Wilmington Stampless Markings (not to scale)

The different markings are identified by the 2012 *Confederate States of American (CSA) Catalog and Handbook* Stampless Type. The letters "X, Y, and Z," are used to designate added items not in the CSA Catalog. The absence of a CSA Catalog Type in the illustrations above indicates that item is not included in the census.

Items are presented in the census in the order of the illustrations above.

This census is based on images of covers. Only covers for which an image was obtained are listed in the census. For this reason, this census may be far from complete.

IMPORTANT: Only blockade covers with a handstamped "SHIP" marking are included in this census.

The year date of covers bearing the "SHIP" marking are in most cases taken from auctions or other reference descriptions.

NOTE: Every effort is made to ensure the accuracy of the census, but the inclusion of an item is not a guarantee of authenticity.

Notes

Legacy Markings

The 2012 CSA Catalog includes as legacy listings Types, B, C, D, Ea, Fa, Fb, Kd, and Kf. Each is addressed below.

Type B - This marking apparently gained listing based on the cover illustrated below. At first glance the stamp appears to be tied by a double strike of the Wilmington postmark. Close examination reveals the stamp was placed over a postmark and then tied by the Wilmington postmark. The underlying postmark is a North Carolina, town probably Tawboro, which used a "PAID + 5" marking like that on the cover. The 5c blue stamp paid the forwarding postage from Wilmington.

PAID 5

Type B

Types C and D - An example either marking was not found in the preparation of this census.

PAID 5

Type C

PAID 5

Type D

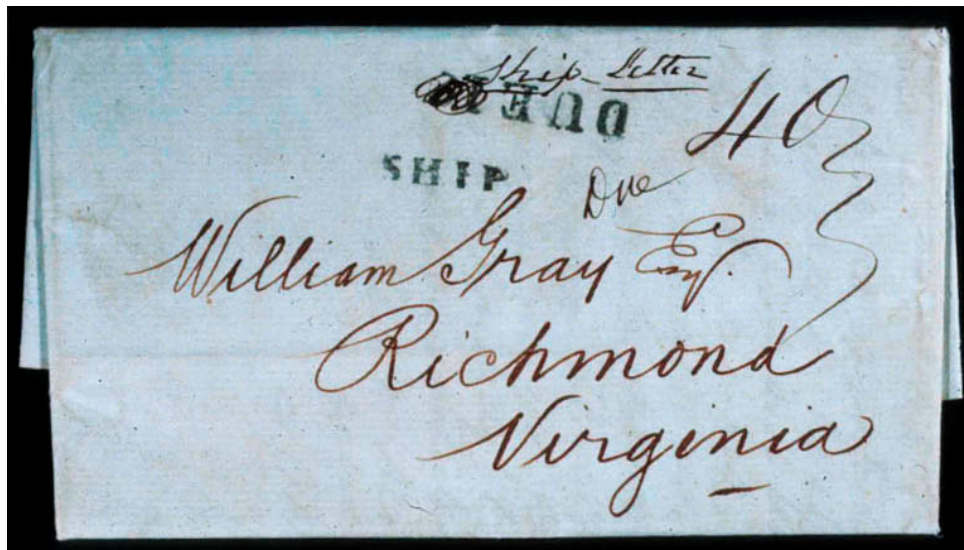

Type Ea - This is an incorrect listing in the CSA Catalog. To be a stampless marking the Type E marking must represent both the postmark and rate. If an additional rate appears the marking is a postmark, not a stampless marking.

Type Fa - This is an incorrect listing in the CSA Catalog. See Type Ea

Type Fb - No example of this marking was found in the preparation of this census.

Type Kd - No example of this marking was found in the preparation of this census.

Type Kf - The cover below was the basis for the CSA Catalog listing. However, the listing is incorrect. The "SHIP" and "Due 40" were applied in Wilmington, The "DUE 10" marking was applied in Richmond.

Integral Rate Postmarks

Two integral rate postmarks were used at Wilmington (Types E and F). When used on a cover without any other marking they are considered both the postmark and rate marking. When used with a rate marking they are only considered a postmark. There are examples of the markings with manuscript "Paid 5" marking. The manuscript rate in almost every case appears to have been written by the person who addressed the envelope and not a postal rate applied by a postal worker.

MISSENT Covers

Wilmington covers bearing the MISSENT marking do not have a Wilmington postmark, just the missent marking.

Blockade Runner Arrivals at Wilmington

See Appendix A for a list of blockade runner arrivals at the port of Wilmington.
