

Census of Natchez, Mississippi, Stampless Markings

Compiled by Francis J. Crown, Jr.

Description

Type A

Type C

Type D

Type E

Type F

Type G

Natchez Stampless Markings (not to scale)

The different markings are identified by the 2012 *Confederate States of American (CSA) Catalog and Handbook* Stampless Type. The letters "X, Y, and Z," are used to designate added items not in the CSA Catalog. The absence of a CSA Catalog Type in the illustrations above indicates that item is not included in the census.

Items are presented in the census in the order of the illustrations above.

This census is based on images of covers. Only covers for which an image was obtained are listed in the census. For this reason, this census may be far from complete.

NOTE: Every effort is made to ensure the accuracy of the census, but the inclusion of an item is not a guarantee of authenticity.

Count of the Natchez Stampless Markings

Marking	Color	Type	Covers	Everett Count*
PAID + 2 (red pencil)	Black	A	1	1
Paid 5	Black	C	14	18
PAID 10	Black	D	1	2
Paid 10	Black	E	3	4
STEAM	Black	F	17	--
STEAM + 6	Black	G	3	--

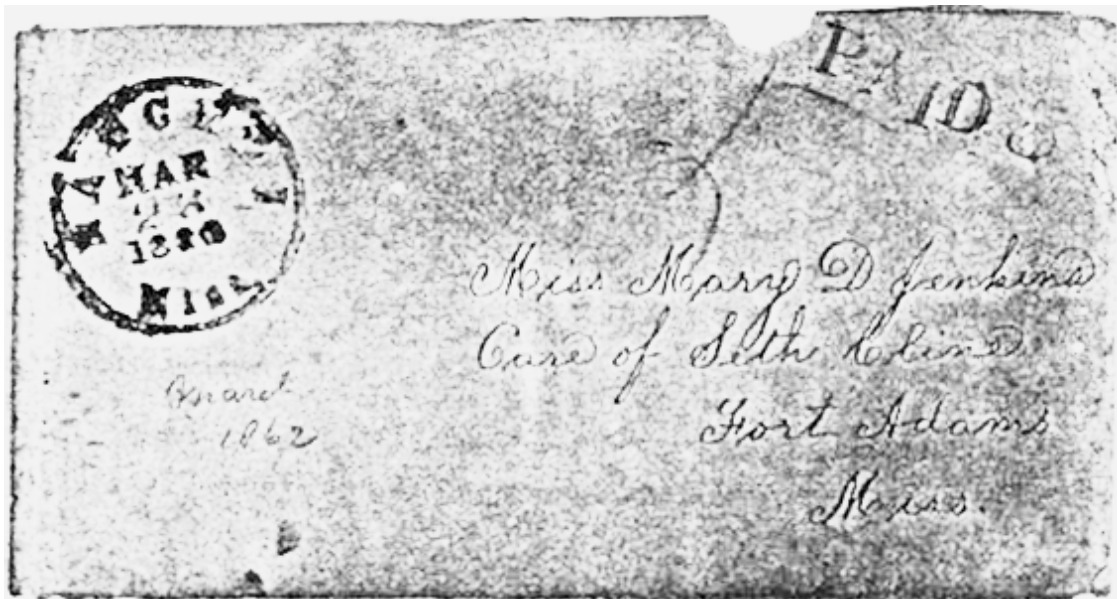

* See "Stampless - Important Information" on Stampless Covers page for information on the Everett Count.

William Parks' book *Civil War Postal History of Natchez, Mississippi*, covers the Civil War period in great detail. The two censuses of stampless markings in the book are more inclusive than this census (see reference).

Notes

The Type B Marking

The Type B marking listed in the CSA Catalog is questionable for several reasons. First the year date in the postmark is not clear (see image below). It appears to be 1860 but that could be a due to a poor impression. Second the “PAID 5” bears no resemblance to any other marking of the period. Note the crude alignment of the letters in “PAID.” Finally, the postmark is dated March 26. The latest use of any other marking in this census is 1 January 1862. There is one exception: the period from mid-April 1862 until the end of July 1862, when the town was occupied by Union forces. The cover bearing the Type B marking is dated March so it could not fall in this period. Based on these considerations this cover is not included in the census.

Natchez cover postmarked 26 Mar 1862 with a “PAID 5” marking.

Emergency Period of Postal Operations

On 13 May 1862 the city of Natchez surrendered to the captain of a Navy gunboat. Just before and after the surrender of the city the postmaster, Mellon removed stamps, equipment and records from the post office to a place of safety and continued to provide postal service. It was during this period that the improvised “PAID 10” marking (Type D) was used. At the same time an improvised postmark was used with the state abbreviation “Miss” instead of the normal “Miss.” Also the month in the postmark was in a sans serif font instead of the normal serif font. The emergency period ended about the end of July when postmaster Mellon returned the equipment and supplies to the post office.

Penciled Markings

A number of Natchez covers have red or primarily blue penciled markings. These appear to be notations by the postmaster or postal clerk of the amount paid by persons mailing letters at the post office. These markings are not consistent across all stampless covers.
