

Census of Charleston, SC, Adhesive Provisionals

Compiled by Francis J. Crown, Jr.

Adhesive

Charleston Adhesive Provisional

The Charleston postmaster, Alfred Huger, apparently expected the Confederate Post Office Department to issue stamps soon after the takeover of the postal system on 1 June 1861. This did not happen and in mid-August he contracted with Evans & Cogswell Company to prepare stamps and envelopes.

The stamps were prepared using the lithographic process. The printing stone was composed of 90 subjects (10 x 9). The stamps were printed in blue on white wove paper. The sheets of 90 were sold for \$5.00 with the surcharge used to pay for the printing costs.

The *Charleston Mercury* announced the availability of the Charleston adhesives provisional in their 6 September issue. However, the earliest recorded use is 4 September 1861, indicating the newspaper was a few days late with the news.

On 9 December Postmaster Huger had a notice in the *Charleston Mercury* stating stamps of the Confederacy had been received and were on sale. Further that on and after 13 December all letter postage was to be paid by stamps, but the Charleston provisionals already purchased would be recognized but no more would be sold. Uses of the Charleston provisional are recorded into February 1862. A number of the provisionals are also recorded used on covers in June 1862. Some authorities attribute the use of provisionals at this time to a shortage of Confederate postage stamps and the reintroduction of the provisionals as substitutes. However, there is another plausible reason. With the rate change becoming effective on 1 July people who still had provisional stamps may have decided to use them in the mistaken belief that the rate change would make them worthless.

More details on the printing and plating can be found in Richard Calhoun's 2012 book on the Charleston provisionals (see 'References' in "Notes").

This census contains 139 illustrated covers. The census conducted by Richard Calhoun in 2012 lists 160 covers. If a cover cannot be found in this census, it might be listed in that census (see "References")

WARNING: There are some excellent fakes of the Charleston postmarks of the period. If there is any doubt use of an authentication service is recommended.

NOTE: Every effort is made to ensure the accuracy of the census, but the inclusion of an item is not a guarantee of authenticity.
