

Census of 2c and 5c Atlanta, Georgia, Postmaster's Provisionals

Compiled by Francis J. Crown, Jr.

Description

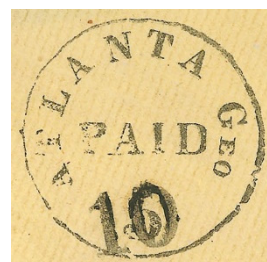

ATL-GA-E01

ATL-GA-E02

ATL-GA-E03

ATL-GA-E03a

ATL-GA-E04

ATL-GA-E05

ATL-GA-E06

The Atlanta Provisionals

The E01 marking was prepared from a device that looks like a postmark without a rate marking.

The E02 marking was prepared from a device that looks like postmark with "PAID" and "2" markings inside.

The E03 marking was prepared by removing the date logos from an office postmark and replacing them with "PAID" and "5" markings.

The E04 marking is the same marking as E03 except it was struck in red.

The E05 marking was prepared by removing the dated logos from the office postmark and replacing them with "PAID" and "5" markings.

The E06 marking was prepared from a device that looks like a postmark with "PAID" and "5" markings inside.

NOTE: The inclusion of an item in this census is not a guarantee of authenticity.

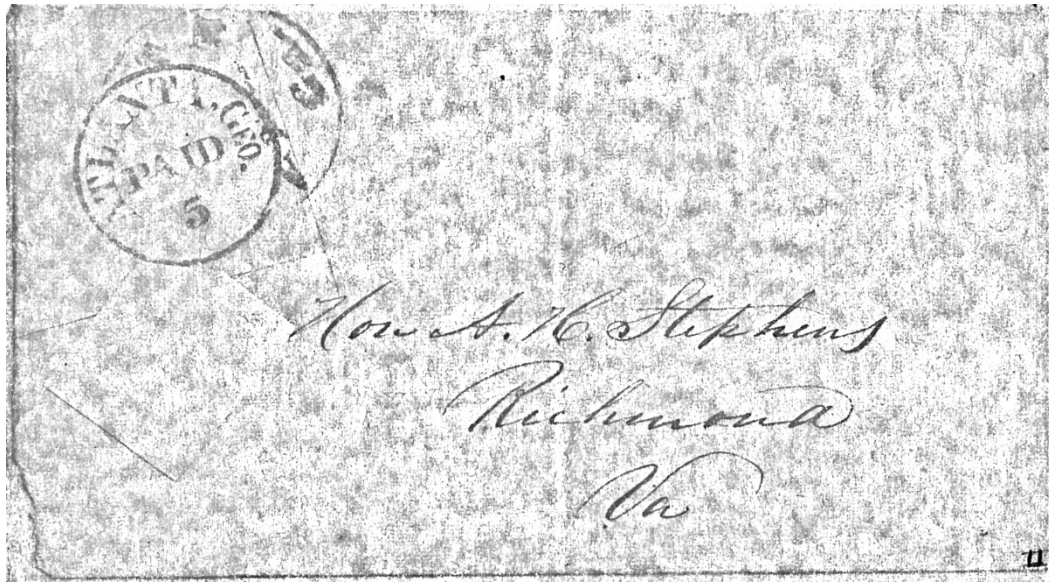

Count of the 2c and 5c Atlanta provisionals

Provisional	CSA Cat No	Scott Cat No	Covers
[2c] black	ATL-GA-E01		1
2c black	ATL-GA-E02		3
5c black	ATL-GA-E03		124
5c black revalued "10"	ATL-GA-E03a		4
5c black used under a general issue	ATL-GA-E03b		1
5c red	ATL-GA-E04		1
5c black	ATL-GA-E05		1
5c black	ATL-GA-E06		7
5c black revalued "10"	ATL-GA-E06a		3
5c black used under a general issue	ATL-GA-E06b		4

Notes

The General Issue Used over a Provisional

As far as is known the cover below and the stamp that was used over the provisional are separated and probably in separate hands.

E06b; 11 Mar [186-]; CN-047

The cover shows a 5c E03 provisional marking in the upper left corner with what appears to be a partial Atlanta postmark. The upper left corner of the cover appears to be cut to remove the provisional marking and the outline of the reverse of a stamp shows below the provisional marking. Below are images of the cut out provisional marking (slightly cut down) and the stamp that was tied over the provisional marking.

Non Provisional Use of a Provisional Marking

The cover below was sent by the Adams Express from Philadelphia on 6 July 1861 (light red marking cancelling indicia). It arrived in Atlanta at the Adams Express office where it was taken to the post office and the letter rate to Starkville was paid by the Atlanta E03 provisional marking. For some reason on arrival in Starkville it was changed 5c due. The cover entered the mails before the Atlanta provisional was applied, thus it cannot be a provisional use. It is not included in the census.

Fabricated Provisional

The cover below was fabricated from two different covers. The authentic provisional marking (left side) is joined to an authentic cover with Atlanta postmark (right side). The line to the right of the provisional marking is the joint line. Note how one line in the address panel is cut off on the left side at the joint line. This cover is not included in the census.

Large Number of Atlanta 5c Provisionals

The large number of Atlanta 5c provisionals (E03) is cause for concern when compared to the very low number of Atlanta stampless markings. It is very easy to conclude that the E03 marking was used as both a provisional and a stampless marking. The same cannot be said for the 2c and 5c provisional markings.

Fake cover

The cover below bears both a fake provisional marking and a fake postmark. The markings were made by inking over an impression of the actual markings made with carbon paper or some other material.

The most noticeable difference between the actual postmark and the fake are the letter "A" which is much wider in the fake. The most noticeable difference between the actual provisional marking and the fake is the flag of the "5." It is flat on the authentic and concave on the fake. Also, on the authentic marking the "D" of "PAID" is flat at top and bottom, while on the fake the "D" is rounded at top and bottom.

Examples of authentic postmark and 5c (E03) provisional marking

Cover with fake postmark and fake 5c (E03) provisional marking
