

Census of Memphis, TN, 5c Provisional Covers

Compiled by Francis J. Crown, Jr.

Description

The Memphis 5c Provisional

The 5c Memphis provisional was engraved on wood and reproduced as stereotypes from which the stamps were printed on white wove paper. All were printed in red of various shades. No distinction between shades is noted in this census.

The stamps were printed by M. C. Gallaway, owner of the *Memphis Avalanche* and postmaster.

The 5c Memphis provisional was plated by Thomas H. Pratt about 1929. See 'References' in "Notes."

Billy Matz prepared a census of the 5c provisional that appeared in the *Confederate Philatelist* in the late 1960s (see 'References' in "Notes"). The Matz censuses and this census contain listings that are not in the other.

Many of the dates on the 5c provisionals are difficult to read. For this reason, this census relies heavily on the dates given in the sources.

NOTE: The inclusion of an item in this census is not a guarantee of authenticity.

Notes

Fakes

There are many fakes of the 5c Memphis adhesive and entire. The authentic adhesive and entire were both printed from the same electrotype, so the differences noted below apply to both. The fakes are easy to spot. Look for a thick solid line of color between the flag of the “5” and the top outside border of the counter on the “5” (below right). This line is not found on the fakes (below left), though some do have a partial line or solid dot. The line is quite noticeable on the authentic.

Another way to tell a fake is to look at the two diamonds below the “5.” On the genuine the two diamonds almost touch or touch the bottom of the “5.” On the fakes the tops of the diamonds are cut off, greatly distorted, or absent.

Memphis Target Cancel

The four-ring target cancel found on a few Memphis provisional covers is a matter of controversy among students of the postal history of Memphis. Some doubt its authenticity and others believe it is authentic. What we do know is that there are only three recorded examples among the 2c and 5c Memphis provisionals. Two are on 2c provisional covers and one is on a 5c red block of six illustrated below.

One of the two 2c provisional covers is in private hands and there is no available image of it. The second 2c provisional cover is illustrated on the next page.
