

# Census of Canton, Mississippi, Postmaster's Provisionals

Compiled by Francis J. Crown, Jr.

## Description

**CAN-MS-E01**  
**Canton Provisional Marking**

The Canton provisional was prepared by striking envelopes with a specially prepared die that features “PAID” and “5” between the rays of a five-pointed star. In the center is the letter “P” which stood for the name of the postmaster, William Priestly.

**NOTE:** The inclusion of an item in this census is not a guarantee of authenticity.

## Count of Canton provisionals

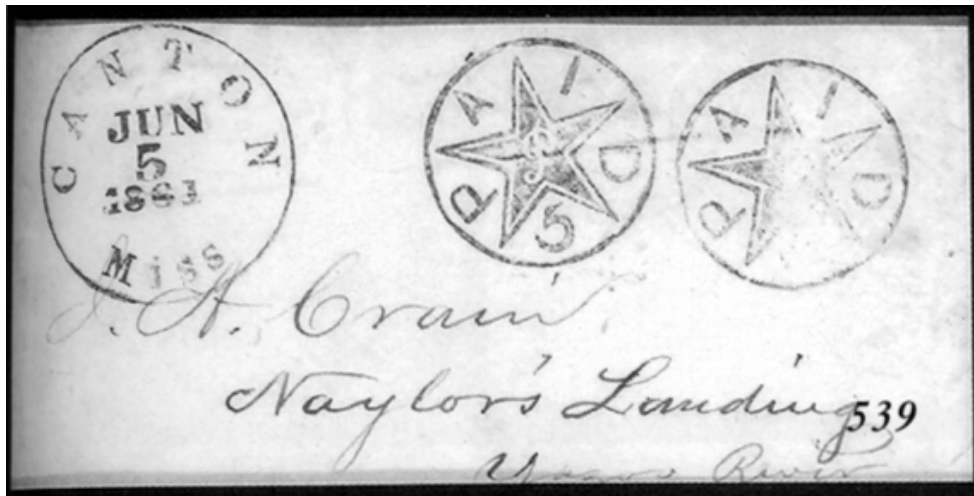

Provisional	CSA Cat No	Scott Cat No	Covers
5c black	CAN-MS-E01	14XU1	36
5c black struck twice	CAN-MS-E01a	14XU1	1
5c black revalued “10” (ms)	CAN-MS-E01b	14XU1a	1
5x black postally used from another town	CAN-MS-E01x		1

## Notes

### 2012 CSA Catalog Notes

The Confederate Catalog also lists the 5c black marking postally used under a general issue. The files used in compiling the catalog contain no image of such a use and it is not mentioned in the "Warren Sanders Confederate Provisional Card Files." However, a use of the provisional from another town was found (CN-004) and this may be what was intended by the catalog listing.

### The 5c Double Strike Anomaly

The Robert A. Siegel Auction Sale 452 (28 May 1974), lot 1004 describes the above cover as follows: "an 'enigma' cover as the small cover & short distance are consistent with the 5c rate, while the double strike suggests a 10c charge."

The date of use is an anomaly. It appears to be dated 5 Jun 1861, a month earlier than the next earliest Caton provisional. Further the year deserves close examination. The last digit appears to be a "1." But it is unlike the first digit "1" which has a sloping top serif and a small base line serif. Also, if the last digit is examined closely a "2" or a "3" can be seen. Is the last digit a "1" or something else? This cover is included in the census.

## Canton Markings Provisionals or Not?

The Canton provisional was first chronicled by C. H. Mekeel in 1891. The provisional was illustrated and Mekeel noted the 5-cent stampless provisional “appears on envelopes of all kinds, colors, shapes and paper, it was applied on letters when paid at the office, or any citizen [sic] could take his envelopes and have them stamped for future use by paying cash.” This statement indicates that what is considered a provisional marking was also used on stampless mail. No other proof of this has ever been offered and Mekeel’s statement was made without attribution.

## The Twins

The two provisional markings below are from different towns (Canton and Pensacola) and different states (Mississippi and Florida) respectively. Did both postmasters have the same idea for the design, or did one copy the other? We will probably never know.

Canton Marking

Pensacola Marking

## An Unlisted Provisional?

The image on the next page shows what appears to be a 10c Canton provisional. The provisional marking is made up of a prewar postmark with the date logos replaced by “10 / PAID.” The cover was offered in the Robert G. Kaufmann sale 47 (6 Nov 1986), lot 150 as an unlisted provisional. It is listed in the 1986 New Dietz Catalog but not in the 2012 CSA Catalog.

The cover has been known since at least 1986 but apparently has not been examined by either the Civil War Philatelic Authentication Service or the Philatelic Foundation. Perhaps for good reason.

The postmark appears to be the prewar Canton postmark. However, the “10” and “PAID” markings are not like any used by Canton as listed in Oakley’s *Postal History of Mississippi* and the CSA Catalog. It would be very unusual for a postmaster to obtain new markings when he already has such markings on hand.

Possible Paid 10 provisional postmarked 18 April.
