

Census of New Orleans Double Circle Postmarks on Outbound Mail by Date

Compiled by Francis J. Crown, Jr.

Description

New Orleans Double Circle Postmark

This is a census of outbound New Orleans covers canceled by that town's double circle postmark. Outbound mail is defined as mail with other than a New Orleans address. As a general rule outbound covers with that town's double circle postmark are considered to be river mail – mail transported by a riverboat.

It is not easy to identify some outbound covers with the double circle postmark as river mail because they lack river boat docketing or markings. Those with steam markings are river mail because they were marked as such on arrival at the first post office to receive them from a river boat. Others have no markings and must be identified by the address which should be on a river or close by. A close examination of the covers in this census show some probably did not depart New Orleans by river. These exceptions are listed in the "Notes."

The common feature of almost all mail identified as carried on a river boat is the New Orleans double circle postmark. For this reason, the New Orleans double circle postmark has come to signify river mail.

This census is actually three different censuses. There are mini censuses by date and type of postage and a full census by date.

NOTE: Every effort is made to ensure the accuracy of the census, but the inclusion of an item is not a guarantee of authenticity.

Notes

River Mail?

The covers listed below bear the New Orleans double circle postmark which is considered to indicate river mail. However, their addresses or route docketing indicates they were carried overland by rail or stage. These covers are included in the census.
