts with Navajo, generally over use of land for grazing and theft of livestock, escalated into two major attacks - one in 1856 and another in 1860. In 1861, with the start of the Civil War, the U.S. Army abandoned Fort Defiance. It was reestablished as Fort Canby in 1863. The fort did not have a U.S. post office until the appointment of John E. Weber as postmaster on April 9, 1856. The post office was discontinued on October 21, 1863. There was no mail contract for service to and from the fort, so military couriers were used to bring mail to Albuquerque, where it was carried by stage to Santa Fe and from there by the Hall-Hockaday contract mail stage to Independence.

 Estimate \$10,000 - 15,000

THIS IS THE EARLIEST RECORDED MARKING OF ANY KIND APPLIED AT SANTA FE TO MAIL CARRIED BY MILITARY EXPRESS, WHICH WAS THE ONLY MEANS BY WHICH LETTERS COULD BE SENT TO OR FROM THIS ARMY-OCCUPIED NEW MEXICO TOWN.

After General Stephen W. Kearny occupied Santa Fe on August 18, 1846, a military express was established over the Santa Fe Trail. Mail was carried over this route via Bent’s Fort (or the Cimarron Cutoff), and eastbound letters entered the mails at Fort Leavenworth or Independence, Missouri. On May 11, 1850, the contract for monthly mail service on the same route was awarded to Waldo, Hall and Company commencing July 1. Examples of military express mail typically do not have any markings applied at Santa Fe. The “Santa Fe Nov. 6” postmark is dated the day the express departed, two weeks after the letter was written.

This chatty letter between brothers mentions the names of no less than fifteen enlisted soldiers and officers in the 1st and 2nd Regiments of the Illinois Volunteers. Lieutenant Snyder enlisted at Alton, Illinois, on May 26, 1847, and arrived in Santa Fe (Military Territory of New Mexico) on September 16, 1847. He was discharged at Alton on October 14, 1848.

 Estimate \$3,000 - 4,000

THIS IS THE EARLIEST RECORDED UNITED STATES POSTMARK FROM ARIZONA.

Mark Aldrich was a wealthy Arizona merchant who facilitated the mails even before he was officially appointed postmaster. Before Aldrich settled in the West, he lived in Illinois. He was one of five tried and acquitted in the murder of Mormon prophet Joseph Smith in 1844. After becoming very wealthy as a merchant, he became Tucson’s unofficial first mayor and served as the postmaster (he was officially appointed November 11, 1857).

After that the party traveled by stage coach through Oregon to Portland and all the way to Seattle before turning back east in October.

In March of 1875, several newspapers reported the establishment of a new stage and express service that operated across Arizona and New Mexico. Henry Wells was listed as President and the General Superintendent was his son, Charles H. Wells. Stock certificates were created, a company was formed and line operations began to take shape. In late December 1875 or January 1876, this stage and express service started to operate over a route between Prescott, Phoenix, Tucson and the Terminus of the Southern Pacific Railroad. Despite its name, the company never got as far as New Mexico. By 1876 the express folded due to lack of funding, having lost its usefulness as the railroad pushed further east.

 Estimate \$500 - 750
- On 9 November 1858, amid gun fire and patriotic music, the soldiers of Camp Floyd, Utah Territory, raised the United States flag above their newly completed garrison. Named for Secretary of War, John B. Floyd, the post housed the largest concentration of U.S. troops to that time, in what immediately became the third largest city in Utah. Camp Floyd was a product of the so-called “Utah War.” Influenced by rumors of rebellion in Utah, President James Buchanan ordered 2,500 soldiers led by Colonel Albert Sidney Johnston to Utah. After a short stay at the north end of the valley, Johnston moved his men across a creek from present-day Fairfield where soldiers, aided by Mormon laborers and artisans, built Camp Floyd. By December of 1858 Camp Floyd had its own post office using a manuscript postmark.*

Its purpose was to protect the highly strategic and heavily utilized crossing of the Suwannee River. It also served as a base of operations for U.S. and Florida Militia troops that tried to suppress the activities of small bands of Creek and Seminole warriors that operated from the vast swamps of the lower Suwannee River. Raids and battles were a constant part of life in the region for both whites and Indians during the years 1836-1842. The fort was garrisoned for nearly five years, during which time, 31 soldiers lost their lives, all but three of them from sickness. The post was abandoned in February 1843 and because it was made of wood and situated in a warm humid climate, it soon deteriorated.

Fort Sanders, Dakota Territory was a wooden fort constructed in 1866 on the Laramie Plains in southern Wyoming, near the city of Laramie. Originally named Fort John Buford, it was renamed Fort Sanders after General William P. Sanders who died at the Siege of Knoxville during the American Civil War. This was the second fort to be named after Sanders, the first being in Knoxville, Tennessee. The fort was originally intended to protect travelers on the nearby Overland Trail from Indian attacks, but later the garrison was tasked with protecting the workers of the Union Pacific railroad when it arrived in the spring of 1868. In 1869 the town of Laramie (originally called "Laramie City") was created about 3 miles (4.8 km) north of the fort. Fort Sanders became less important following the construction of Fort D. A. Russell in Cheyenne in 1868, but the War Department maintained it until 1882 when the buildings were sold.

At first the camp was a series of tents and dugouts on the riverbank close to the Rath Ranch (trading post). However work immediately started on a more permanent facility about 100 yards from the dugouts and renamed Fort Zarah. In 1866 it was replaced by a second Fort Zarah built about 1/2 mile up river. Ft. Zarah was abandoned in 1869. Even though Fort Zarah had a short life, it saw its share of skirmishes with local Native American tribes and colorful characters including George Armstrong Custer, Wild Bill Hickok, Buffalo Bill Mathewson, Buffalo Bill Cody, Kit Carson, and the Kiowa chief Satank aka Sitting Bear.

Should appearances be to an amicable arrangement of the Oregon question, it is not impossible that I may yet return to Mexico. If there be a prospect of war between the United States & Great Britain.  Estimate \$500 - 750

John Slidell (1793-1871) was an American politician, lawyer, and businessman. A native of New York, Slidell moved to Louisiana as a young man and became a staunch defender of slavery as a Representative and Senator. He served as minister plenipotentiary to Mexico from 1845-1846.

Prior to the Mexican-American War, Slidell was sent to Mexico, by President James Knox Polk, to negotiate an agreement whereby the Rio Grande would be the southern border of Texas. He also was instructed to offer, among other alternatives, a maximum of \$25 million for California by Polk and his administration. Slidell warned Polk that the Mexican reluctance to negotiate a peaceful solution might require a show of military force to defend the border by the United States. Under the command of General Zachary Taylor, U.S. troops were sent into the disputed area between the Rio Grande and Nueces Rivers. The Mexican government, in a state of chaos at the time, rejected Slidell's mission. After Mexican forces repelled a U.S. scouting expedition, the United States declared war on Mexico on May 13, 1846.

May 1917, the town of Hot Springs had a population of 650 but soon the number would increase with the addition of almost 2200 German prisoners. This would be the largest World War I prison camp in the United States at the time. The Mountain Park Hotel had been a thriving business until the outbreak of WWI when travel to the hotel slowed considerably. The owner Col. Rumbough negotiated a contract with the War Department to house Germans, most of whom were civilians and comprised of the crews of the German commercial ships which had taken cover in American ports when Great Britain declared war on Germany in 1914. Included in the group were members of a German orchestra as well as the crew of the world's largest ship, the "Vaterland." Because they were civilians, they could not be called "prisoners-of-war" but were named "enemy aliens" by the Department of Immigration. Consequently, 2200 passengers, officers and crew members came by train to Hot Springs and spent the remaining 19 months of the war in the internment camp.

AN EXTREMELY RARE AARON BURR FREE FRANK FROM NEW YORK CITY.

After serving as a Continental Army officer in the Revolutionary War, Burr became a successful lawyer and politician. He was elected twice to the New York State Assembly (1784-1785, 1798-1799), was appointed New York State Attorney General (1789-1791), was chosen as a United States Senator (1791-1797) from the state of New York, and reached the apex of his career as Vice President during President Jefferson's first term. The highlight of Burr's tenure as President of the Senate (one of his few official duties as Vice President) was the Senate's first impeachment trial, of Supreme Court Justice Samuel Chase.

On July 12, 1804, during the last full year of his single term as Vice President, Aaron Burr and Alexander Hamilton famously duelled in New York City. Hamilton later died of the gunshot wound that he sustained during duel, but Burr was never tried for the illegal duel and all charges against him were eventually dropped. Hamilton's death ended Burr's political career.

As one of the largest slaveholders in the United States, he defended American slavery for both political and personal motives, even though he had private misgivings about the institution and particularly about the African slave trade. He introduced the Fugitive Slave Clause into a draft of the U.S. Constitution, which gave a federal guarantee to the property rights of slaveholders. He supported counting the full slave population in state totals for the purposes of Congressional apportionment.

CARRIED ON THE MAIDEN RETURN VOYAGE OF HOWLAND AND ASPINWALL'S **CHEROKEE**.

There are fewer than 5 recorded examples of the rare "New-York '30' Jan 13" integral-due cds, which is known used for this voyage of the "Cherokee" only. The New York Herald listed Cherokee as a mail steamship, but this was incorrect. The confusion about the Cherokee being a mail steamship on this voyage may have come from the actions of mail agent A. Clinton McLean. He was in charge of the mails from California that reached Panama on Dec. 5th and Dec. 29th. He accompanied these mails to New York on the Cherokee. It appears that he had missed the sailing of the contract mail steamer, "Falcon", that cleared Chagres on January 1, 1850. Howland and Aspinwall's Pacific Mail Steamship Company had the mail contract for the Pacific route, but not for the route on the Atlantic side. They did operate steamships on the Atlantic route until April 1851, the "Cherokee" being their first.

According to Chip Gliedman, Charles H. The use of such postmaster provisional postage due labels pre-dated the issuance of official U.S. Government postage due stamps in 1879 by almost 25 years. As most of his labels are formatted differently, they were apparently created either singly or in small batches.

Here is one of them, where there are two side flaps, and an upper flap, which folds down over one side of the card, and on which the address may be written, while the side of the card so covered is reserved for the correspondence, which cannot be written until the flap is opened..."

Benjamin Butler at New Orleans, Louisiana, as commander of the Department of the Gulf. He ordered the deportation of all registered enemies of the United States residing in New Orleans (primarily those who refused to take the oath of allegiance). More than 700 families were forced to leave under miserable conditions. By the summer of 1864, the Provost Marshal General estimated that only 778 still remained in New Orleans. Banks ordered that these be deported on June 23 and, but according to the Picayune others were still leaving the Department as late as mid-October 1864.

The Columbia Phoenix (1865-78) arose out of the charred remains of Columbia, the capital city of South Carolina, in the aftermath of the Civil War to record its losses and bear witness to its gradual recovery. A triweekly newspaper, the Phoenix first appeared on Tuesday, March 21, 1865, mere weeks after fires had razed a third of the city. It struck a defiant tone, declaring, "Our city shall spring, from her ashes, and our Phoenix, we hope and trust, shall announce the glorious rising! God save the state!" For over ten years, it reflected on the hardships (crop failures, the scarcity of goods and money) and hopes (the return of businesses and railroads, voting rights for African Americans) of the residents of Columbia and neighboring communities in the Midlands region of South Carolina. Proprietor Julian A. Selby boasted considerable experience in the newspaper business, having formerly owned the Tri-Weekly South Carolinian (also called Tri-weekly Carolinian and South Carolinian). In establishing the Columbia Phoenix, however, he literally started from scratch. In the weeks immediately following the city's destruction, Selby scoured the state for paper, a press, and printing supplies. He and his assistants fashioned for themselves the things they could not find. He also secured the services of renowned Southern literary critic, novelist, and poet William Gilmore Simms as editor. Living conditions in the capital city were so desperate that, early on, the staff offered to accept food staples such as bacon, eggs, rice, and potatoes as payment in lieu of cash subscriptions. The first ten issues contained a detailed history of the burning of Columbia, which was separately published as Sack and Destruction of the City of Columbia, S.C., in October 1865 (itself edited and republished as A City Laid Waste in 2005). Simms departed after six months, but not before Federal troops had arrested him for criticizing their presence in Columbia. (Credits - University of South Carolina, Columbia, SC).

A CHOICE USE FROM ONE OF THE IMMORTAL 600 CONFEDERATE PRISONERS MOVED TO MORRIS ISLAND BY FEDERAL FORCES.

The "Immortal 600" was a group of 600 prisoners, all Confederate officers, moved from Fort Delaware to be sent to Morris Island in Charleston harbor in August 1864 and held in open barracks exposed to mortar fire from Confederate batteries.

This extraordinarily inhumane act was the Federal response to an equally repulsive act on the part of Confederates in Charleston, who exposed Union prisoners to bombardment from Federal forces within range of the city. This sorry chapter of the war ended in a stalemate in October 1864. Covers from Confederate prisoners imprisoned on Morris Island are very rare.

Nathan S. Moseley was a Lieutenant in Company F of the 12th North Carolina Infantry Regiment. Moseley had been wounded and captured at Spotsylvania Court House in Virginia on May 12, 1864. He spent about six weeks at the Lincoln General Hospital in Washington D.C., before being transferred to the Old Capitol Prison and then to Fort Delaware. While in the hospital he had taken care of Mr. Bee's son James, a wound fellow prisoner. Shortly after amputation of a leg, James Bee died, and Moseley penned a touching letter to his father informing him of the sad news. At Morris Island, he renewed his correspondence with William C. Bee, possibly hoping to receive some help from him.

There was a shortage of 5¢ stamp just after the transition from Postmaster Whitney to Jackson around the start of 1857. This necessitated the 5¢ provisional manuscript surcharge, with most being made by Jackson's clerk, Alvah Clark (Type I) having a numeral with a long flag, and the rest by Jackson (type II) having a numeral with short flag with only four examples recorded. New supplies of the 5¢ 1857 Issue (Scott 8) on thin white wove paper were received at the end of June 1857.

Webster gathered taxidermists and naturalists, including Rollo Beck, to collect Galapagos tortoises and land birds. Webster, however, would state in the states, but the expedition is still called the Webster-Harris expedition by scholars. However, Webster’s group discovered the flightless cormorant, which Rothschild named after taxidermist Charles Miller Harris, a member of the expedition.

Estimate \$300 - 400

In 1942-43, the British created this propaganda forgery depicting Heinrich Himmler, Reichsführer of the SS. The stamp design is an imitation of the German Hitler definitives from 1941-44, specifically MiNr. 785.

Two major varieties exist. The first printing (28 II) from December 1942 has narrow lines, poor shading, white splotches on the face, and overall poor quality in the design. The April/May 1943 printing (28 I) has wider lines, and overall a much better, more attractive design. It is also much rarer.

The stamps were airdropped to the Polish Resistance in January-April 1943. The Resistance mailed a small quantity of covers, each containing a propaganda leaflet, bearing the stamp and two genuine 2-Groschen stamps to various addresses in Occupied Poland.

The Independence
Liverpool Exemption Lr.

BICKENHILL, ENG. TO NEW YORK
(VIA LIVERPOOL)

Letter privately carried to Liverpool forwarding agent John Ribby & Company. As letter would be accompanying cargo on the ship so the hand-stamp "LIVERPOOL EXEMPTION Lr" was applied. This relieved the letter from any ship letter fees.

Tabort states this mark, Robertson type 1832, is usually lightly inked and thus very faint. It is often over inked and scarce. This stamp was in use 1833 to 1840 making this an early use of this stamp.

Thus this letter carries no rate marks or postal markings and is a rare example of this specific postal activity.
