Grading and Condition

Superb	Extraordinary item in the finest condition.
Extremely Fine	Outstanding and exceptional quality.
Very Fine	Choice, first-class condition.
Fine-Very Fine (F-VF)	Stamp or cover in sound condition; if a stamp, it is slightly less well-centered than Very Fine but better centered than Fine.
Fine	Sound in all respects. Perforated stamps will have the designs clear of the perforations; the designs of imperforate stamps will not be cut in to any significant degree.
Very Good (VG)	Imperfect centering (stamps) or poor general appearance.

Any stamp faults such as a thin spot, tear, crease etc., will be described at all times. Postally used covers should be expected to have the normal degree of wear associated with them and this wear is not grounds for return. The grade of a cover is independent of the grade of the stamps on it. Covers from the famous Carroll-Hoy correspondence will normally have a small unobtrusive staple hole. In lots containing several items, degrees of condition denote the overwhelming average and examples above and below such condition can be expected.

Terms of Sale

Bidding

I. All bids (whether by floor bidders, mail bidders, or telephone bidders) will have a premium of 15% added to the auction sale price.

II. All bids are per lot as numbered in the catalog unless otherwise announced by the auctioneer at the time of sale. The right is reserved to withdraw any lot prior to sale, to divide a lot, or to group two or more lots, or to act on behalf of the seller. Schuyler Rumsey Philatelic Auctions, Inc. will execute bidding instructions on behalf of clients, but will not be responsible for any errors in the execution of such bids. Schuyler Rumsey Philatelic Auctions, Inc. is not liable for bidding errors related to live auction internet bidding and/or the loss of internet connection during the live auction.

III. The highest bidder shall prevail; lots are sold at one increment over the second highest bid. Should any dispute arise between bidders, the decision of the auctioneer as to the successful bidder and the reoffering or resale of the lot under dispute shall rest entirely on the judgment of the auctioneer. The auctioneer shall regulate the bidding and reserve the right to refuse any bid believed by him not to be made in good faith.

IV. Consignor has and retains the right to bid personally, or by his duly appointed agent, through the auctioneer, unless the sale is advertised and announced as one restricting such bidding by consignors or their agents.

Payments of Purchases

V. FLOOR BIDDERS. Floor bidders shall furnish the auctioneer their names and addresses prior to bidding on any lot. The name and address of the buyer of each lot shall be registered with the auction house following the sale of each lot. Payment of the whole purchase price shall be made by the floor buyer in such manner as the auctioneer may determine. Special credit arrangements must be made prior to the sale.

VI. MAIL BIDDERS. A successful mail bidder will be notified of lots purchased and must remit payment before the lots are sent. Auction bills are due and payable upon receipt of notification. If buyer's payment is not received within ten (10) days, Schuyler Rumsey Philatelic Auctions, Inc. may resell all lots without notice. Any and all losses incurred as a result of resale will be passed on to the defaulting buyer. Cost of postage, registration, etc. will be charged to buyer. Proof by the auctioneer of receipt of sending at the advised address shall constitute delivery.

VII. DIRECT DRAFTS/TRANSFERS. A successful mail bidder known to us may contact our office at (415) 781-5127 for the information necessary to pay directly into the vendor bank account. Any additional charges resulting from processing payments by this method shall be borne by the buyer. Method of payment should be noted on the bid sheet.

VIII. Title shall not pass to the buyer until full payment is received by Schuyler J. Rumsey Philatelic Auctions, Inc.

IX. All of our lots are sold as genuine. Lots accompanied by recent (within 5 years of sale date) expert certificates are sold "as is" based on the description in the certificate. The aforementioned expertized lots may not be returned under any circumstances including those instances in which subsequent certificates yield conflicting opinions. The accepted authorities for U.S. stamps are the Philatelic Foundation (P.F.), the Philatelic Stamp Authentication and Grading, Inc. (P.S.A.G.) and the Professional Stamp Expertizing Committee (P.S.E.). **In addition, a lot may not be returned because an expertizing service grades a stamp lower than the grade stated in the description, or differs from the accompanying certificate.**

X. The Auctioneer must be notified within 5 business days from the date of the auction of any request to place a lot on extension for expertizing. All extensions must be paid in full, in advance. There will be no exceptions and no lots may be returned under any circumstances if this term has not been strictly followed.

XI. All lots on extension must be submitted for expertizing by the auctioneer exclusively. Each lot is sold as genuine, except those described "as is", but when, in the opinion of a competent authority acceptable to Schuyler J. Rumsey Philatelic Auctions, Inc., the lot is declared otherwise, the purchase price will be refunded in full. The lot must be received by Schuyler J. Rumsey Philatelic Auctions, Inc. within a period of 21 days from the date of auction. Expenses incurred for purposes of expertizing shall be borne by the purchaser except where the lot is found by said competent authority to be materially not as described, in which case the consignor will be responsible for expertizing costs incurred. Proof of the inability of said competent authority to express a definite opinion is not grounds for return of an item.

XII. Any lot, description of which is incorrect, is returnable (A) within three (3) days of receipt and (B) if received by Schuyler J. Rumsey Philatelic Auctions, Inc. within twenty-one (21) days from the date of the auction. All disputed lots must be returned intact, in the condition received; no adjustments will be made. The following lots are not returnable: lots containing ten (10) or more items; lots from purchasers OR THEIR AGENTS who had the opportunity to examine them before the auction; items described as having defects or of a quality standard "Very Good" (V.G.) or below; lots with disputed centering or margins when the item is photographed; lots described "as is".

XIII. JURISDICTION. In the event of any dispute between the auctioneer and bidders, or between any parties requesting inspection of any of the lots and the auctioneer, or between persons offering their lots to be auctioned and the auctioneer, the jurisdiction over the dispute shall be in the City and County of San Francisco, State of California.

XIV. In the event of any dispute, the prevailing party shall be entitled to court costs and reasonable attorney's fees.

XV. The California State Sales Tax - or that of another state as ordered by the laws of such a state (as appropriate) - is payable by buyers liable to tax. See below.

Sales Tax

This sale will be held in California and the buyer will be liable for any applicable sales tax for this auction. Any lots purchased by buyers in California or that of another state as ordered by the laws of such a state are subject to State Sales Tax unless:

1.) You have a verifiable resale license number, which must be on file with us prior to the Auction.

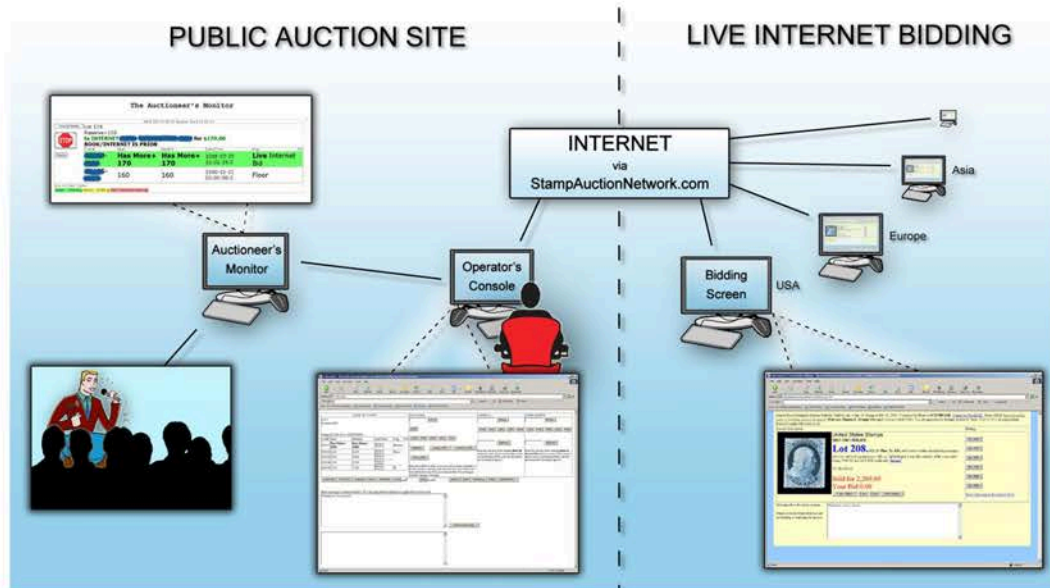

OR

2.) You are not a California resident or that of another state as ordered by the laws of such a state are subject to State Sales Tax and your lots are being shipped to your out-of-state or out-of country mailing address.

XVI. THE PLACING OF A BID SHALL CONSTITUTE ACCEPTANCE OF THE FOREGOING TERMS OF SALE.

A RARE FLOWN USAGE OF THE 1930 50¢ ON 36¢ COLUMBIA FLIGHT ISSUE - ONLY 65 OF THESE SPECIAL STAMPS WERE USED ON THIS FLIGHT FROM ST. JOHNS.

This flight was piloted by R.A.F. Capt. Errol Boyd and U.S. Navy Lt. Harry Connor in the Miss Columbia, in same plane flown across the Atlantic by Clarence Chamberlin and Charles A. Levine in 1927. They left Harbour Grace on October 9th, but a malfunction of the fuel line from the rear tank forced them down in the Scilly Islands, just southwest of England, after 23½ hours in the air. They jettisoned the rear tank, siphoned fuel from a seaplane and continued on to their destination at Croydon. Only 65 of the special flight stamps were used on cover on the flight from St. Johns and an additional 35 were used on cover from Harbour Grace.

1944 Hitler OSS Birthday Propaganda Souvenir Sheet of 4, perf 8, no gum, bright and fresh, **Very Fine.**
Michel No. 18a €36,000 (\$40,120)

AN EXTREMELY RARE EXAMPLE OF THE 1944 HITLER PROPAGANDA SOUVENIR SHEET OF FOUR IN BROWN VIOLET - ONE OF THE RAREST OF ALL PROPAGANDA ISSUES WITH APPROXIMATELY FIFTEEN ARE KNOWN TO EXIST.

The American OSS was formed from a division that President Roosevelt enacted by Executive order and was under jurisdiction of the Joint Chief of Staff, giving the OSS the capability and status of a military branch. The goal of the operation was to disrupt the morale of the German people by using a method of large scale psychological operation (PSYOP) that the British MI6 had been pushing into service with the help of the Royal Air Force (RAF). The distribution of propaganda in letters and distributed by the German postal system was thought to be an ideal method of reaching the German population and undermine the support of Adolf Hitler. One tactic used in hopes of shaking the morale further in the German people, was to call upon master forgers to produce a variety of propaganda forgery stamps similar in nature to the current German issues. This souvenir sheet was to resemble the 1937 Hitler semi-postal souvenir sheet.

Michel No. **28II** €1,200 (\$1,340)

In 1942-43, the British created this propaganda forgery depicting Heinrich Himmler, Reichsführer of the SS. The stamp design is an imitation of the German Hitler definitives from 1941-44, specifically MiNr. 785.

Two major varieties exist. The first printing (28 II) from December 1942 has narrow lines, poor shading, white splotches on the face, and overall poor quality in the design. The April/May 1943 printing (28 I) has wider lines, and overall a much better, more attractive design. It is also much rarer.

The British Intelligence produced a skillful propaganda forgery of the Germany 1943 24pf+26pf brown-red Putsch stamp. The forgery shows a portrait of General von Witzleben, instead of that of a storm trooper. An inscription at the top reads 'Gehängt am 8. Aug. 1944', meaning 'Hanged on 8th August 1944'. The forgery was printed in photogravure in sheets of 20 stamps (4x5).

Michel No. **50** €750 (\$840)

In December 1944, the British produced this propaganda forgery depicting Heinrich Himmler, Reichsführer of the SS, placing shackles on a German civilian. The stamp design is based on the 1944 German issue commemorating the 21st Anniversary of the Beer Hall Putsch. It was printed in sheets of 20.

- 305 F **1944, 3+2pf Goering & Streicher & 12+6pf Himmler British Propaganda Issues**, vertical se-tenant pair, o.g., never hinged, **Very Fine**.
Michel No. **30-31** €1,200 (\$1,340)

- 412 ☒ 1845 (c.) "U.S.S. Yorktown, Monrovia, April 13th", datelined folded letter, four pages, with some interesting content including "...limited time I have spent on this coast, to have the opportunity of studying the character and customs of the 'Liberian people' in public and private, in court and camp, 'West End' and City. I have had the honor of dining with his Excellency the President (not at his own house - I did back out from that), but at no less august a place that the Ward-room of the Yorktown - Listened to the debates in the Senate Hall, accompanied their Army in it military expeditions - made myself agreeable to the fashionable fair; drank wine with the great Officers of States in their houses and whiskey with the General in his tent...From experiences thus gained, I have come to the conclusions following - That the Republic of Liberia is a glorious republic - That the Sovereign and that the President is - (as one of his aides one day remarked) 'the President is a great nigga'. By the way I have in my possession a note from that same officer - (who is no other than the celebrated Colonel Hicks), and which I have preserved as a curiosity...The Black Schoundrel I had never seen him but once, and as a result of that meeting had registered a passing vow, to break his shins the next time I met him (you know it is not use trying to break a negro's head or neck). The military expedition alluded to was to a place called New Cess...the quarrel was about... 'that the rascals down there said the people up at Monrovia were black'. When we got down there, however, we found there was a slave factory to broken up, which with the assistance of a French Steamer they did, capturing the slave dealers and burning the towns of the Chiefs who supported them...we had the please of carrying the President with us to a place to the northward called Cape Mount..." second leaf seems to be missing; some light staining, **F.-V.F.**, a great early U.S. Naval letter from Monrovia.

Estimate \$300 - 400

This folded letter is the basis for the February 25, 1850, listing in Williams of the earliest known Santa Cruz manuscript postmark in the Branciforte County period. Branciforte County was renamed Santa Cruz County on April 5, 1850. An 1850 year date for this folded letter was inferred from the rate and the addressee and destination. However, on those bases, this February 25 postmark may well date from either 1850 or 1851. The 12½¢ Pacific Coast rate remained in effect until July 1, 1851. San Jose was California's pre-statehood and first state capital, but both the 1850 and 1851 sessions of the California legislature met there. The capital was not moved officially to Vallejo until January 5, 1852 (and thence to Benicia in 1853 and finally to Sacramento in 1854).

William Van Voorhies, prior to becoming California's first Secretary of State, was the Postmaster General's first Special Postal Agent in California. He established the first official Post Offices in California at Monterey and San Francisco in February of 1849.

Docketed on reverse "Guadalupe Castro in relation to Laws." Castro was the son of José Joaquín Castro (1768-1838), who after serving as a soldier for the Mexican Army for 13 years, came to settle the new community of Villa de Branciforte in 1798. In 1833, José Castro received a 2 square league (8,911 acres) land grant from Governor José Figueroa.

He introduced the Fugitive Slave Clause into a draft of the U.S. Constitution, which gave a federal guarantee to the property rights of slaveholders. He supported counting the full slave population in state totals for the purposes of Congressional apportionment.

One of William Rotch's vessels, the "Bedford", was involved in the 1775 Boston Tea Party. The addressee, Nicholas Brown, was himself a member of a prominent Providence merchant shipping firm, who during the Revolution relocated to Nantucket following the British blockade of the Rhode Island coast. The Island of Nantucket was neutral during the Revolutionary War. Once safely on the island, he joined forces with Christopher Starbuck in a joint venture.

This fort was located near the Sonoita River about 40 miles south-southwest of Tucson in what was then the Territory of New Mexico, before the establishment of the Arizona Territory in 1863.

The first detachment of U. S. First Dragoons under Col. J. V. F. Blake arrived at the site on Nov. 17, 1856, and began the construction of the fort, first calling it Camp Moore. The fort developed rapidly and on May 29, 1859 the name was changed to Fort Buchanan. It was a rough and crude establishment in the early days, but played an important part during the Indian wars against the Apaches and other tribes scattered through the area. The Post Office was established on June 5, 1857 and discontinued Oct. 21, 1863.

During the early days of the Civil War the fort was burned on July 21, 1861 to keep it from falling into the hands of Confederate troops who were coming from Texas into the southern area of New Mexico during the Civil War.

Estimate \$750 - 1,000

The construction of a new fort to be called Craig began early 1853 when orders were given to abandon Fort Conrad further down the river. This new site stood on a bluff overlooking the river bottom, with ten foot high walls made of adobe bricks. This was a large new building project containing many different large buildings that would hold supplies and all the materials to support 3,000 soldiers.

The writer also tells about suspicions of Confederate spies being in the area as rumors of war were circulating. The Civil War broke out just a few months later in April 1861. The Union force posted here later became involved in a major battle with Confederate army at Glorieta Pass, and Val Verde in February 1862. The Union won a decisive victory turning the war in the West in favor of the Union.

Dec. 15" and "Dec. 22 '67" with some interesting content "I very much fear Central City (some 10 miles south of Pinos Altos) will share the same fate that Befel Cave & think that before many months have rolled around Central like Cave City will only be inhabited by coyotes and Jack Apaches", expressing a gloomy view of friends going into the area on mining prospects "I have come to the same conclusion about gold bearing quartz that I came to in regard to Placer Mines in this locality & that is that the longer a man works at it, the poorer he gets. There is but one forlorn hope for this place yet & that is the silver quartz. If that is a success, men here in Pinos Altos will yet hold up their heads. If not, then au revoir to the City of the Pines. There is one smelter just started which promises to be a success. A few month will tell the tale or sound the funeral knell of Pinos Altos-Selah." and he writes of killings over gambling, and his support for hangings of murderers... "The Indians killed two men last Wednesday some 10 miles below Ft. Bayard. Took 4 mules from them... The demon Jack Apache is high muck in this country."; small faults, **Fine**, ex-Meroni.
Estimate \$300 - 400

The manuscript "Paid 25" possibly was a fee for stage coach to carry the letter from Pinos Altos that was on the old Butterfield Stage route to the post office at Fort Cummings. The fort was designed and built by Gen. G. McClellan in 1862-63, at the mouth of Cook's Canyon, to keep New Mexico from joining the Confederacy and to control depredations of the Apaches led by Cochise, Geronimo, etc. The post office existed there from 1866 to 1887, and this is an exceptionally early letter from there.

Santa Fe

The contracts for carrying the mail on the Santa Fe Trail were let by the military authorities in the Quartermasters General's Office at Fort Leavenworth to civilian contractors in 1848 and 1849. The mail service was very irregular during this period, with the cost of each delivery being carried under special contract at \$600.00 per round trip. The military maintained their own courier service to Fort Leavenworth where all letters would then enter the U. S. Postal service.

Dr. E. B. Bateman informs his brother Newton of life in Santa Fe, during a very dull winter season where, the main story seems to be about the tragic journey of Col. Fremont, including the death of many of his men during their journey to Taos in a severe winter storm. Fremont crossed from the Plains through La Veta Pass 9,382 feet into the interior valley west of the Sangre de Cristo range then on south to Taos.

This is the tragic story as written by Dr. Bateman: "...Col. Fremont & men were here a few days since en route for California. They were compelled to put into Taos (Tous) for succor, having lost all their mules & ten men from famine & cold & besides nearly all else they possessed they suffered greatly & appeared like shadows of natural men, but in time American spirit, meek, submissive & determined. There is a great spirit here of emigration to the west, numbers have already gone & many more, probably to the number of 100 will emigrate from Santa Fe to the west this spring, highly bound for western California. I have recently been a trip 50 miles blow on the famous Rio Grande, it is a beautiful mountain stream meandering through scenery as Grotesque & lovely as beautiful as any in the world."

The first mail delivery started from Independence on July 1, 1850, and was hailed by the newspapers of the day as a great success. The Waldo and Hall Company carried the mail until 1854 when the contract was given to Jacob Hall commencing August 18, 1854, for once-a-month service at \$11,000 per years. This was known as Route 8912. The new contract doubled the compensation, and service was increased to semi-monthly on July 1, 1855, and then set to expire in one year's time.

“Special Arrangement” with the Liverpool Postmaster

Businessmen in Philadelphia and other eastern cities complained about delays in mail arriving via Boston, due to sorting and rating. After an 1843 request to the Liverpool Postmaster by the U.S. Postmaster General, from June 1844 to late 1848 mails to Philadelphia and ten other cities were made up in separate parcels in Liverpool. These were included in the New York bag, from where they were forwarded un-postmarked.

Philadelphia’s 20¾ and circled 12 postmarks were obtained specifically for incoming British mails arriving via Boston under the Postmaster General’s special arrangement with the Liverpool Postmaster.

 Estimate \$400 - 600

On February 15, 1849, President James K. Polk signed a proclamation making effect the new United States-Great Britain Postal Convention. The public was not notified until Feb. 24, the date the Cunard steamer "America" departed Liverpool with the first mails from England under the new convention. Adequate instructions were not in place at the U.S. exchange offices of Boston and New York and a variety of errors were made. The new convention allowed mails to and from France to travel in the British open mail through England.

This letter shows that the Boston postal clerks did not know how to treat letters from France under the new convention. This letter was paid only to U.S. port and required postage due in the U.S. Boston, however, marked the letter as fully prepaid. This error in rating is known on mails of this voyage only.

CARRIED ON THE MAIDEN RETURN VOYAGE OF HOWLAND AND ASPINWALL'S *CHEROKEE*.

There are fewer than 5 recorded examples of the rare "New-York '30' Jan 13" integral-due cds, which is known used for this voyage of the "Cherokee" only. The New York Herald listed Cherokee as a mail steamship, but this was incorrect. The confusion about the Cherokee being a mail steamship on this voyage may have come from the actions of mail agent A. Clinton McLean. He was in charge of the mails from California that reached Panama on Dec. 5th and Dec. 29th. He accompanied these mails to New York on the Cherokee. It appears that he had missed the sailing of the contract mail steamer, "Falcon", that cleared Chagres on January 1, 1850. Howland and Aspinwall's Pacific Mail Steamship Company had the mail contract for the Pacific route, but not for the route on the Atlantic side. They did operate steamships on the Atlantic route until April 1851, the "Cherokee" being their first.

Liverpool-Philadelphia Scheduled Steamship Service: The Inman Line

Inman offered monthly service with three new steamships, the largest and most modern ever built on the Clyde. Philadelphia lobbied the government for a Liverpool-Philadelphia mail contract, but after years of losing freight and passenger business to the New York lines, Inman moved its western terminus there in 1857 and began carrying mail under temporary U.S. contracts.

The first business venture of Richardson Brothers steamship group was to purchase the City of Glasgow from Tod & Macgregor while the ship was on her fourth voyage to New York. The Richardson group was officially titled The Liverpool & Philadelphia Steam Ship Company, but probably because Inman ran the company from the very beginning it was informally called the Inman line.

Disappointment was followed by disaster when the City of Glasgow was lost at sea after departing Liverpool on 1 March on her second westbound voyage of the year. On 21 April the ship Baldaur, 400 miles north of the Azores, saw a steamship similar in description to the City of Glasgow steeply listing, but found only flotsam when the site was approached.14 Inman later declared the ship was presumed sunk, with the loss of 480 lives.

Due to miscommunication, U.S. Postmaster General Hubbard thought that double sea postage was being charged on letters to France carried via American packets in the British open mail. This had been the case, but Hubbard was unaware that the French had already corrected the inequity by lowering their rate to the U.S. from 15 decimes to 13 decimes. Hubbard's new rate was 21 cents regardless of whether a letter was carried by British or American packet. Hubbard's misapprehension was corrected, and the retaliation was suspended after only 17 days.

*Under the 1856 Anglo-French treaty, effective 1 January 1857 the fee charged to France by Great Britain for unpaid letters transiting the U.K. was reduced from 40 décimes to only 40 centimes per ounce. Senders in America paid the same amount, but recipients in France saw a steep reduction in postage due. Because the U.S-French treaty was not effective until April 1, the first quarter of 1857 is often called the **Three Month Period** by collectors. Few covers are known from Philadelphia.*

Estimate \$300 - 400

Although the early sailings by the Pacific Mail Steam Ship Company under their contract for the San Francisco to Panama route made landings at San Diego, these were dropped in the interest of speed in early 1851. It was not until October 1858 that a San Francisco to San Diego coastal route was contracted. It is probable that mails to and from San Diego were entrusted to coastal ships Masters who were known to be calling at San Francisco, Acapulco or Panama. They were either paid at the 2¢ ship letter rate, or a local contract for the trip negotiated.

ONE OF ONLY 7 RECORDED EXAMPLES OF THE BREMEN "AUS WESTINDIEN/ÜBER NEWYORK." HANDSTAMP.

Cuba stamps were not recognized since it did not become a member of the U.P.U. until May 1, 1877.

This cover is important because it shows postage due in the 1875 single German currency (1 Mark = 100 pfennings). Since it arrived after the General Postal Union became effective on July 1, 1875, the U.S. transit fee was crossed out. Postage due was 50 pf. Direct Mail rate plus 30 pf US Transit = 80 pfennings (8 sgr in old currency).

The Glen Haven Daily Mail differs from most local posts in that it served an area in which there was no post office, by bringing mail to neighboring post offices. Beginning in the late 1840's, Glen Haven became a popular health resort and location of water-cure sanitariums. A post office was established in Glen Haven in 1859, which ended the Daily Mail operation. (Source: Patton book, pages 320-322).

Beginning around 1854, typeset stamps were used on letters from Glen Haven, always in conjunction with United States postage. The one-cent supplemental fee paid for a letter to be brought to the post office at Scott, about three miles away, or, if the roads were favorable, to Homer, about ten miles from Glen Haven.

A succession of private local posts existed in Brooklyn between September 1844 and 1864. The first local post in Brooklyn was a branch of Boyd's City Express Post. John T. Boyd discontinued this Brooklyn post on June 30, 1845, when the new postal laws made it illegal for private companies to carry mail along postal routes. Boyd's Brooklyn agent was Wellington Walton, who is listed in the 1846 city directory as an "express proprietor" at 195 Gold Street in Brooklyn. Walton & Co. City Express covers are dated as early as February 14, 1846. In early 1847, Walton sold out to Henry Kidder who ran the post with help of the brothers Isaac and George Snedeker.  Scott No. **11X4** \$55,000

A RARE EXAMPLE OF THE 5¢ ST. LOUIS POSTMASTERS' PROVISIONAL ON GRAY LILAC PAPER.

The St. Louis Bears were printed from a copper plate of six subjects in two vertical rows of three. Initially it produced the 5¢ stamps in the left vertical row and 10¢ stamps in the right row. In 1846 the Postmaster decided that a 20¢ denomination was needed and had the two top left subjects altered to replace the "5"s with "20"s and printed these new stamps on gray lilac. The removal of all but one 5¢ value from the plate and the limited printing on this paper type accounts for rarity of this issue.

"curiosity" in margin, front of stamp slightly dry print and with fancy four-petal cancel; bottom right corner faulty with hinge reinforcement, **Fine appearance**, a great Bank Note Issue rarity.
 Scott No. **147a**. \$17,500

ONE OF ONLY FOUR RECORDED OF THE 3c 1870 NATIONAL BANK NOTE ISSUE WITH THE DESIGN PRINTED ON BOTH SIDES.

The printed on both sides variety was probably occurred when a sheet was printed without proper moistening, producing dry prints. Engraved stamps printed on both sides usually have a poor impression on one side and a second, complete impression on the other. The upper part of the reverse impression shows very light dry printing. As in this case, the sheet was turned 180 degrees before being put on the press a second time, so the two impressions are inverted in relation to each other.

AN ATTRACTIVE EXAMPLE OF THE RARE 4-CENT ON BLUISH PAPER FROM POSITION ONE IN THE ORIGINAL SHEET OF 100.

According to Johl (Vol. 1, page 175), the only source of the 4¢ and 8¢ Bluish stamps was the archives of the Post Office Department. Approximately 80 of each were traded for rare stamps missing from the archives. Given the failed experimental nature of the paper mixture, it is no surprise that virtually all copies are off-center to some extent.

This stamp was originally part of the top left corner sheet-margin block of four seen in the Colonel E. H. R. Green collection (Part VII, lot 620, J. C. Morganthau & Co., Dec. 1-8, 1942). The top right stamp from the same block appeared in a Simmy's sale in 1976 with the top sheet selvage intact. The stamp offered here was offered with the corner sheet selvage removed as early as 1970 (Peter Kenedi sale). It was acquired by the present owner in the Siegel 1975 Rarities Sale. The corner selvage was probably removed to make the stamp fit into an album space.

E., 2nd Virginia Cavalry with original cover bearing 3¢ rose (65), folded over edge, tied by radial fancy cancel and partial "Kanawha C.H., Mar 14 '64" cds to McConnellsville, Ohio, some interesting war content "...Deserters having been coming in our lines at the rate of 150 to 200 per week. They seem to be greatly disheartened and think their cause utterly hopeless. They all say that many others would desert had they the opportunity. I think when the spring opens so that our grand army can operate effectively it will not be many months ere our Banner will wave triumphantly over Rebeldom and may that glorious hour speedily arrive...Maj. Genl. Seigel commands the Dept., Brig. Genl. Crook the Division, both energetic military men so we may soon expect some work..."; some letter fold separations, **F.-V.F.**
Estimate \$200 - 300

The 2nd West Virginia Cavalry Regiment served in the Union Army during the American Civil War. It was organized in Parkersburg, Virginia (now West Virginia) during September 1861. Most of the original members of this regiment were from southeastern Ohio, and planners thought that this regiment would become the 4th Ohio Cavalry. Their application was rejected by the governor of Ohio, so the unit became the 2nd Regiment of Loyal Virginia Volunteer Cavalry. The "Loyal Virginia" part of the name was replaced with "West Virginia" after the state of West Virginia was officially admitted to the Union in 1863.

Graham.**
Estimate \$300 - 400

When the first supply of 1861 stamps was received at a post office, postmaster also received instructions to place a notice in local or area newspapers that the new stamps would be exchanged, value for value, for a period of six days. After that, the old (1857 Issue) stamps would no longer be accepted on letters mailed at that post office as valid for postage.

Estimate \$300 - 400

Charleston S.C." describing the Battle for Battery Wagner and the Siege of Charleston "...I feel like sending greeting to all loyal hearts to night. Reason enough, too: for Old Sumter is a ruin and the Federal Troops hold the key of Charleston and its harbor. All Morris Island had been abandoned to us. Day after day we anxiously watched our ... as it worked nearer and nearer to Wagner which was kept silenced by the iron-clads. Every morning we could see that the serpentine trench was a little nearer the sand fort than the day before. Two or three days ago our ditch was within 50 yards of it. Day before yesterday, the star and stripes were within 30 yards and the Ironsides used her guns all day to keep the sharpshooters in Wagner from firing into the trenches...This morning was the time fixed upon for the final attack. The vessels moved up; so did the army. They marched - the soldiers, over the walls of Wagner without opposition. Wagner had been vacated..." with several pages of further battle information; faulty at left, **Fine and scarce cover.**
Estimate \$300 - 400

The Second Battle of Charleston Harbor, also known as the siege of Charleston Harbor, siege of Fort Wagner, or Battle of Morris Island, took place during the American Civil War in the late summer of 1863 between a combined U.S. Army/Navy force and the Confederate defenses of Charleston, South Carolina.

Later on February 17, 1864, the Confederate submarine "Hunley" sank the blockader, the USS "Housatonic" off Charleston S.C., marking the first wartime sinking of a ship by a submarine.

Edes of Company K, 126th Pennsylvania Regiment, between Washington, D.C., and nearby camps. The 126th Pennsylvania was organized at Harrisburg in August, 1862, departing for Washington on August 15, 1862. They were on duty in the defences of Washington until September 12, when they were transferred to Sharpsburg, Md. They were mustered out in May of 1863.

Evans; reduced slightly at right and flap torn, **Very Fine**; signed Kimbrough.

Estimate \$300 - 400

The covers from this correspondence in 1861 have been identified as internal CSA blockade covers. The blockade was declared shortly after Fort Sumter but was not in full effect until later in 1861. Savannah, however, was blockaded beginning in late May 1861. The mail route for this cover was from Augusta to Savannah and then to the north coast of Florida including the Port of Fernandina by coastal packet successfully evading the blockade. The coastal route was known as Mail Route 6003, which ceased operations because of the blockade in mid December 1861. This is covered in a Confederate Philatelist article "South Atlantic Blockade Run Mail" by Skip Hensel appearing in the Sep-Oct 1979 issue.

Following the capture of General John Morgan and his men on July 26, 1863, after one of their raids through Kentucky and Ohio, it was deemed that they should be confined separately at the Ohio State Penitentiary rather than on Johnson's Island as normal prisoners of war. Nevertheless, Morgan and a few of his men managed to escape four months later, further adding to the notoriety and legend of the feared Morgan's Raiders. During their imprisonment the Governor of Ohio had been forced to apologize for Warden Merion's cruel treatment of the prisoners.

There was a shortage of 5c stamp just after the transition from Postmaster Whitney to Jackson around the start of 1857. This necessitated the 5c provisional manuscript surcharge, with most being made by Jackson's clerk, Alvah Clark (Type I) having a numeral with a long flag, and the rest by Jackson (Type II) having a numeral with short flag. New supplies of the 5c 1857 Issue (Scott 8) on thin white wove paper were received at the end of June 1857.

A RARE BISECT OF THE 1864 2c KAMEHAMEHA IV ISSUE USED IN COMBINATION WITH THE 5c KAMEHAMEHA V ISSUE.

Mail exchanged between Hawaii and the United States was greatly simplified by the Postal Convention signed May 4, 1870, effective July 1, 1870, which established the 6c single-letter rate to the United States. The 6c stamps were not available until late Spring 1871, and so the rate was made up using three 2c stamps. As the supply of 2c stamps dwindled, the post office permitted some bisects to be used with 5c stamps for the 6c rate. The first Honolulu convention period "Paid All" cds (MH 245.02) is recorded from July 22, 1870 until September 5, 1870.
