Type E

Type F

Type G

Type H

### Chapel Hill Stampless Markings (not to scale)

The different markings are identified by the 2012 *Confederate States of American (CSA) Catalog and Handbook* Stampless Type. The letters "X, Y, and Z," are used to designate added items not in the CSA Catalog. The absence of a CSA Catalog Type in the illustrations above indicates that item is not included in the census.

Items are presented in the census in the order of the illustrations above.

This census is based on images of covers. Only covers for which an image was obtained are listed in the census. For this reason, this census may be far from complete.

**NOTE:** Every effort is made to ensure the accuracy of the census, but the inclusion of an item is not a guarantee of authenticity.

## Notes

### Type Hb Cover dated 28 June 1861

The markings on this cover (see below) are somewhat confusing. The destination (Williamston, NC) is over 500 miles from Chapel Hill, as such the cover should have been rated due 10. Instead, there is a Chapel Hill negative "5" due marking. At some point the manuscript "Due 5" was added. Was this to be added to the negative "5" due marking? If so, this was a departure from the norm where the postmaster would add a "5" below the "5" marking and then sum to the two markings to make "10." This is the only Chapel Hill cover with two different due markings.
