Macon Stampless Provisionals

The 5c stampless provisionals were prepared by replacing the date logos in a prewar postmark with "PAID" and "5" markings and handstamping envelopes with the device. The 10c provisionals were prepared by handstamping envelopes with a "PAID / 10" rate marking.

The "PAID / 10" stampless provisional is only considered a provisional when it is postally unused.

NOTE: The inclusion of an item in this census is not a guarantee of authenticity.

Description and Count

Provisional	CSA Cat No	Scott Cat No	Covers
5c black (PAID / 5)	MAC-GA-E01	53XU1	21
5c black (5 / PAID)	MAC-GA-E02	53XU1	4
10c black	MAC-GA-E03		2

Notes for the Collector

Penciled Rate Markings

One third of the Macon stampless provisionals have either a penciled "5" or a manuscript paid marking (see example below). The penciled "5" markings, which are on nine covers in this census, may be an indication of a clerk writing the rate on the envelope when it was presented for mailing. Later a clerk would apply the appropriate rate marking. This practice was so common in the US stampless period that there was a regulation prohibiting the practice.

The 1847 *Postal Regulations* state:

§ 79. At offices where there is much business, the work of rating and marking should be performed as fast as the letters are received, and not left until the time of closing the mail, when, in the hurry of business, many errors might be committed.

The penciled "5" at upper right is partially struck over by the provisional marking. Courtesy Schuyler Rumsey Auctions.
