

Census of 2c Blue New Orleans, Postmaster's Provisionals

Compiled by Francis J. Crown, Jr.

Adhesive

NEW-LA-A01

The 2-cent blue New Orleans provisional

All the New Orleans adhesive provisionals were engraved on wood and reproduced as stereotypes or electrotypes. From these plates of 40 subjects the stamps were printed.

The 2-cent blue provisional was the first of the two New Orleans 2-cent provisionals placed on sale. They are recorded on covers postmarked from early July 1861 to late March 1862.

For more information on the 2-cent New Orleans adhesives see Skinner in "Reference."

Notes for the Collector

Unusual Examples

All uses of the 2c blue on cover in this census are tied by a New Orleans postmark, except the two described below.

Courtesy Robert A Siegel Auctions Sale 492 (18May1976) Lot 624

On the cover above the 2c blue is canceled (not tied) by a "PAID" marking. This is the only example not tied by a New Orleans postmark. This cover is not included in the census.

Courtesy Robert A Siegel Sale 753 (29Oct1993) Lot 1143 and Emerald Ventures Sale 11 Mar 2023, Lot 50

On the cover illustrations above the stamp is canceled but does not appear to be tied by the New Orleans postmark. In fact, the postmark seems to end abruptly at the edge of stamp. However, the Robert A Siegel description and the Brian Green Certificate 179 state the stamp is tied. This cover is included in the census.

A Fake

Courtesy Robert A. Siegle Auctions

The cover above received a bad certificate from the Civil War Philatelic Authentication Service. However, it was only after careful examination by two highly qualified collectors, one of whom was Hubert Skinner. He wrote, "I have studied the cover fully and carefully. . . . I compared it with each of the 40 positions on the 2c plating by Stern and it definitely does not match any one of the 40 positions. In my opinion, the stamp is unquestionably counterfeit." He also found problems with the postmark.
