

Census of Chattanooga, Tennessee, Stampless Covers

Compiled by Francis J. Crown, Jr.

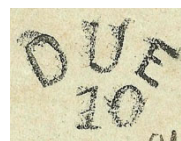

Description

Type A

Type C

Type D

Type F

Type G

Type H

Chattanooga Stampless Markings (not to scale)

The different markings are identified by the 2012 *Confederate States of American (CSA) Catalog and Handbook* Stampless Type. The letters "X, Y, and Z," are used to designate added items not in the CSA Catalog. The absence of a CSA Catalog Type in the illustrations above indicates that item is not included in the census.

Items are presented in the census in the order of the illustrations above.

This census is based on images of covers. Only covers for which an image was obtained are listed in the census. For this reason, this census may be far from complete.

NOTE: Every effort is made to ensure the accuracy of the census, but the inclusion of an item is not a guarantee of authenticity.

Count of the Chattanooga Stampless Covers

Marking	Color	Type	Covers	Everett Count ¹
PAID / 5 (in hexagon)	Black	A	16	14
PAID (in arc) / 10	Black	B	-- ²	2
PAID / 10 (in circle)	Black	C	3	2
DUE / 10	Black	D	17	NA
DUE / 10 revalued 20 (ms)	Black	Dx	1	NA
DUE (in arc) / 20	Black	E	-- ²	NA
5 [due]	Black	F	3	NA
10 [due] (small)	Black	G	4	NA
10 [due] (large)	Black	H	5	NA

1. The **Everett Count is not always accurate**. See 'Everett Count' under "Notes."
2. This is a legacy listing in the 2012 CSA Catalog. No example was found while preparing this census.

Notes

Legacy Listings – Type B and Type E

PAID
10

Type A Marking

The Type A marking started out as a circular PAID / 5 marking. Over time it evolved into a hexagonal marking as shown in the images below.

25 June

8 July

22 July

18 August

29 August

20 September

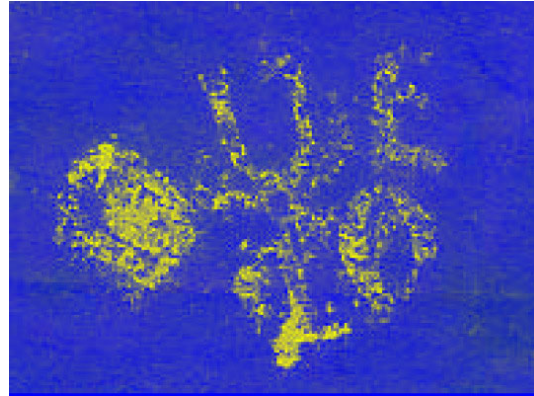

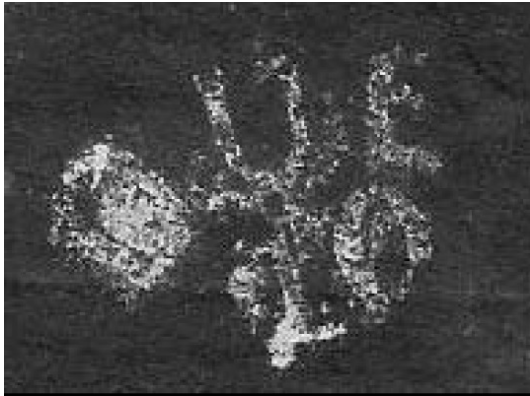

In June, the marking was almost circular. In July, the rim began to show signs of indentations. By August, the marking had become hexagonal in shape. What caused the marking to change in shape is unknown.

DUE / 20 Marking.

The CSA Catalog lists this as a separate marking however, on close examination Figure It appears to be no more than a revalued 10 marking. In the illustration below there appears to be a “1” under the “2.” For this reason, the marking is given the Type Dx in this census instead of the Catalog Type E.

The two images below were obtained using Postmark Reveal. These image more clearly show the “1.”

Everett Count

Reliable censuses of stampless covers do not exist. In the late 1970s and early 1980s Morris Everett published lists of the gross number of individual stampless markings he had collected since 1946. They were listed by the 1956 Dietz Catalog types and were not detailed lists, just numbers. In the initial list Everett noted:

“One of the principal problems I’ve had in compiling my lists is that well meaning collectors have reported owning such and such handstamp paid covers, but they have failed to identify these holdings (as requested) by supplying the date in the canceller or the address details. This has meant that in a number of instances, I have had to assume that when later reports in full were made that they were referring to the unidentified covers. . .”

In addition to the problems noted by Everett there are two other problems. Everett gives the stampless type, the postage value, and the total quantity. These do not always align with the types listed in the 1956 Dietz Catalog and in some cases Everett introduces unlisted types. The other problem is the additions to the basic listing contained in the two subsequent listings are not always based on the original totals resulting in errors in the final totals.

As can be seen by Everett’s remarks and the errors mentioned above, the counts in his listings are not always accurate. The Everett counts are only included in this census to give users **an approximate idea** of how many examples of a particular stampless marking were known 40 years ago.

The Everett listings **did not include due markings or markings that were all manuscript.**

Everett’s listings first appeared in the *Dixie Philatelist* as a series of articles in the summer of 1978 through the winter of 1980 issues. Later the articles were combined in the booklet *Confederate Handstamped Pairs* published by the Confederate Stamp Alliance in 1981. An addendum, *Confederate Handstamp Pairs Addendum*, was published by the Confederate Stamp Alliance in 1983. A second addendum was published in the July-August 1987 issue of the *Confederate Philatelist*.
